

1940

NATHANIEL OGLESBY CALLOWAY

32

Assistant Professor of Chemistry
Fisk University

Chemistry

Excellent man

Best Kharash's letter put him away
the plodders rather than the
full-time researchers

Kharash (and Jim Senior) personally
and privately told me that they
would not appoint him more in
any hope of original contributions

Since he already has doctorate
and is doing well in his teaching job
his original contributions would seem

the only reason for considering him
Simply because of these latter statements, I put him

B+

FISK
UNIVERSITY
