Art and Creative Writing

Just over age
Texas is not the center of our
field
Art collecting & writing is
a bit removed. ^{and maybe closer to} ~~from~~ creative
art. In spite of high
appraisal of Boutevins I
don't not include this man
I am also prejudiced by his
only portrait

CREATIVE WRITING JURY: An excellent application, to say the least. He inspires confidence in one who knows little about art and artists. It would be hard to rate him against the creative writers, but his case looks fine. He certainly knows how to plan and lay out a job.
