My dear Dr. Bousfield:

Your letter received concerning disposition of the Dr. John S. Perry case. I told Dr. Perry when he was up to see me sometime ago, I doubted seriously his application being considered due to the fact the Rosenwald people had done so much for us in this state for the last year. He was very anxious that I write you, so I did.

Things are moving along nicely in our hospital and Dr. Walter J. Hughes who received an appointment in the State Health Department, is doing a very fine piece of work. He has been working here in the city of Durham for the past three months and his work has been very helpful. The health officer here is tickled to death with the showing he has made.

We certainly appreciate what you and the Rosenwald people have done for us in this section and we will try not to call on you too often for favors.

Again thanking you and hoping to have the pleasure of seeing you in Philadelphia, I remain

Sincerely yours

*Clyde Donnell*
