Dear Mr. Paty:

There was some discussion at the end of our meeting in your office about getting a good candidate from Tuskegee. I have one whose papers I send you herewith. I do not think that he is a Claytor but as Zinsser judged, you see, he is the best candidate in my Group Bacteriology this year.

Dr. Brown will not be granted a Guggenheim Fellowship and I do not send you these papers on the basis that he is an absolutely first-rate scientist. But if you have a problem at Tuskegee you have here an application, clearly better than most of those you will grant, which may help you to solve it.

Sincerely yours,

*If you don't find the letter I wrote you about, will you please inquire at the Shoreland Hotel?*
