Pharmacology

Excellent read

Top letters from very sound people.

Is this a problem destructive to
the South? I doubt it and
Walton admits frankly it is not

 University, Mississippi

Plan of Work

It is planned to complete a program of training which will constitute full qualification for teaching and research work in the field of pharmacology. The applicant, a native Southerner, expects to work in the South with a particular recognition of local problems. His present research interest, a study of the effects of marihuana, is a sociological problem with its explanation based on medical principles.

Wishes to work at the University of Chicago for M. D.. Requires four quarters. Will return to present position.

Personal Data Born in Kentucky, January 1905. Married, 2 children. Age: 35

Undergraduate Work Centenary College of Louisiana, B. S. 1924.

Graduate Work Columbia University, M. A. 1925, Ph. D. 1929.
 University of Minnesota, summer, 1936.
 University of Chicago, summers 1931, 33, 34, 35, 37, 38, 39.

Experience Chemistry librarian, New York Public Library, 1924-29, \$1800 (part time).
 Tulane University Medical School, pharmacology instructor, 1929-32; assistant professor, 1932-37, \$2700.
