

Mr. Embree:

Mr. Claytor is still at the University of Michigan. In a letter of July 4 Dr. Wilder said he and Claytor would talk with Dr. Veblen and others of the Princeton Harvard groups at the period of the meeting of the Semi-Centennial Celebration of the American Mathematical Society in New York. That meeting was Sept 6 - 9 but nothing has as yet been heard from him.

Checks are still being sent to Ann Arbor.
