8-a	Madison	Concord	2	8 "	64.66
9-a	Nelson	Bloomfield	3	8 "	95.33

We shall look to the State Department of Education to see that each school has followed the agreement fully in the term extension, as set forth in the application, before payment is made. If there should be any unused balance of this amount will you please refund it?

Sincerely,

Supt. W. C. Bell,
Frankfort, Kentucky.

SPECIAL RULINGS

Negro Rural School Program

Transportation

1. Application of Ky. for transportation of 15 children by train instead of by bus in order that a one-teacher school may be abandoned and consolidated with better and larger school. Aid granted on same basis as that offered where busses are hired rather than operated by school authorities, with following conditions:
 - a. That the train schedule permits students using this method of transportation to be in school during the regular school hours.
 - b. That the school authorities recognize that by accepting our assistance over a three-year period they commit themselves to assume full responsibility after we have withdrawn our aid, either by continuing to transport the students by train or to provide bus transportation.
2. Additional aid for Kentucky granted at request of S.L.S. under date of August 21, 1929. Estimated allotment \$3,200.00.

Construction

It is satisfactory to approve applications for the total amount appropriated to a state in cases where states use up their total quota for permanent construction and special aid to backward counties. However the analysis should show disbursement for construction under three heads:

1. Regular aid.
2. Extra allowance for permanent construction.
3. Special aid for construction in backward counties.

Term Extension

In cases where schools have increased their teaching staff or have increased the rate of the salaries of teachers, the Fund will contribute one-third the total salaries instead of one-third the salaries on the basis of last year.

RADIO W.B.H. and E.R.E. have decided not advisable to distribute electrically operated radio sets to rural schools in the South, but keep to the battery sets. Per S.L.S's inquiry 9/6/29

Extension of Terms

Request for additional aid (from Missouri) for term extension refused - (would give them only regular aid). Also refused to give aid in order that school opportunities might be made available in communities where as many as eight Negro children reside (in order to carry out State law).

Transportation

Aid not granted in cases where schools apply for aid on horse-drawn vehicles. (S.L.S's letter 9/10/29 requesting such aid for Ky. and Tenn.)

Libraries

High school library sets to be available for any Negro high school - rural or urban. Same applies to elementary sets.

Extension of Terms

Aid given only on condition that the extended term is six months or more. (WBH to SLS 10/17/29)

Dear Dr. Moton:

Enclosed herewith please find Mr. Rosenwald's check, to the order of the Tuskegee Normal and Industrial Institute, for \$5212.63, his share of the cost of term extension under the budget of 1918-19, as shown in Requisition No.1, Schedule D, dated January 29, 1920.

Sincerely yours,

Encl.

Dear Mr. Graves:

You will find inclosed inspection reports on the ~~clean-up budget~~ by States and schools showing the amount requested, the amount paid by Tuskegee, the amount paid by The Fund, the number of schools cancelled or transferred and the amount of money refunded by States.

You will notice that a few of the State Agents made some transfers early in the year, but we notified them after getting reports that this had been done not to make further transfers, but to allow the schools to be cancelled in case they could not be built and to refund the money; however, the few transfers made were on schools that were started under the Tuskegee regime, which were not included on our request under the clean-up budget. If they had not made the transfers they would have applied for aid under the new budget and would have received more money than they did receive under the clean-up budget.

Under the column of "amount requested" the original budget shows \$73,650, while our report shows \$73,850. This change was made necessary when, in searching the records, we found that the original request by Tuskegee for Powell school, Montgomery County, North Carolina, was \$400 and that \$200 had been paid by Tuskegee. This does not change the amount of cash involved under the clean-up budget, but it enables us to show that Mr. Rosenwald has contributed a total of \$400 on this school instead of \$200 as is shown on our original request.

You will note also that we included, as per your request of June 27th, \$600 for schools built by Tuskegee for which checks had been issued but not presented for payment until after the Tuskegee books had been closed.

FISK
UNIVERSITY

This change of course increased the total amount paid by Tuskegee on the clean-up budget, because these checks were for the last payments on the above named schools, the first checks issued by Tuskegee having been cashed. As the Cool Springs school was rejected after we had sent you the inspection report you will please return that to us or destroy it. You included the \$500 for this school in the \$1,100 check sent to the State Department of Public Instruction of North Carolina as a final payment on the clean-up budget, but as this school was not on the clean-up budget its rejection does not affect the total in any way and the refund of \$500 on this school is not included on North Carolina's report of schools, but the \$500 intended for this school is included in the \$600 refund check from North Carolina, attached.

The clean-up budget has been a source of annoyance to you as well as to us, but we have done our best to straighten it out and close all past obligations for these schools. We feel happy to know that it is all behind us, and that such a condition cannot occur under the present plan for distribution of aid.

Sincerely yours,

Encl.

Dear Mr. Smith:

Subject: Extension of School Terms

The Executive Committee approved the resolution authorizing us to expend up to \$15,750. during the coming year from the \$40,000. contingent fund, in helping to extend school terms. The conditions of our offer have been slightly modified. In paragraph 2 under item 4 beginning the sentence: "It is to be understood that the maximum salary, etc." This has been changed to read: "It is to be understood that the minimum teacher's salary toward which this aid is to be given, is \$50. per month." The advisability of the Fund's specifying a maximum salary to these states was questioned and I do not think that there is any decided loss in our not doing so. At any rate, we are indicating what seems to us to be a minimum. I suggest that you present this matter to the State Agents so that they can put it in operation during the coming year.

Sincerely yours,

AKS:M

Dear Mr. Gresham:

As an experiment the Julius Rosenwald Fund has made an appropriation for the school year 1928-29 to aid a maximum of 10 rural Negro schools and not more than 30 teachers in each of the fourteen states to extend the regular school terms one or two months. It is thought that this will have the effect not only of extending school terms in backward communities but also of raising the standard of teachers by increasing the annual salaries.

The following plan of cooperation is quoted from the docket (Item VI.), approved June 13, 1928:

"The basis of this offer is that for the first year $\frac{1}{2}$ the cost of the extended term be paid from public funds and $\frac{1}{2}$ by the Fund, and for the second year $\frac{2}{3}$ from public funds and $\frac{1}{3}$ by the Fund, it being a condition of the offer that public school authorities agree to meet the entire cost of the extended term after two years. It is to be understood that the minimum teacher's salary toward which this aid is to be given is \$50. per month."

This matter was discussed at the conference of State Agents at Signal Mountain, Tennessee, June 8th. It was brought out that such aid is badly needed and could be wisely used to promote better teaching in Negro schools. It was thought that the State Department of Education in each state could carefully select the schools and teachers where the experiments might be tried, keeping in mind not only the need for the aid but the possibility of having the authorities agree to carry it forward as provided in the plan. When such schools and teachers are decided on we shall be glad to have full details of each submitted for approval before the Fund is obligated.

Sincerely yours,

Mr. William D. Gresham,

Dear Miss Elvidge: At a special meeting of the Trustees, held May 11, 1929, \$12,245.23 was appropriated to pay one-third the salaries of teachers in schools qualifying for term extension aid in 1928-29. Since \$44,092.82 was the total disbursements for extension of terms in 1928-29, the Fund's share being one-half of this amount, it is my understanding that the Fund is obligated to pay one-third as much this year, or \$14,697.61. Believing this to be true, I am charging the Julius Rosenwald Fund with \$14,697.61 and crediting the states involved with their prorata part of it, feeling that you will see that \$2,452.38 additional funds are appropriated to make up the deficit.

BUDGET NO. 3

Transportation of Students
1929-30

The Board of Trustees of the Julius Rosenwald Fund has made an appropriation to provide for bus service in transporting Negro children on the following conditions:

1 The Fund to provide \$1 for each dollar provided by local sources for the first year; \$1 for each \$2 provided in the second year; \$1 for each \$3 provided in the third year, with the understanding that the county will agree to continue the operation of the service after the three-year period.

or 2 The Fund will pay one-half the purchase price of new busses and in addition \$1 for each dollar raised from local sources to be applied toward the operating expense of such transportation for the first year, on the condition that the Fund's share toward the purchase and operation of one bus shall not be more than \$500; \$1 for each \$2 the second year (not to exceed \$75 a year for each bus); \$1 for each \$3 the third year (not to exceed \$55 a year for each bus), with the understanding that the county will continue the service after the three-year period.

3 It is to be understood that no school is eligible for this aid unless it has a term of at least six months (eight months being preferred) and the salary of no teacher less than \$50. The kind of bus to be used under either "1" or "2" shall be a modern auto type with satisfactory body, which is to be approved in each case by the State Department of Education and the Fund before obligation is made.

The amount appropriated to pay the Fund's share for operating 6 auto transportation busses in Virginia for a period of nine months at an average of \$80 per month each is \$2,160 on conditions set forth in "1" above.

COMMONWEALTH OF VIRGINIA - *Transportation*
STATE BOARD OF EDUCATION
RICHMOND

February 5, 1930

Mr. S. L. Smith
Cotton States Building
Nashville, Tenn.

My dear Sir:

In reply to your letter of January 25, I am sending you herewith a statement as to our Rosenwald budget for transportation for the present school year. This statement will show how much money has been received from your Fund and how much is still due. I hope this report is satisfactory and corresponds with your figures.

I am sending also herewith two more applications for Rosenwald aid on transportation for Chesterfield county, in the event you have any unused balance in this Fund.

These are two-teacher schools and I am not absolutely certain that you are allowing help on schools less than the three-teacher type. I looked through the budget, but it is not mentioned there. If you can help, I shall be very glad, and I am sure Supt. Williams will be.

With best wishes, I am

Cordially yours

W. D. Gresham
Supervisor Negro Education

WDG/LFW

FISK

Subject: Term Extension

Dear Mr. Eason: In offering aid for the extension of school terms it would seem to have a greater influence if efforts are put forth to bring all the Negro schools of a county, or some smaller unit, up to the same level, rather than to give aid miscellaneously to schools widely scattered. Since the Fund's aid in this project is limited, it is our hope that it may be as far-reaching as possible.

We shall look to you to get official records of salaries paid and length of term wherever aid is given in term extension. It is our great confidence in the vigilance and integrity of the state agents that induces the Fund to continue and enlarge its efforts in this and other projects. The term extension aid furnishes a fine opportunity to stimulate adequate permanent school terms, but also furnishes opportunity to waste much funds unless it is carefully looked after and safeguarded. I am sure we can count on your full cooperation in this. Any suggestions you may have to offer looking to improving the service will be appreciated.

Please file all applications on term extension at an early date. Will you use your quota?

Sincerely,

Mr. P. H. Eason,
Jackson, Mississippi.

Dear Supt. Hart: You will find attached the Julius Rosenwald Fund check #3646 to the order of the Virginia State Board of Education for \$1,586.25, to pay the balance of the Fund's obligation on seven transportation busses at the following schools.

App. No.	County	School	No. of Busses	Fund's Aid
1	Chesterfield	Co. Trg.	1	\$157.50
3	James City	Co. Trg.	1	168.75
4	Charles City	Ruthville	1 - 1st	225.00
5	Charles City	Ruthville	1 - 2nd	225.00
6	Buckingham	Co. Trg.	1	225.00
7	Elizabeth City	Union	1	225.00
10	Goochland	Co. Trg.	1	360.00

Before issuing checks for any of these busses I am sure that you and Mr. Gresham will determine the exact number of months each bus will run during this school year and make payments accordingly and in keeping with the agreement, bearing in mind that the Fund's aid will not be more than one-half the total cost of operating any one bus. It is therefore necessary to have definite official statements as to the operation of each.

Sincerely,

Supt. Harris Hart,
Richmond, Virginia.

Dear Mr. Levin:

as follows:

You will find attached refund checks on
extension of school term from Louisiana

Check # 962 for \$66.67, refund on Central School in Bienville Parish for the second installment paid out of the 1929-30 budget. The term in this school was not extended to the length agreed upon last year.

Check #969 for \$140.00, refund on Central School in Webster Parish, which was the first installment paid out of the 1928-29 budget.

The Central School in Webster Parish filed application for aid in extending the term from 6 to 8 months (2 months extension) the Fund's obligation being \$280.00. It happened that the superintendent extended the term last year only 1 month, and was, therefore, entitled to \$140.00. This was not reported to the State Department of Education at the time, but the other \$140.00 was used to extend another school 1 month. When we had application filed for aid the second year, (one-third the cost) we learned of this transaction. As there had been no authorization to spend the \$140.00 on another school in this parish, we requested the refund which he seemed willing to do.

Sincerely,

S. L. Smith

#8	\$128.33
#9	<u>57.50</u>

Some of the districts and counties are having serious trouble in financing their school terms the present year because the banks are unable to carry overdrafts. A large portion of this county was under water for a long period during the Mississippi flood, and some districts have been unable to recover fully from the heavy financial losses.

Dear Mr. Smith:

I am asking that you cancel second year extensions of term in applications No. 10-a for \$38.33, Oak Grove school in Jefferson County, and No. 12-a for \$90.00, Humphrey school in Jefferson County.

I have talked to Mr. Keith about these two schools and he is very much disappointed that they were not able to continue in their contract for term extension. The financial condition of these districts and Jefferson County as a whole, makes it absolutely impossible for them to go ahead, in fact most of the schools in Jefferson County are running a short term this year. The banks have been carrying their warrants heretofore on the anticipated revenue but due to the fact that the banks have been hard pressed for money themselves, they have shut off these districts and they have found it impossible to borrow the money elsewhere.

Mr. Keith wishes me to express his regrets in this matter. He has made a serious effort to help these districts borrow the money but has been unsuccessful.

We are also asking that you cancel first year application No. 5 for \$57.50, the Faith school in Jefferson County, for the same reason.

I am enclosing herewith our check, in the amount of \$185.83 for these three cancelled projects.

Very truly yours,

Dear Mr. Levin: You will find attached the proposed term extension commitments to take care of obligations on applications that were approved this year and last year, amounting to a total of \$36,887.08.

These have been figured carefully school by school, and show the maximum obligation of the Fund. If any school should fail to meet its obligation before the term of the commitment expires, it would reduce this amount.

You will recall that it was agreed at the officers' meeting in Chicago early in April that the entire commitment for term extension be taken out of the surplus in the construction program the present year.

We are submitting it in this form, but are sure you will have your own form of commitments that you will want to use to fit in your plans for such programs.

Dear Mr. Felton:

In keeping with the attached slip of transmittal we are sending your state department check for \$885.01, which is to pay one-third the salaries of thirty-two teachers in eight schools for the extended time in 1930-31. Please see that each school has followed the agreement fully as set forth in the application before payment is made. If there should be any unused balance of this amount, will you kindly refund it?

The following irregularities appear in the applications submitted for these schools?

- 1-a. The length of term is not given for 1930-31.
- 2-a. The salaries of the four teachers for 1929-30 are the salaries reported to this office for 1928-29. The Fund's aid for 1929-30 was based on the salaries given in red. The fourth teacher under 1930-31 is not eligible for aid unless her salary is \$50 per month.
- 3-a. The length of term is not given for 1930-31. Kindly see that this school runs six months before releasing the Fund's aid.
- 5-a. Commitment was set up on our records for one-fourth the salaries of six teachers. On the application blank five teachers are shown in the upper left hand corner, while seven teachers are given for 1930-31.

I am enclosing in this letter also, third year term extension blanks. I note that applications for 5-b, 9-b, 13-b and 16-b were not included in the applications sent to this office. Are these applications to be cancelled? If they are, will you kindly furnish this office with a statement giving the reasons for each cancellation so we may make notations on the application blanks? Just as soon as we hear from you the Fund's check for third year aid will be sent to your state department.

Thanking you for your cooperation, and with best wishes, I am
