SCHOLARSHIP

The Julius Rosenwald Fund is making a review of the Negro fellowships which it has granted during the past seven years. Since an appraisal of our activity thus far in this field will naturally have some effect on future policy, it is requested that all persons who have received fellowship grants from the Fund cooperate by filling in carefully the brief information asked for on the following blank and returning the information promptly to the Fund.

Name Busby, Alan T.

Position at time grant was made Professor of Animal Husbandry

Specific purpose of the fellowship study To advance my professional training, and incidentally to qualify for degree of Master of Science

Subject studied under the fellowship (or special work accomplished) Content courses in the fields of Animal Husbandry and Veterinary Science

Institution at which fellowship study was carried on (or, if no specific institution was attended, state nature and place of the work carried out under the grant)

Cornell University

Present position or occupation Professor of Animal Husbandry, and head of Department of Animal Husbandry, Alcorn A. & M. College

Your opinion of benefits received from the fellowship (Increased professional knowledge has definitely enhanced my ability to render more worthwhile service in my field.) To date I have received no personal economic advantage, but as this phase is outside the control of my immediate superiors, and is in fact merely an incidental factor, I can appreciate many items of real, practical benefit, that my year of study, made possible by the fellowship, granted me, in the daily carrying out of my appointed duties. Other reports or comments may be written on the back of this sheet

The figures given on the other side of the sheet, are of necessity in some cases approximations, as the Cornell University catalogue that I referred to is rather indefinite in regard to some of the charges. I have tried to be very conservative in the matter of expenses, and in so doing I may have under estimated.
