Dear Dr. Bousfield:

It has come to my attention that Dr. J. S. Perry of Wilmington, N. C. is interested in nervous and mental diseases and contemplates a postgraduate course in the study of such diseases if he can finance the arrangements. It is well understood that a certain knowledge of these diseases is essential in the care and treatment of many cases which present themselves to the general practitioner, and Dr. Perry is to be commended for his interest in such conditions.

Yours very truly,

Superintendent.
