

Fellowship Comm.

December 24, 1941

Dear Mr. Moe: Your letter of December 17 was on my desk when I returned from a field trip. I must confess it was a blow. With your permission, I shall reserve the right to drop in on you whenever I am in New York to talk about the program in general and individuals in particular.

Applications are coming in in nearly the same volume as last year, and I have interviewed a good many likely candidates in the field. On the other hand, deferments for Fellows in the Army and Navy continue to come in, and the whole situation, to say the least, is a trifle confusing.

Mr. Brickell write me from Bogota offering to continue his aid and counsel. I am gratefully accepting it, but I am still on the lookout for someone closer at hand.

If you have any information about the program of the Rockefeller Committee which you think will be useful to us, I hope you will send it along.

With regrets that you won't be serving on the Committee this year, and with all good wishes for the holiday season, I am

WCH:MLU

Sincerely yours,

WILLIAM G. RAYGOOD
