September 29, 1937.

Dr. M. O. Bousfield,
Associate Director Medical Services,
Julius Rosenwald Fund,
Chicago, Illinois.

Dear Dr. Bousfield,

I had the pleasure of hearing from you last year when I was located at the Insular Sanatorium at Río Piedras, Puerto Rico. Since my return to New York I have had occasion to speak with Dr. Margaret Barnard of the the New York City Department of Health and with Mrs. Helene London of Chicago on her way through here to Europe, of certain plans I have for the acquiring of some Public Health training, which, in conjunction with my experience in clinical tuberculosis, will qualify me for tuberculosis control work in which I am interested. I am at present enrolled in the Institute of Public Health at Columbia University. Both Dr. Barnard and Mrs. London spoke of the Rosenwald Fund, and particularly of you as a person who would be interested in such plans. I should appreciate very much the opportunity of seeing you whenever you may visit here and discussing such plans with you.

Very truly yours,

J. S. Peterson
