

1939

LAWRENCE OWEN COOPER

31

Assistant Director, Mississippi
State Planning Commission

Public Administration

Good record and excellent
 testimonials, but statements
 are from men who probably
 haven't many comparative standards.
 If he undertakes this work
 he should make his plans
 under the direction of Michael
 Davis. No need for him to
 jinket all over the place.
 (For example to the Ross-Loss clinic in L.A.)
 Evident the man is fairly naive
 about the field he wants to enter.
