EDWIN BEALE DORAN, JR.

Graduate Student, Teaching Assistant
Geography Department, Univ. of Calif.
Berkeley

Geography

Not a southern project (study of geography
of West Indies) and no evidence
that after Ph D at California he will
return to teach in the South

But he seems a top student
coming from the fine dept of geography of LSU
It may be important to contribute
to such excellence

I question if chiefly on topic and
value of Doran's continuance in the South
