1939

Landscape Architecture

Very poor record as student at  
Syracuse, chiefly C + D

Testimonials all remarkably favorable  
An interesting project

I am confused by law college record  
and legal testimony (which course  
does not specifically cover mental  
attainments)

Excellent proposal: to leave landscape  
architect to work as ruthless owner

to go parks + recreational facilities  
For purpose of getting more information  
I mark his
