Dear Dr. Peterson: Since last writing you a number of complications have arisen with reference to Slossfield. I really do not know at this moment upon whom the several authorities are most likely to agree. I think it important to send this information to you at an early date because until something more definite comes out of this picture you should make your plans without any regard for Birmingham. I shall try to keep you informed from time to time, and I hope you will be kind enough to let me know where you are after June 7 and your Washington meeting.

Very truly yours,

M. O. BOUSFIELD
