

who is chief steward for the C.I.O. at Firestone Aircraft Division, was influential in helping to get the union into the plant. My mother lost her job at Scripto Manufacturing Company because she was working to get the union into the company. After losing her job, she continued her union activities as a salaried representative for the C.I.O.

The C.I.O. executives as well as other persons interested in the welfare of labor have expressed a desire to help me get into this type of work. I will appreciate any consideration which is given me.

Dear Sir:

I am writing you in regard to the Rosenwald Scholarships which are available to persons having special abilities in the field of labor problems. I understand that these scholarships are primarily designed for persons who are working.

I am not a working person, however I have worked for the last two summers at Scripto Manufacturing Company. I am very interested in the field of labor and unions. I am twenty years of age and am a 1945 graduate of Spelman College with a major in economics.

I think, perhaps, that my interest in labor problems and unions has been deepened due to the fact that my parents are in that category and are union workers. My father,

In Re: CIO Scholarship

Dear Sirs:

Enclosed is a letter from Miss Annie L. Brown, 109 Hogue Street, NE., Atlanta, Georgia, applying for a scholarship from the Rosenwald Fund.

I hope that you will have someone interview Miss Brown, as her letter indicates that she has good possibilities for service to labor.

Very sincerely,

Dear Miss Brown: At the request of Mr. Frank McCallister I am sending you a set of application blanks for one of our labor scholarships. Although you are not technically eligible as I understand it since you are not a member of a union and actively engaged in union activity at the moment, I will allow you to make application and bring your case before the Committee.

I am enclosing a statement concerning the work-study plan at Antioch. I would suggest that should you receive an award you plan to concentrate on courses offered in the labor field and to spend as much time as possible under the cooperative plan actually working in a union office.

As you will note, the stipend under the scholarship is \$800 which should be ample to care for all expenses at Antioch under the cooperative plan.

I suggest that you return the completed application blanks promptly since candidates will be selected to begin either for the term beginning October 30 or the one beginning January 7 depending upon the time their applications are received and processed.

Sincerely yours,

Mrs. William C. Haygood

Dear Mrs. Haygood:

In reference to your letter of September 14th making inquiry regarding Miss Annie Louise Brown who is applying for a labor scholarship.

Miss Brown is the daughter of two good Union people. Both her mother and father have been working in Union organizations for sometime and have recently been discharged from their jobs because of Union activities.

Miss Brown does not have any experience as a Union person but she is above the average in intelligence, and I think has many of the qualities of leadership which would be valuable to her in Union work.

I believe she would be of benefit to the negro people in the south.

Sincerely Yours,

Dear Mrs. Haygood:

Archie W. Graham, Secretary of the Atlanta Industrial Union Council to whom you addressed a communication September 14th regarding Miss Annie Louise Brown, has requested me to reply to your letter because he is confined to the hospital as a result of an automobile accident.

We have the following information concerning Miss Brown: *Annie Louise*

She has just graduated from high school and, therefore, has had no experience in the labor movement. However, both her father and mother were active in the CIO in the Atlanta District. We, therefore, feel that she has a sufficient interest in the subjects being taught at Antioch and we would appreciate very much your seeing fit to enroll her for this training.

Very truly yours,

W. H. Crawford

Autobiographical Sketch

I was born October 13, 1924 in Atlanta Georgia, and am the oldest of a family of four children. During my entire school career I always participated in many extra-curricula activities because I felt that everything possible should be gotten of my school life. I always found particular interest in public speaking, and consequently I appeared on several programs. On finishing high school I received a scholarship to continue to Spelman College. While in college I majored in economics and minored in English.

Perhaps one of the greatest influences in my life is my church experience. Since the age of twelve years, I have been a member of the Mt. Olive Baptist Church under the pastorate of Rev. W. W. Weatherspool. First, a Sunday School pupil, later to become a Sunday School teacher, which office I now hold. I think that labor and religious work are similar, since they are for the common good of all people.

Recently it has been my pleasure to work with my father and mother in union activities. They have dictated letters to me concerning union activities from which I learned much. Many phases of union

business were made clear to me. My father was chief steward of Firestone Aircraft Division Local 620 - C I O; and my mother was field representative for C I O, thus I had access to much union material which proved to be quite informational and helpful. From time to time I have talked with union officials about different cases which were interesting.

I feel that a year of further training would broaden my knowledge of labor problems and how they should be handled. I feel that further training would tend to bring out those things which I have learned by working with my parents.

I feel that there is a great deal of work to be accomplished in the field of labor. I am of the opinion that better relationships need to be created, and I will help in whatever ways possible to create some. I feel that there is a big job to be done in the labor movement, and I plan to help do it. My plans for my future career in the labor movement would be of such to do all the good possible to all people. As time goes on, I believe that

more labor problems will arise, and I do believe that trained leaders will be needed to help solve these problems. It will be my duty to lend a helping hand. There is a heavy responsibility in this movement, and I want to help.

SCHOLARSHIP

January 16, 1946

Dear Miss Brown: I am sorry to have to inform you that at the meeting of the Committee on Labor Scholarships in December you were not selected for an award.

The Committee gave careful consideration to all of the applications, and came to the decision that candidates must be active in the trade union movement and have proved their abilities and qualities of leadership within the labor movement as officer or member of a union before being eligible for an award.

I regret having to send you a disappointing reply, and hope that you will soon be able to take an important place in the labor movement in the South.

Sincerely yours,

VANDI V. HAYGOOD

PHYSICAL EXAMINATION FORM

The Antioch College program is unusual in that students alternate between five- and ten-week periods of work away from the college and study on the campus. It is essential that students have good health and the ability to make adjustments to changing conditions. The Committee on Admissions would greatly appreciate having the careful judgment of the examining physician. Peculiarities in appearance and personality which might interfere with employment should be noted on the last page. After the examination this form should be returned directly to Antioch College by the examining physician.
