My dear Mr. Embree:

Dr. Ernest C. Holder deserves encouragement and support.

I have known him ever since he came to Harlem Hospital about five years ago, where he was an earnest student of pathology, and became skillful in the management of this field.

Dr. Holder is honest, industrious, and reliable. Dr. Klemperer, at Mt. Sinai Hospital, with whom he is at present working, speaks highly of his attainments. In his quest for knowledge in his field he has been steadfast, in spite of the handicaps of race and poverty.

Sincerely yours,

Jesse M. Bullowa
