VINCENT JEFFERSON BROWNE

(21)

Graduate student, Harvard

Government

Brilliant mind

Fine face

Very young - and just started  
on his graduate work

I suggest we let him struggle  
on his own for another year  
and consider him again in 1940

To keep him in the active file I vote

A -

1940

VINCENT J. BROWNE

Graduate student, Harvard University

Political science

Young man, with an already  
excellent record

I rated him A - last year  
and we decided to defer consideration  
for a year or two of further  
maturity - That has now taken place

Bunche speaks in highest terms  
Lambert of Harvard, his chief  
professor, also in very high terms

Halembka says "a young man of superior  
but not of the highest ability" but goes  
on to recommend him highly

A
