

GEORGE WYATT WILLIAMS

Assistant Professor of Biology
West Virginia State College
Institute, West Virginia

Biology

A good flogger
I don't see anything outstanding
that we could do as help toward
sending out one more Ph.D.
(in a total of two or more likely three years)

Name George Wyatt Williams Field: Biology

Assistant Professor of Biology, West Virginia State College
Institute, West Virginia

Plan of Work To continue from a morphological and cytological viewpoint, including conjugation, a preliminary study of three ciliates (Metaradiophrya, Anoplophrya and Pisgilotoma), one stomatous and two astomatous, found in earthworms.

Requests grant for one year beginning September 1948. Wishes to do research and work toward the Ph.D. degree in the Department of Protozoology at the University of Pennsylvania under the supervision of Dr. D. H. Wenrich.

Personal Data Born Dunloop, West Virginia, January 1906 Age: 42
Married, three dependents Draft Status:
