Good hit for fine distinguished
 record at U / Ark - ~~the~~ ^{the} ~~underproducts~~
 work there has my academic work.
 was of last year when I rated him
 only B - but committee considered
 him very favorably, squeezing him out
 in final selections because of
 pressure of members.
 Excellent letter, praising his versatile leadership abilities
 no certainty that he will make his
 career in the South (though this likely
 might confirm his Southern interest)
 Has been for past 2 years with U.S. Junior Chamber
 of Commerce with headquarters in Chicago.
