Plan of Work

I will finish all points work for the Doctor of Education degree June, 1941. I have a project which Dr. N. L. Engelhardt, my director, thinks is most timely and which merits my spending an extra year of study on in order that it can be a real contribution to education. The project is concerned with real estate management in public school systems.

Probable duration of study sixteen months (it began in January, 1941). Grant requested for year beginning June, 1941. Seeks post as teacher of education or superintendent of city schools in the South.
