Assistant in Philosophy, Duke

Social Philosophy

Good head and very high  
recommendations -

This project is terrible  
No kid of this age should undertake  
to study the offerings of the universities  
of the South. Evidently Widger  
wants to use him as intellectual  
crand boy -

Because of endorsements (and with  
the understanding that his project  
were revised) I mark him for  
the present
