Memorial Hospital
Winston-Salem,
North Carolina

September 6, 1938

My dear Dr. Bausfield

I am writing to let you know that one of my problems has been solved. The Science laboratory for the students. I had a conference with Mr. Jack Atkins, manager of the North Carolina Teachers College told me that the nurses may use the College Science laboratory for the science courses. The laboratories are already equipped for use. I wish you would help me with the library problem.

Yours truly,
Edna Ila' Purdie
