

Negro Physicians

~~SCHOLARSHIP~~

May 10, 1937

Dear Dr. Mizell: I am exceedingly sorry that you have been unable to make satisfactory arrangements with Grady Hospital. You were not granted the scholarship for which you applied last February, and I confess that I hate to advise you as to which of the suggestions you should follow in your letter of May 1. A good deal depends upon what you want to do and which of these places offers you the best opportunity for your further training. I should say that the most difficult thing to get is a scholarship for foreign work. I hope to see you when next I visit Tuskegee.

Very truly yours,

M. O. BOUSFIELD
