Dear Sir:

I am taking this method to thank you for your kind and forceful letters written to the Colonel and the General in my behalf to return to my home and take up my work here at the Provident hospital.

I am releaved from active duty and think your influence did the job. I owe you a debt of gratitude and shall try to make myself worthy of your efforts to help me by doing my job well here. I shall look for you down next year as you make your hospital rounds or anytime you feel like coming to Florida. Best wishes for you continued health and happiness. I am,

Yours very Respectfully

Von D. Mizell
