

1940

OSCAR W. HOLMES

Instructor in Chemistry
 Claflin College, Orangeburg, S. C.

Chemistry

Grades not spectacular either
 at West Virginia or Ohio State.

Letter from Garrett of Ohio State
 is a peculiar one - First two paragraphs
 devoted to "personality + social grace" etc.
 Then he launches into a veritable
 storm of praise. In highest 1% of
 students at the Univ. (of that includes
 the huge unsorted undergrads
 today it doesn't mean as much as
 it might seem)

This letter (and letter from Prof. Randolph
 saying he will probably lose his post at
 Claflin - yet "entirely in favorable action")
 seemed somehow fishy. (What does Dr. [unclear] say?)
 ? B+ to A
