Very high praise

ford record

ford project, directly in our field

Maybe he would do better

to study outside the South

He has hardly seen nothing of the W line

But I guess we can't treat

of Adams's show

I guess this lad has done
all we expected. I'm not too
keen about these intensive
community studies, except as
straight anthropology

How long must we stand back
of our affiliates

Both Hartman & his sponsors
seem to take a secured (and third?)
approach almost for granted!
