KARL DREW HARTZELL

Associate Professor of Economics and Soc. Science
Georgia School of Technology

History

Born and educated in North
Carolina - South only since his Teach appointment - 1935
His grandfather (whose biography he wants
to write) was in South from 1870 to 1896
a prominent figure in Negro and inter-racial
relations of Post war era.

He doesn't rank at top among scholars
(though Brinton of Harvard says in any
comparative scale, I should rate him well toward
the top) The proposed biography is
so interesting & valuable a project and
Hartzell so fitting a man to do it, that
in spite of objections listed above I wish
his application
