Nashville

Biology

Excellent candidate
= But I cannot see that her
botanical studies (for a Ph.D.)
are within our scope
even if they do affect Southern plants

Name Beatrice Barbara Exner Field: Biology
Teacher of biology
Ward-Belmont College
Nashville, Tennessee

Plan of Work I plan to make genetic studies of 1300 single basidiospore cultures of Corticium species that I isolated during the summer of 1941.

Wishes to attend Louisiana State University for one year beginning May, 1943. Will work under the supervision of Dr. C. W. Edgerton toward a Ph.D. degree. Has been admitted. Will not return to present position. Wishes to secure post as instructor in botany and plant pathology.

Personal Data Born Denham Springs, Louisiana, May, 1914. Age: 29
Single.

Undergraduate Work Louisiana State University, B. A., 1935

Graduate Work Louisiana State University, M. S., 1938
University of Texas, summer of 1939

Experience Biology teacher, Albany High School, Albany, Louisiana, 1937-40, \$1000; assistant to a plant pathologist, Agricultural Experiment Station, Louisiana State University, 1940-42; biology teacher, Ward-Belmont College, Nashville, 1942 - , \$1600.

Accomplishments

Publications: Two articles written in collaboration with other authors, which appeared in Phytopathology.

Fellowships: Fellowships for four years at Louisiana State University; assistantship, Louisiana State University, 1941-42, \$540.
