## JULIUS ROSENWALD FUND

Age 51

Alta Ray Gault

Geology

Candidate

Special Field

Teacher of Biology and General Science  
Pinedale High School, Etta, Mississippi

## Plan of Work

To study, among other things, especially the micro fossil organisms of the geologic formations in Mississippi in order that I may help scientifically in the discovery and production of oil and gas in Mississippi, a development so sorely needed now that the forest resources have been exhausted and there remains nothing but agriculture in the state.

Has not chosen institution for graduate work as yet. Duration of study one year to begin September, 1938. Wishes to become micro-paleontologist in the state of Mississippi.

Digest of Application Form November, 1906, Delay, Mississippi. Single.

B. A. from University of Mississippi, 1933. M. S. from University of Mississippi, 1937.

Experiences: science teacher in the public schools of Mississippi, 1933-36, \$27.50 to \$55 a month; 1937 to present, \$70 a month.

Research: M. S. thesis, Foraminifera of the Moodys Branch Marl. New Species of the Genus Lituola from Mississippi, with Frederic Mellen, in preparation.

Fellowships: University of Mississippi, graduate work in geology, 1936-37, \$500.

Has applied for teaching fellowship in College of Geology, Louisiana State University.
