

Candidate **Gilbert Avery Sanford**
Graduate Student, University of Alabama
980 Tenth Avenue, Tuscaloosa, Alabama

Special Field **Sociology**

Plan of Work

The Selective Nature of Migration in the Southeast. This population study has been planned as an analysis of both primary and secondary migrations and the selectivity of these movements as they affect the Southeast. The project will be undertaken in conjunction with post-graduate study.

Seeks Ph.D. at University of North Carolina, working under Doctor Odum. Not yet admitted. At least two years.
