TALLAHASSEE

Nest Palm Beach,

AKS	12/17/28	Dec. 12, 1928
	12/27	W.B.H.

Dear Mr. Stern:

I have spent three days in making a survey of all the Negro schools in Palm Beach County - 12 schools and 50 teachers - with Mr. Williams (State Agent) Mr. B. C. Caldwell and Duft. Youngblood, and am taking out time to write you briefly the conditions and emergency needs.

I have seen ^{enough} wrecked schools and homes over the county for these three days to give one a great feeling of depression, but the hopeful, cheerful spirits of these homeless colored people and the fine spirit of the white people wherever we went, helped to keep my spirits up, and gave us courage to venture through the Everglades country where but few visitors have dared go because of the dangerous condition of the roads in places.

Let me dismiss the harrowing scenes which we beheld by saying that no story written in the news papers painted the pictures as bad as they really were. My pictures will give you some

STATE OF FLORIDA

DEPARTMENT OF PUBLIC INSTRUCTION

TALLAHASSEE

W. S. CAWTHON,
SUPERINTENDENT

idea when I have them developed and printed. 9 of the schools were completely wrecked, in several there was nothing left except a few stones in the foundation and an occasional desk scattered around sometimes a half mile from the school site. The only school in the County - white or colored - ^{not damaged} - was the three-teacher Rosenwald School at Baynton. It withstood the storm perfectly, although practically every house in that community was ruined or badly damaged, including the beautiful two story white school that was practically ruined. The teachers told us that the Ros. School saved hundreds of lives.

After visiting every school in the County and helping to locate them properly we find that they will need 3 five-teacher schools, 1 four-teacher, 1 three-teacher, 4 two-teacher and 2 one-teacher, and repairs and building the shop in the West Palm Beach Negro high school with 1000 pupils enrolled - they have already spent \$12,000 on this building from insurance, mainly but did not have enough to complete the job. Most of the

STATE OF FLORIDA
DEPARTMENT OF PUBLIC INSTRUCTION

TALLAHASSEE

W. S. CAWTHON,
SUPERINTENDENT

old buildings were insured but the amounts are insufficient to rebuild the schools properly, even after receiving the Rosenwald aid according to the regular allotments for the various types.

We are urging that they build storm proof structures - storm sheathing, subfloor, etc, which will prevent the buildings from collapsing and serve as a safety refuge not only for the children but for entire communities. Since the Baynton school (built exactly according to our Community plan 3-B) resisted the storm, both Negroes and whites have learned about it and want to use the same kind of construction in their communities. Hundreds of lives were lost - more than 1800 - in the communities we visited yesterday, many of them in the frail schoolhouses and churches where they had fled for refuge. If they had had modern schoolhouses on our plans most of them could have been saved. If the Fund would appropriate \$8,800 from the Contingent

STATE OF FLORIDA
DEPARTMENT OF PUBLIC INSTRUCTION

TALLAHASSEE

W. S. CAWTHON,
SUPERINTENDENT

fund for an emergency fund to Palm Beach County, to be used in addition to the regular aid for the various types, we have plans that will make every Negro school in the County a Rosenwald School, and finish repairs on the two city schools in West Palm Beach costing more than \$40,000. In this we will have one consolidation with transportation unless the Negro population shifts near the central ~~at~~ school which is to replace a one-teacher and 3 two-~~teacher~~^{room} buildings. I have planned them a five-teacher school (H) with an open court auditorium which is fine for this climate. If the officers favor granting this County \$8800 emergency fund and will notify my office, they will be ready to begin at once and build all the schools, several of them in time for use

this next spring when their crops
are out of the way (They farm here in winter).
They can build cheaper now than later on.

Practically ^{all} the children in these
schools are in farming sections. We
investigated in each community to see
whether the Negroes had left and found
that many did at first but that in
practically every community all are back
who did not lose their lives, and are
at work on the farms, even though they
have no homes to live in - some have
tents, others are building back. The supt.
has made due allowance for the few
hundred children who were drowned.

If they could build teachers homes
at 4 or 5 of these schools it would
help to solve a difficult problem, as there
are no extra places for the teachers to board or live,
but the County has no money it can use
for buildings, except the insurance money,
without voting bonds and they could never
vote a bond issue at this time when hundreds
of people cannot pay their regular taxes, or even rebuild
their homes (both white and colored).

Pardon me for not dictating this and having
it typewritten but we did not get in till late.

too late to get a public stenographer. It is now far beyond midnight.

If I have failed to make out a case in this rather long letter it is due to my being a little tired after these few tedious days, and not to a lack of merit in the cause I have presented.

Tomorrow we visit schools in Broward and Dade counties, south of here, spend the night in Miami, and on Friday Mr. Caldwell and I expect to leave for Cuba-Havanna. I will stay till my money runs short and then return to Nashville. I hope to reach home by Dec. 21, or 22.

Sincerely,

S. L. Smith

December 27, 1928

Mr. S. L. Smith
The Julius Rosenwald Fund
Chamber of Commerce Building
Nashville, Tennessee

My dear Mr. Smith:

The recommendation contained in your letter of December 12th, addressed to Mr. Stern, that an amount be authorized from the appropriation for "special aid to backward counties and other contingencies in the Negro rural school program" to be used for rebuilding the Colored schools destroyed in Palm Beach County, Florida, has been approved by the President of the Fund.

It is our understanding that so much as may be needed up to a total of eighty-eight hundred dollars (\$8800.00) will be expended on the program as outlined in your letter. This reconstruction program includes: 3 five teacher schools, 1 four teacher school, 1 three teacher school, 4 two teacher schools, 2 one teacher schools and repairs and building of the shop in the West Palm Beach Negro High School.

In view of the conditions described in your letter I am happy to be able to report favorable action on this recommendation.

Very truly yours,

WBH:MM

WILLIAM B. HARRELL

FISK
UNIVERSITY

December 28, 1928

Dear Mr. Williams:

Today I sent you this telegram with a statement that a letter would follow:

FUND APPROVED MY RECOMMENDATION OF EIGHTY EIGHT HUNDRED DOLLARS EXTRA AID IN REBUILDING NEGRO SCHOOLS IN PALM BEACH COUNTY OF GOOD CONSTRUCTION STORM PROOF THIS IS IN ADDITION TO REGULAR AID AND MAY BE ALLOCATED WHERE NEEDED TO COMPLETE PROGRAM HOPE HE MAY BE ABLE TO REBUILD THEM SUBSTANTIALY LETTER FOLLOWS

The officers approved the amount just as was asked - \$8,800. This, as you will recall, is a little in excess of Superintendent Youngblood's estimate, but I felt that it would be needed to insure construction that would be storm resisting.

This extra appropriation is given to enable Superintendent Youngblood and his board to erect substantial buildings which will be storm proof, resisting the winds just as the school at Boynton did. In order to have such a building it will be necessary to have (1) a good foundation, preferably solid with large air vents, tying the sills to the foundation by means of substantial iron rods set firmly in the concrete and extending through the sills and well bolted down; (2) heavy framing timber, preferably 2 by 6 studs and rafters; (3) one inch storm sheathing and sub-floor put on diagonally and nailed substantially at each bearing. Such construction will prevent the buildings from cellopping or from being blown off the foundation, and would be a great means of safety to the lives of the people in that section in time of storm.

If Superintendent Youngblood should desire to use stucco on the outside of the storm sheathing instead of the regular wood siding, we could allow \$50.00 per classroom additional for permanent construction.

I am attaching copy of the list made out by Superintendent Youngblood the last day we were in his county, giving his estimates of the cost of each building and the additional amount necessary for completion. I based my recommendation for an appropriation on this list, but made about \$450.00 additional allowance in order to take care of the situation properly. He may find it necessary to change the amount slightly, depending on the cost and what can be raised from other sources. I am sure you will be able to help him erect a complete system of schools there.

Enclosure

Sincerely yours,

Mr. D. E. Williams,
Tallahassee, Florida

UNIVERSITY

November 7, 1928

Dear Mr. Williams:

In order to stimulate the building of a school in every county which has no Rosenwald school, the following resolution was passed at a recent meeting of the Board of Trustees:

That the Julius Rosenwald Fund offer a sum one and one-half times as large as the present allotment to the first Negro school unit built in each of the counties in the fourteen Southern States where there is no Rosenwald School; the school unit to consist of a schoolhouse from a two-teacher to a ten-teacher type, and to include if desired a shop or teachers' home, this offer to extend until June 30, 1929.

I am sure you will want to make this bonus of 50 per cent on the first school built in a county as far reaching as possible, and that you and the superintendent will put forth much effort to see that an unusually good building is erected and well equipped, as a demonstration to other communities in the county which may qualify for the regular allotment.

In a new county where two or more small communities are desiring to build Rosenwald schools of the one-teacher type, it may be possible for you to use this bonus to encourage the building of a consolidated school; or possibly in some community where they are planning to erect a frame building you might use this to stimulate the erection of a permanent building, since the bonus would be larger for this type of construction.

There may be some new county which could be induced this year to build a model school unit - a schoolhouse, a teachers' home, and a shop - because of the extra 50 per cent on each of the three buildings.

The Fund has made a special appropriation to take care of this bonus so that it will not come out of your regular budget allotment.

Please let me have your reactions on this new project and suggestions as to how many new counties you think can take advantage of this exceptional offer the present year.

Sincerely yours,

Mr. D. E. Williams,
Tallahassee, Florida

C O P Y

PALM BEACH COUNTY
BOARD OF PUBLIC INSTRUCTION
West Palm Beach, Florida

October 30, 1928

Mr. D. E. Williams
State Agent for Negro Schools
Tallahassee, Florida

Dear Mr. Williams:

In accordance with your suggestion I am glad to submit a statement of the hurricane damage in Palm Beach County. The insurance adjustments have not been completed, but I feel that the figures which I indicate below will give you a pretty good picture of the situation.

Every school building in the county damaged
33 buildings totally demolished
Present estimate of damage to buildings \$275,000.
Present estimate of damage to equipment 30,000.

The following statement shows the damage to negro schools in the county:

Name of Sch.	Value Bldg.	Amt. Loss	Insurance	Net Loss	Eq. Loss	Total
Boca Raton	\$1,000	\$1,000	none	\$1,000	\$250	\$1,250
Delray M. Tr.	700	700	\$400	300	100	400
" Main Bldg.	5,000	2,240	2,240			
Boynton	8,000	150	150			
W. P. B. Ind. Hi	25,000	12,000	12,000		300	300
Pleasant City	17,500	1,100	1,100			
Inlet City	1,000	1,000		1,000	250	1,250
Kelsey City	6,000	6,000	3,000	3,000	300	3,300
Jupiter	2,000	2,000	1,200	800	200	1,000
Canal Point					225	225
Pahokee	2,000	2,000	1,000	1,000	250	1,250
Belle Glade	2,750	2,750	1,450	1,300	200	1,500
South Bay					200	200
Total Net Loss						\$10,675.

In addition to this net loss on the negro schools we have a loss of approximately \$40,000 on the other buildings and equipment.

FISK
UNIVERSITY

Fortunately the insurance which will be available will enable us to proceed with the repairs and reconstruction work. In fact we are making repairs at this time on our permanent buildings, and have been able to have most of the school children take up their school work. Two negro schools in West Palm Beach opened Monday, but for some time it will be necessary to work under conditions which will be far from favorable. It occurs to me that the opportunity which is now presented to replace the negro school buildings with structures better planned than some of our old ones might justify you and your Board in helping the Palm Beach County Board of Public Instruction to erect these buildings. The insurance money supplemented by such funds as you may be able to secure for this purpose would result in better buildings in some localities.

It was a part of our program to secure recognition of the Negro High School in West Palm Beach as a Standard High School this year. If this is done it will be necessary to provide library and laboratory equipment and we should be very glad to have your assistance. Please present this matter to your Board and assure the members that we shall be glad to have assistance in working out the negro school problem in Palm Beach County.

I appreciate the consideration shown by you and Mr. Favrot at the time of your recent visit. It was a pleasure to be associated with you and to note the interest which both of you manifested in our situation here.

Thanking you for any help which you may secure for us, I am

Cordially yours,

Signed JOE A. YOUNGBLOOD
County Superintendent

Total	33	31 \$31,900	\$16,150	\$15,750	\$7,400 * 8350

The above does not include the Delray County Training School. If it should be built this year Supt. Youngblood might use the other \$1,400 (\$8,800 less \$7,400) as extra aid on it, in addition to the regular amount the Fund would give, or it may be used to supplement the amounts needed on any of the buildings above.

\$450

* 8350.

July 11, 1928

Dear Mr. Williams:

Since the announcement of the 1928-29 budget which gives an extra allowance of \$50 per room for brick veneer or other permanent construction, and the subsequent announcement of an extra allotment of \$50 per room on shops and \$25 on teachers' homes built of permanent construction, requests have come for the same consideration in additions to permanent buildings.

The officers of the Fund have therefore approved an extra allotment of \$50 per room for addition to a permanent building of two-teacher type or larger where such addition is built of permanent construction in keeping with that of the original building.

Sincerely yours,

Mr. D. E. Williams,
Ward-Belmont College,

SENT BY

DEPT. JULIUS ROSENWALD FUND- 4:25

FISK
UNIVERSITY

AKS 6/1/28

THE JULIUS ROSENWALD FUND

CHAMBER OF COMMERCE

NASHVILLE, TENNESSEE

June 16, 1928

Dear Mr. Stern:

I think I told you about three projects in Florida where the State Department of Education and the Smith-Hughes Supervisor of Trades desire to build shops this summer and concentrate in establishing three trade schools in connection with county high schools - Pensacola (31,035 population), Palatka (5,102 population), and Lakeland (7,062 population). Each of these cities has a four-year high school in fairly good condition, serving the entire county, but these are not Rosenwald schools.

When we were discussing this you thought we might consider waiving the requirement that shops could not be built except in connection with Rosenwald schools. Mr. Williams was in the office yesterday and stated that he thought a three-room shop might be sufficient to take care of both the boys' trades and the girls' vocational home economics, to begin with. At Pensacola there are 155 girls in the four-year high school work of home economics with two full time teachers, and there is one man giving full time to the boys' trades. He has more than 75 taking the work. In my opinion they would need to have four rooms to begin with. While this superintendent told us he hoped that he could receive considerably more than the regular shop allotment, I believe he would build it if we could give him \$750. (check) As his Board meets about the 22nd of June to decide the matter, Mr. Williams would like to let him know what action has been taken in regard to this shop. The Boards will meet in the other counties about the same time.

I shall be glad to have you and Mr. Ambree consider the matter, deciding whether it should be taken care of out of the regular Florida budget next year or come out of the special appropriation for city schools. The State Department of Education agrees to pay one-half the salaries of the trades men and the vocational home economics teachers. Florida proposes to try the experiment out in these three centers for the next two or three years, giving the students the kind of trades that they will likely have to follow in each of these sections of the State..

Sincerely yours,

Mr. Alfred K. Stern,
Chicago, Ill.

S. L. Smith

May 3, 1928

Dear Supt. Gawthon:

The Board of Trustees of the Julius Rosenwald Fund have made the following appropriation for schoolhouse construction in Florida to be used between July 1, 1928, and June 30, 1929, in keeping with the Plan for Distribution of Aid, which will be mailed you a little later:

Type	No.	Amount per Type	Total	Amount for Brick or Permanent Con- struction
One-teacher	3	\$200.	\$600.	\$200.
Two-teacher	6	500.	3,000.	500.
Three-teacher	4	700.	2,800.	850.
Four-teacher	2	1,000.	2,000.	1,200.
Five-teacher	2	1,200.	2,400.	1,450.
Six-teacher	4	1,400.	5,600.	1,700.
Seven-teacher	-	1,500.		1,850.
Eight-teacher	1	1,700.	1,700.	2,100.
Nine-teacher	-	1,900.		2,350.
Ten-teacher	2	2,100.	4,200.	2,600.
<u>Teachers' Homes</u>				
Four-room	-	450.		
Five-room	-	600.		
Six-room	-	750.		
Seven-room	-	900.		
<u>Shops</u>				
One-room	-	200.		
Two-room	2	400.	800.	
Three-room	-	600.		
<u>Classroom add.</u>	-	150.		
<u>Totals</u>	<u>26</u>		<u>\$23,100.</u>	

The number of one-teacher schools is the maximum on which the Fund will give aid the next budget year, and the number of two-teacher schools cannot be exceeded without special authorization by the officers of the Fund. In keeping with modern trends of education the Fund desires to concentrate more and more in the larger consolidated schools.

In order to stimulate the construction of more permanent buildings the Fund has increased its allotment \$50.00 per classroom for brick veneer, solid brick, or satisfactory concrete construction, as shown above in the last column, the maximum for a ten-teacher or larger being \$2,600. We now have a complete set of plans worked out in detail for brick veneer construction from a three-teacher to a ten-teacher type, which will be furnished the State Department as needed.

For the present budget year the Fund is giving aid on two types of shops - a one-room (\$200) and a two-room (\$400). Because of urgent

demands from some of the states it was thought best to increase this aid for 1928-29 to \$600. for a three-room shop to include facilities for home economics in the larger vocational schools. Plans for a three-room shop have been worked out in tentative form and will be adjusted to suit the needs of the schools to be served.

As the average term of the schools on which the Fund is giving aid the present year is more than six months, it has been decided to increase the minimum requirement for next year from five months to six months.

Please let me take this opportunity in behalf of the officers and Trustees of the Fund to thank you and your staff for your hearty cooperation and to assure you of our interest in every phase of progress in the education system of your State. When we can serve you, command us.

Sincerely yours,

Supt. W. S. Cawthon,
State Department of Public Instruction,
Tallahassee, Florida

cc to Mr. D. E. Williams

FISK
UNIVERSITY

June 15, 1928

Dear Supt. Cawthon:

After the announcement of the budget on May 3, 1928, which includes an additional allowance of \$50. per classroom for permanent construction of rural schoolhouses, it was brought to the attention of the officers of the Fund that this same consideration should be given on shops and teachers' homes since they are an important part of the school plant. The Fund has, therefore, approved the following additional allowance for the year 1928-29:

Shops and Domestic Science Buildings

Type	A	B	C
	Regular Allotment for wooden Buildings	Additional Amount for Permanent Buildings	Total for Permanent Buildings
1-room	\$200.	\$50.	\$250.
2-room	400.	100.	500.
3-room	600.	150.	750.

Teachers' Homes

4-rooms	\$450.	\$100.	\$550.
5-rooms	600.	125.	725.
6-rooms	750.	150.	900.
7-rooms	900.	175.	1075.

We have plans drawn up in detail for brick construction and will have plans in this type of construction for shops and teachers' homes within a few days. We shall be glad to see a large number of permanent buildings erected next year.

Sincerely yours,

Supt. W. S. Cawthon,
State Department of Public Inst.,
Tallahassee, Florida

General Field Agent

1928-29 Budget

July

August 17, 1928

Dear Supt. Cawthon:

We have checked your financial statement of the Julius Rosenwald Fund for the year ending June 30, 1928 with our records and find that they exactly agree, except that we did not have any account of the interest for which you send check amounting to \$16.59. You are the only State Superintendent that has ever sent in any interest on deposits. As the books are closed and audited I am holding check #43 for \$16.59 until I hear from the officers as to what disposition to make of it.

I am returning check #42 to the order of S. L. Smith, Agent, for \$1,400 as there is shown on our records a completed building - Haines City School in Polk County - amounting to exactly \$1,400. Mr. Williams told me that he would inspect the building finally on his return and have check sent as of June 30, 1928. You might issue check for \$1,400 in payment of this school, dating it June 30th and hold it until Mr. Williams returns. This will keep all records straight, placing the Haines City School on the 1927-28 budget in keeping with the inspection report which we have on file, 26-6.

The \$2,200 which you are holding for the Webasse (\$700) and the Gifford (\$1,500) schools in Indian River County is correct according to our records.

Sincerely yours,

Supt. W. S. Cawthon,
Tallahassee, Florida

March 26, 1928

Mr. S. L. Smith,
Chamber of Commerce Bldg.,
Nashville, Tenn.

Dear Mr. Smith:

I am enclosing a list of proposed buildings for which we wish to request from the Rosenwald Fund for next year. This seems like a rather large requisition in terms of our present activities, but I believe that most of these projects will go over.

I did not receive your letter stating you had planned to visit me in Florida until I was well down the state, and I knew that at that time you had received my letter and telegram and that more than likely you would make a change in your plans. I hope that you will be able to visit me during the month of April. I would like to know a few days in advance so that I could plan my work to coincide with your visit.

With every good wish, I am,

Very truly yours,

D. E. Williams
