Dr. M. O. Bousfield
Julius Rosenwald Fund
Chicago, Illinois

Dear Dr. Bousfield:

A short time ago our West Virginia Association, which has the expending of a considerable portion of state money for tuberculosis control, employed a Negro public health nurse, Latis M. Caver. Unfortunately, this position had already been promised to, or some local Negro group decided it should be given to a Negro nurse from West Virginia, and it will be necessary to let Nurse Caver go.

Mr. Rowell has managed to hold the position for her until about two months hence, and in the meantime is anxious to secure a position for her elsewhere. I have advised Mrs. Staupers and I thought that possibly you might run across something attractive, in which case I wish you would keep her in mind. Please return the attached reports.

Sincerely yours

C. St. C. Guild, M.D.
Director, Negro Program
