Very good record and good letters  
I can't believe that T.C. has  
anything to offer to rural  
<sup>(we don't need more research & Ph.D. theses in rural ed.  
or rural activity)</sup>  
education in the South. Therefore  
this case does not interest me  
anything like as much as that  
of Robert C. Beeman who has a  
topic that needs study and may  
warrant a report & publication - (and  
on which supervision & oversight of F.C.  
will be valuable)
