Dr. M.O. Bousfield, Director of Negro Health
Julius Rosenwald Fund.

Dear Dr. Bousfield,

In your last letter you asked that I let you know where I would persue my surgical work granted that a stipend be obtained. I have just definately learned that I might continue my studies at Freedmen's Hospital and Howard University as a Fellow. Dr. Howes told me to tell you that he said this, and I can begin work as soon as financial arrangements are made.

There will be no tuition, but I am hoping for a stipend to help maintain myself.

During a 2 year Fellowship period I will do some teaching, research, and some operating.

I do most sincerely hope that you will find that you are able to assist me.

Respectfully yours,

Floarda Hughes Howard
