Mr. Frank Mechau,
Redstone, Colorado.

Dear Frank,

I am glad to know you were pleased with the frame and with our handling of "Dorik and his Colt". You may be assured that I shall be happy to give any assistance I can on the talent scouting business. A nation with our wealth should have more of those things to offer because they can mean a great deal to the working artist. I shall never quite get over the disappointment at not being able to swing the deal myself before it was too late.

My first and perhaps my best thought was along the line of Indian artists. You might be interested in knowing about a couple of very good traditional Indian painters in this locality - I believe their approach is one of considerable value to American Art development and I would be glad to promote them a little, if you would say the word. I could send examples of their work to you without their knowing the real reason for it.

There is no hurry about that one-man show, but do not forget that you have promised it for some time. You are to let me know when you feel in the mood. We are usually booked up for four or five months ahead.

Sincerely yours,

Bernard Frazier
