Handwritten: Jefferson County - Louisville Ky -

The sun shines bright on our Rosenwald School,
The pupils are happy and gay,
The time has come when education is in bloom,
And the radio makes music all the day.
The pupils study more than the three "R's"
Which make them so merry and bright.
Soon they'll go to Jackson Junior High,
Then our Rosenwald School, good-bye.

Chorus:

Weep no more because of ignorance,

O! weep no more to-day.

We will sing one song,

For our Rosenwald School,

For the Rosenwald Schools far away.

Dedicated to our school

D. Lillian Poignard,
Teacher.

Dr. Edwin Embree
President, Julius Rosenwald Fund
Chicago, Illinois

Dear Mr. Embree:

I am aware of the hold up of aid for negro schools from your fund during past year or more. This letter comes inquire of the present status of the situation and to implore you to lend your aid to a most worthy and deserving appeal.

Our school, here a frame C.W.A. constructed building needs seats and desks and domestic science equipment. I am painting it now and this will be all possible from a local stand point. Our board of education has no money. I am sure you could, in some way be of service to us in securing these seats and desks. I believe it would be quite an inspiration to both white and colored in this section if you would make some kind of offer regarding this matter.

I am aware of the fact that there are state agents, etc. who heretofore saw after and recommended your aid. Our case here is one unique in some respects. I am asking Dr. Guy Wells, Pres. S.W.C. Midlidgeville and Mrs. Martha Berry to visit us. I am sure you would give much consideration to their findings where such would have bearings upon the merits of our case.

May I not ask if you will write me just what you feel inclined to do for us in this connection. This is a personal letter and to you only. Your reply will be so considered.

Assuring you that any assistance you may feel inclined to give would be greatly appreciated and come to a community needing it as much as any you may help anywhere, I am,

Yours very truly,

J. B. King

NEGRO RURAL SCHOOLS
Studies and Experiments

(Repts)

Approximately \$18,000 will be carried forward to 1934-35 from the balance in the general rural school budget. This will be sufficient to carry the regular work of the Nashville office for the coming year. The only new funds recommended in the school program are for Studies and Experiments and for school libraries.

Since the termination of the school-building program, the officers have centered attention on improvement of the educational work within the schools. In a determination to learn directly the problems and the possibilities of the typical small school in rural communities, the officers began this spring a series of efforts in connection with specific districts. In February Mr. and Mrs. James Sison moved to East Baton Rouge Parish, in which is situated the little Foreman School which the trustees visited last fall as the first of our stops on the way to Baton Rouge. They set themselves the problems: first, of getting intimately and directly acquainted with the school and the community; and second, of seeing what could be done to improve conditions on the basis of the resources of the district and of the public agencies of the county and state. A report will be presented orally of the things learned and accomplished in the two and a half months' residence in this rural district.

Several things are clear from this initial exploration and from the general knowledge of officers of the Fund:

1. Negro rural schools are desperately poor in the matter of elementary equipment, including books and charts; the buildings are often in disrepair, the teachers are poorly paid, and usually ill-equipped for their tasks; the curriculum is formalized and dull.
2. The colored group is not accustomed to community effort and is lacking in leadership or experience in improving its own public services.
3. The white community is not so much hostile as indifferent and crassly neglectful of the needs of the Negro group in such progressive matters as schools and health services.

JAN 18 1935

ESK
UNIVERSITY

4. The authorities in the persons of state and county officials often share the indifference of the white community. The Negro supervisors - county Jennes supervisors, farm and home demonstration agents, etc. - are busy with a multitude of details throughout the counties and are apt to be routinized in their tasks. Many of them are intimidated by the white officials to such a degree that they do not even call attention to glaring lacks in the schools and other public services.
5. There is, however, real interest in the school on the part of the Negro group and some latent leadership which can be made effective if aroused and encouraged. There is usually no hostility on the part of the white group or the white officials; school needs may be supplied if demanded tactfully but firmly; often there are white individuals ready to champion the Negro cause if the matter is called to public attention.

It is proposed that efforts in individual rural schools be carried on vigorously for another year. The plan is to select about eight individuals or couples and have them work in specific rural schools scattered over several southern states. The persons will be young, well educated, and possessed of both ideas and enthusiasm. Some will be white, others colored, since rather different approaches can be made by members of each race. While these "explorers" will have had teaching experience, it is not expected that they be specially grounded in educational dogma or members of any special school of thought in education.

Without any set formula these young people will see what they can do in the several communities (1) to improve the buildings and grounds so that these may become items of pride to the pupils and the Negro community, and of respect to the white group; (2) to arouse the teachers and supervisors to an interest in more enlivening and educational school work; (3) to make the school a center of community life, including recreation, health, and adult education.

Items in the plans include the followings:

Conferences of three or four days each will be held in the course of the year of the group of special workers in association with selected state and county officials, heads of teacher-training institutions, and others interested and experienced in educational matters. One such conference is planned to be held at the Penn School, St. Helena, South Carolina, which has worked out so successfully the problems of rural education; another will be held at a Negro state normal school; and another in connection with such institutions as Fisk and State College in Nashville or the group of colleges in Atlanta.

Dr. Schrieke, Director of Education for the Dutch East Indies, will be in this country all of next year. We expect to use him as general consultant in the series of experiments and in the conferences, and also to utilize the experience and counsel of our officers and those of the other foundations, as well as of individual trustees - notably Dr. Juid and Dr. Alexander.

The officers are impressed by the possibilities of this program of direct efforts. We are convinced that no special educational thesis should be followed to the exclusion of others. We believe that a program of vigorous efforts and experiments, carried out by a resourceful group of young people, constantly checked by mutual conference, and guided by the competent educational leadership that is fortunately to be in our own group next year, may result in a new impetus to Negro education which may equal or exceed that of our school-building program of the past twenty years.

Mr. S. L. Smith
Director, Southern Office
Rosenwald Fund
Nashville, Tennessee

Dear Mr. Smith:

It came to light in a trial here yesterday for the cancellation of Negro principal H. W. McCowan's certificate that the teacherage built by aid of a thousand dollar Rosenwald grant at the Bethlehem School in Bowie County was not located on the public school lands. But rather it was located on private land owned by Principal McCowan adjacent to the school property.

What I would like to learn from you is whether deception was perpetrated in this act. Did the Rosenwald Fund management think it was aiding the county to construct a teacherage on lands owned by the district for school purposes?

Thank you for an early reply.

Very sincerely

Gordon Worley

September 12, 1935

Dear Mr. Worley: In answer to your inquiry of September 10th relative to the teachers' home at Bethlehem School in Bowie County (our inspection No. 226) built in 1927-28 on plan No. 302, please let me say that it has been a definite requirement from the beginning that all school buildings, teachers' homes, and shops upon which the Fund gave aid be deeded in fee simple to the public school authorities. We gave aid for the building of the teachers' home in connection with Bethlehem School on the assumption and with the understanding that this home was a part of the public school plant. On no other condition could this aid have been granted.

The inspection report was filed by Mr. C. T. Bloodworth and Superintendent S. M. E. Harris, stating that state check No. 78, dated May 21, 1928, was issued to Bowie County Department of Education, C. C. Porter, County Superintendent for \$900.00. In listing the contributions the inspection report shows that the district from taxes paid \$1,700 and the Julius Rosenwald Fund \$900.00, making a total of \$2,600 as the reported cost.

In building more than 5000 schools and teachers' homes, which have been erected by aid of the Fund, I think this is the first time a case of this kind has come up. I hope there will be no difficulty in keeping the home intact as a part of the plant.

Sincerely yours,

SLS:MT

March 1, 1935

Dear Mr. Wiley: I am sorry to tell you that the Julius Rosenwald Fund no longer has High school libraries available for distribution. Our supply was exhausted over a year ago and we have not found it possible to reorder so far. If, at some future date, we do have these libraries on hand, I am sure you will be notified about them through the regular channels for such information.

We are sorry that there is no way in which we can help you make your school outstanding, but we are highly in favor of and sympathetic with your enthusiasm and interest in this matter of education which is so very important in rural communities. We wish you a great deal of success in your undertakings; we only regret we are unable to have an active part in it, but we have no funds available for this kind of work with our resources limited as they are at the present time.

Very truly yours,

MS*LJ

Chicago, Ill.

	MWS	5/8	ms	5/8

Gentlemen:

For eleven years I have been superintendent of the city schools in this place and am now entering upon my twelfth year. I have been concerned about the schools for the negroes here but have been unable to do for them what should be done. I have just read your booklet "School Money in Black and White" which prompted this letter.

The population of Guntersville is now about three thousand. The last school census (1934) shows 189 negro children of school age from 6-20 years inclusive. These children are being cared for in the negro churches. Such arrangements are never satisfactory and are not conducive to the best work. From time to time I have endeavored to bring about relief in the matter but conditions have been such that nothing could be done. Unless we can get assistance from you it looks doubtful about it now.

To care for the present needs will require at least two buildings of two rooms each. If you can assist me in securing a fund to build and equip room to care for these folks I believe it will be very much worth while.

Resp.

D. B. McCullough

MAY 10 1935

AUGUSTA FREE SCHOOL BOARD
AUGUSTA, GEORGIA

OFFICE OF SECRETARY

Feb. 15, 1935

Mr. S. L. Smith
Cotton States Building
Nashville, Tenn.

Dear Sir:

I recall, with pleasure your trip to Augusta in 1928, and your valuable assistance in helping us to build the first Negro school, known as the Steed St. School.

Since that time, we have waged a campaign for better schools for Negroes. Recently, the Board of Education had a million dollar bond issue and have built two very fine, large modern fireproof schools for Negroes. They propose to build twelve rural schools and one modern school on the hill for Negroes, making a total outlay of \$300,000. At the present time the Board has used all the funds with the exception of \$140,000. and there is a great demand for larger white schools.

I wrote Mr. Dixon and asked him to come to Augusta and go over the situation with Mr. Phinizy, Chairman of the Finance Committee and Building Committee. I am very anxious to make an industrial school of the Weed School, but the amount the Board has will not build a modern school for the Negroes. I think it will take at least \$50,000. to build it, and Mr. Phinizy has set aside \$20,000. to build the rural school, and only has left \$30,000. for the Weed School. There are four hundred attending this school now and no doubt with a new school it will grow. Mr. Dixon came to Augusta yesterday and explained to me the situation in reference to the Rosenwald Fund. Owing to the price of the Stock the Trustees are reluctant to sell at the present price.

Now, Mr. Smith, this is our only chance to build a worth while school for the Negroes in the best portion of the Suburban Augusta, where the best class of Negroes live. I appeal to you again to help us. If it is not possible for the Rosenwald Trustees to appropriate cash, would it not be possible to appropriate a certain amount of the Sears Stock and let the Board borrow the money on the Stock, until the price increases. Mr. Dixon is very much interested and

FSK
UNIVERSITY

AUGUSTA FREE SCHOOL BOARD
AUGUSTA, GEORGIA

anxious to help us. So I am making a personal appeal to you in behalf of the Negroes, who were the "Forgotten Ones" by the Board of Education for forty years. I am going to send you and Mr. Stern photographs of the new Negro Schools as you have shown so much interest in our behalf.

I was wondering whether you contemplated making a trip to Atlanta in the near future, if you could come to Augusta to see just what this situation is. Mr. Dixon has shown a great deal of interest and I am sure he wants to help us if it is possible.

With kindest regards, I am.

Yours very truly,

Mrs. Louise G. Moore

Miss Margaret Simon,
of Rosenwald Fund
Chicago,

MWS (alm)

Dear Miss Simon,

I wonder if you
could give me a bit of information.
I have been teaching in a Rosenwald
School for four years; but because
of the depression, the term (all school terms
were cut) has been shorter than normal.

I was told when I took the work 1930-31
a Rosenwald school must run at least
seven months. Now they say a "normal"
term is five months. In searching the re-
cord, I find the school in which I am working
has never run less than six months, and
most of the time, seven months. When the
community supplemented the seventh month.
That is, before the depression. What I want to
know, is there a requisite, or law, that all
Rosenwald schools must run a certain
length? May I have this information as early
as possible, as our five months are out April 5.
Thanking you kindly I am sincerely,

OFFICE OF

CRAVEN COUNTY BOARD OF EDUCATION

NEW BERN, NORTH CAROLINA

72 George Street
Nov. 29th, 1934

Mr. Edwin R. Embree
Rosenwald Family Foundation
Chicago, Ill.

Dear Mr. Embree:

In a State P-T-A meeting recently, we heard with disappointment that there is little hope for improvement of the bus situation for Negro schools.

The need is so great that this seems to many of us who know conditions, rather tragic. One community in this county has raised \$100 for the upkeep of an old bus they expected to get; but we have learned that no old buses are now allowed to be allocated for such use. In another community a bus is badly needed for children must leave home at 6 A.M. in order to catch the bus that passes nearest to them. They leave without breakfast in many instances and in cold weather suffer severely from exposure. I think that this community can raise \$100 also.

You have assisted us in the past in this matter of transportation. I have in mind, particularly, the good bus at Jameas City Rosenwald School, and still in use, which you helped us to get.

I am now writing to ask if you will help us again in the matter of the two places mentioned above and under what conditions. Will the fact that these two communities can pledge themselves to contribute at least \$100 each be an inducement to you to give them consideration, and offer them a proposition.

Trusting that you will favor us with an early reply, I am,

Very truly yours,

(Mrs) Clara B. Mann
Jeane Supervisor.

 Chicago, Illinois.

Dear Sir:

Knowing the interest you have in the Education of boys and girls I feel assured that you will willingly aid us in our struggle for better school conditions in this community.

I am the Teacher of Longwood Consolidated Colored School (a rural school) located about sixteen (16) miles North East of the above named town. First we are having to teach in one room of a Country Cabin home with no conveniences what ever. Poor light, improper ventilation etc. Just a crude way of having to teach is all I can say.

SEP 27 1934
 About four (4) years ago the school building burned and financial conditions

have prevented the rebuilding of it.

A New school building would not only be beneficial ^{inspiration} to the boys and girls who are seeking an Education, but would give employment to some of the unfortunate men who are unemployed during this crisis. This alone would be a living monument of Good Deeds. Any aid you can give us will be graciously appreciated.

Hoping that you will give us consideration by aiding us in the time of need
I am

Sincerely,
(Mrs) Jettie L. Larusan, Teacher
Longwood Consolidated Colored School

	ERE	11/26	CPE	11/27

Coeburn Va. Nov 23rd 1934

Mr. Edwin Embree
Chicago Ill.

Dear Sir:

Having seen an article in the Pittsburgh Courier mentioning your name in connection with the Julius Rosenwald Fund, I decided to write you. We have been trying to get in touch with the representative nearest our District, but so far we have failed.

We are located ninety-two (92) miles west of Bluefield^{Ph. Va.}, and ten (10) miles east of Norton, which places us in the center of south-west Virginia, in Wise County, where there are few schools for colored children, and very little opportunity for securing an education.

There has been a parcel of ground given for a school, by the Baptist Association of said District. The county does not have the money in treasure to erect the building.

and made an effort to get a loan from the Rosenwald Fund, but they say they failed to get it. Not wishing to make this letter burdensome, by being so lengthy, yet I want to relate something that will show you our great need. On the 21st and 22nd of this month, the teacher had to dismiss her classes on account of danger of the building, during the wind storm. The condition is unbelievable, and after seeing the article, stating what benefit had been rendered, especially to rural districts, we believe if we can get in touch with the proper source, they will do something for us. This County is about fifty (50) miles long, and has a width in proportion, and there are only two schools for colored, one at Norton and the other at Big Stone Gap, these schools are about twelve (12) miles apart. There are a few schools on the coal camps, for the

children residing in the camps.

Thanking you in advance for any help you might give us, in locating the proper source, whereby we can solicit some aid in our great need

I am

Respectfully Yours

Mrs. E. N. Riley
Coeburn

November 24, 1934

The Julius Rosenwald Foundation,
Chicago, Ill.

Gentlemen:

As a teacher in the St. James School here I am seeking aid of you for our health program. This two-teacher Rosenwald School is to be found near De Jarnett P.O., Caroline County, Va.

Our enrollment is 76. Of this number 73 or 97% have serious physical defects. They are listed as follows-

Enlarged tonsils and adenoids	no of Pupils
Defective teeth = 85 cavities	25
Defective vision	15

This report has been made to the local School Board and to the Board of Supervisors. The former does not have the money, the latter fears a flood of such appeals if relief is given St. James.

Other local and State agencies have been petitioned with no tangible results except a lower rate per operation has been made by the State for

Tonsils and adenoids	60 @ \$6.00 each	\$360.00
Teeth 85 Cavities	85 @ .50	42.50
Vision - Glasses for	15 @ 3.00	45.00
Total		\$447.50

JAN 21 1935

UNIVERSITY

copy to Dr. Wassen
me

Even this lower rate can not be met by the parents of these children as they have been hard hit by the depression and can scarcely feed them. Many are on the relief roll now. Others who work receive a wage so inadequate they can not afford medical treatment.

Transportation to Richmond, where the clinic will be held, will cost 50¢ per child; unless we can arrange to hold the clinic on Saturday, then the School Board, through the kindness of Supt. W. A. Vaughn, will allow the free use of a bus. This, we shall seek to do.

Something must be done. One simply can not get results when attempting to teach a bunch of sick children. We appeal therefore to you for a contribution of \$500. for immediate relief of these sick children. Then, would you please investigate; and, if in your wise judgment you see the need as we do, we beg of you to try the experiment of placing a health center at St. James.

Very truly yours,

Nannie L. Craighead

This letter has my complete endorsement.

W. A. Vaughn
Supt. Schools.

COUNTY LIBRARY DEMONSTRATIONS

In spite of economic retrenchments in states, counties, and cities, the eight county library demonstrations - Walker County, Alabama; Webster Parish, Louisiana; Charleston and Richland Counties, South Carolina; Hamilton, Knox, and Shelby Counties, Tennessee; and Jefferson County, Texas - have continued to the present on satisfactory levels, particularly as the service applies to rural communities. All of the counties except Jefferson have been visited from one to three times by the Director for the Southern Office, in company with the county librarian and county superintendent of each.

The purpose of the county library program has been from the beginning (1) an experiment of cooperation between school and library officials, and (2) a demonstration of the best library methods through cooperation to furnish satisfactory service to an entire county, rural and urban, white and colored, at the most economical per capita cost. As some of these counties are finishing the fourth year of the five-year program and the others the third year, plans are being made for careful appraisals in each between now and the end of the demonstration period to determine the value of this service with a hope that the findings may be made available to other counties desiring to promote county-wide service. An experienced student of Peabody College Library School on a G.E.B. fellowship has made a study and has written her thesis for her M.A. degree in library science on the high school library service in the three library demonstration counties of Tennessee. She visited all of the more than 30 high schools - white and colored - in these three counties. We have a copy of this thesis on file.

In the Central High School of Hamilton, the Principal told us that the head of the History Department reported that his classes in History had more A's and B's in the January examinations than they were "supposed to have" and that he had checked their papers and records carefully, and could account for it only by the improved library facilities under trained library service - his pupils had all read more history than those of any former class.

In a backward rural community of Walker County, Alabama, the principal told us that the children read a great deal, and that almost without exception those who read the greatest number of books have the highest achievement tests.

The total circulation of the books in these demonstration counties not including the service to the rural and urban schools, has increased in the past four years about 225%, from around 2,000,000 in 1928-29 to more than 6,600,000 in 1932. While the book circulation among Negroes is yet far below that of the whites on a population basis, it is interesting to note that the circulation of books for Negroes (not including the schools, practically all of which are fairly well served) has increased in this period more than 500% in these demonstration counties. The circulation in rural communities for both white and colored has increased approximately 300%.

Julius Rosenwald Fund
4901 Ellis Avenue
Chicago, Ill.

Dear Sirs:

Kindly forward to me at once, information concerning a High School Library.

Send blanks.

I would like to receive information as to the ways, the Fund will aid the improvement of school, other than the library.

I am in to make this school outstanding.

If any other fund available for negro schools, notify me, for I need help.

MAR 4 1935

Respectively yours,
(Mr.) Zealous D. Wiley

 Maytown, NC.
 Nov. 26, 1934.

WRS
 (NC) order returned

To the Trustees of the
 Julius Rosenwald Fund

Dear Sirs:

I am constantly aware of the great service that has been rendered to the negroes of North Carolina through the liberal gifts of Julius Rosenwald for the erection of School buildings in the Rural Districts. The negroes of NC are very grateful for such a friend in need. We are glad to pay tribute by having programs in our Schools on Rosenwald Day.

I am employed as teacher of History in the Robeson County Training School at Maytown, NC. I am a graduate of Howard University, Washington DC holding a B.A. Degree. I have been teaching in the Training School for three years. During each year I have been engaged in many activities to try to improve the conditions of our School here. However I

DEC 5 1934

ESK
 UNIVERSITY

haven't succeeded as I wanted
like to in order to keep up
to standard with the rapid
changing methods and activities
in modern education.

I am writing asking if it
will be possible to secure aid
from the Julius Rosenwald Fund
for classroom equipment
as well as matching for the
erection of buildings? Our
School here is the result of
a gift from the Rosenwald
Fund, matched by the Negroes
and the County about twelve
years ago. However, the building
has never been completed,
and growth on part of the
School has made our
present building inadequate.
Four grades are being taught
in a hall which is rented
by the County and does not
afford space for playground
for children, which make
it impossible to live up to
present day demands and
methods for teaching in
the elementary school.

The High School department
is superadded. It is impossi-
ble to make divisions of the
classes for lack of space and
teachers.

The County officials

promised a new building last year, but could not secure enough money for the building, neither have they been successful in securing a loan for a building program.

The woodwork of our present building has never been painted, therefore fails to present a wholesome, sanitary or attractive environment for study or teaching. We are not able during this period of depression to secure very many supplies from the County Board, however, our School has been placed on the "B" rating list for Standard V.S. in 1934. The teachers in the School use every means to try to secure equipment as individuals but our salaries have been cut so low, that we are not able to use very much personal money for School equipment, all free materials etc. from magazines are made use of. Community projects for raising money are sponsored by the School faculty with little success as community funds are short too. Various

all efforts for this year
and for the purpose of secur-
ing books for the elementary
school library. Therefore
equipment must be gotten
from another source if
possible.

I should the Rosenwald
Trusts find that funds may
be spent to further the cause
of Negro education by aiding
in securing equipment for
schools, please give our
School your consideration?

I am enclosing an order
to a supply Co. in Chicago
for equipment needed for
proper classroom work, as
I have stated our great
needs to you above.

Please have order forwarded
to (Miss) Geneva F. Holmes
Robeson County Training School
Maytown, N.C.

The situation in our School
can be checked on from the
following individuals:

- Mr. J. B. Dean - Principal - Maytown N.C.
- Mr. C. L. Green - City Supt. - Maytown N.C.
- Mr. M. C. Kay - M. P. - Kenner Ch. School - Broad - Maytown N.C.
- Mr. J. B. Orde - County Supt. - Lenoir - N.C.

Thanking you for any consideration

Miss Geneva F. Holmes

July 2, 1935

Dear Mrs. Cecil: Mr. Embree has asked me to write
in response to your telegram of
July 1. I am very sorry but we are entirely out of
the program of building Negro schools and have been for
several years. Our exceedingly limited funds make it
necessary for us to restrict our activities to those
fields in which we are now taking an active part.

Various public works agencies have
helped in the building of some schools and perhaps they
can help you now. At any rate that is the only sugges-
tion I can make.

Very truly yours,

YS

Secretary to Mr. Embree

Mrs. Marguerite Cecil

SCHOOL TERM EXTENSION AID DURING 1931-32, 1932-33

Note: No School Term Extension Aid paid in 1932-33.

State	Third Year 1931-32
Arkansas	\$ 238.12
Florida	1,953.25
Kentucky	342.01
Louisiana	826.25
Mississippi	591.63
Missouri	97.50
North Carolina	2,271.08
South Carolina	544.38
Texas	1,343.88
Virginia	310.00
Totals	<u>\$ 8,518.10</u>

TWO OR THREE EXAMPLES OF WHAT MAY BE
ACCOMPLISHED BY SMALL STIMULATING FUNDS

1. Two years ago the Fund allocated \$450 to West Virginia to help make a survey and work out a program of organization and consolidation for Mercer County on condition that an equal amount be raised from other sources. Doctor Cavins, Director of Research, states that the published report and influence of this model county set-up was used in other counties and before the legislature in 1933 to change the basic laws of West Virginia from the small inefficient district school system to a complete county unit of education for every one of the fifty-five counties, with one Board of Education consisting of five members which has complete control of both county and city schools under a unified program. In addition to the change in organization, they secured an appropriation of \$6,000,000 to be distributed to the various counties in carrying out the new program.

2. A small amount was given Dunbar High School at Little Rock, Arkansas, to enable them to complete certain courses of study which they had carefully developed over a period of years. These were published and copies sent through the Southern Office to about two hundred important Negro high schools in the South; and judging from reports received from many principals, these courses have been most helpful in enriching their school curriculums, and as a result they are asking for courses in other subjects which Dunbar School is now preparing.

3. During the past year a Committee of White and Negro Educators under the direction of Charles S. Johnson of Fisk University and Fred McCuiston of the Southern Association of Colleges and Secondary Schools, with a very small grant from the Fund, has been preparing a Source Book on the Negro covering various phases of his development and progress, which will supply authentic information and materials for use by instructors of white and Negro colleges in all courses or discussions dealing with the Negro. The Source Book and a Syllabus will be completed at an early date, and will be published when funds are available to pay the cost. Representatives of fifty white colleges are asking for such material for use in their colleges next school year. This Source Book taught in white colleges would do much to foster interracial good will.

The ^{omit.} (New) South Park School and Its Founder,
Mrs. D. Lillian Poignard

In 1918, was this school organized,
In a cabin on the Shaffer farm
improvised,
With twelve eager pupils it grew,
and grew.
Until more than two hundred its
doors passed through.

In a few short months they were
dominciled,

In a two room log cabin on Jay Isle;
Then a frame house was built
when a site was found.

On an acre of the Spencer ground.

In 1928 was added in June,
A spacious and modern Rosenwald
room,
Progress in music, in health, and
in art,
Has won prizes, sufficient to
encourage each heart.

And a firm foundation for the
youth had been laid,
By a teacher born, not a teacher
made:
And may as wise and loving
hands,
Direct the schools throughout
the land.

Yet, not by lone effort, has the
victory been won:

Unselfish powers have willingly
done.

Superintendent Stivers, and his
loyal board,

The P.T.A helped bear the load.

Every known duty, that we could
say

To bring this glorious day.

The New South Park School.

Just in 'its prime.

At the heights 'it will reach in
the course of time

Composed by - Mrs. W. C. Weeden,
Louisville, Ky.

The Hon. Mr. Edward R. Embree.
Chicago, Illinois.

Dear Sir:

We are hereby appealing to you on this a matter of great importance to our entire Community. Will you ^{kindly} spare time to inform us, in ^{citinized} figures, the amount of the Roosevelt Fund, designated for this State, (Maryland) the number of schools built, and their location, if possible. Why we wish this information, is, we have in this "Dark Belt", of Maryland, quite two hundred children of free school age, and not a sign of a Roosevelt School nor \$ has spent here.

DEC 5 1934

Five schools in name - not fit for children, nor Teachers. But all schools of the other race are modern and teachers well paid. We weep! we cry! We

appeal to the authorities, but no attention is paid us. Therefore, such information as may be in ^{your} possession will be most graciously received - and properly applied.

Very respectfully yours,
 The Rev. E. P. Moon, (LL. B.)
 St. Inigoes, St. Marys
 County, Maryland.

VIDALIA, GA.

SOME REASONS TOOMBS COUNTY TRAINING SCHOOL, NEGRO SCHOOL,
SHOULD HAVE A MODERN SCHOOL BUILDING:

1. Our building is antiquated and inadequate-unfit to be in during inclement weather.
2. Was built without much thought of school work, out of the cheapest lumber in 1910 to accommodate a maximum of 200 students, four teachers, now has a student body of 427, and eight teachers.
3. Would eliminate the use of an old dilapidated rented church building in which we are now trying to house overflow of students. This building is too small to accommodate this overflow and unfit for school purposes.
4. There isn't another Senior High School for the colored group in a radius of 35 miles.
5. Have students matriculated in our High School Department from Tatnall, Emanuel, Truetlen, and Montgomery Counties.
6. Other high school students would enter this school from, at least, two other counties if we could accommodate them.
7. Type of work being done to enable students to fit in the community life.
8. There are more than 1000 students within two miles of this school site. Last school census, 1933, gave Vidalia 480 negro students.
9. Nothing tangible in the way of a school building has ever been done for the colored group in this section of Ga. and the erecting of a modern school building here at this time would greatly encourage them.
10. Building could be used for a community center.
11. This building, if erected in accordance with the blue print which we are submitting, would enable us to give these rural school boys and girls of this section of the state a normal opportunity to prepare themselves for lives of service and usefulness.

Gentlemen: We the patrons of the Europe Bates Rosenwald school are writing to you for some information about our school, which is about to be foreclose, by the Lumber company that furnished the material for building the school. They received all of the Rosenwald funds and an addition of four or five hundred dollars, from the patrons beside the labor and carpentry work.

If they succeed in selling this school would it be possible for us to attach the school for the Rosenwald Funds,

If there is any information you can give us we will be glad that you do it.

Yours very truly,

Alphonso Porter

September 24, 1934

My dear Mrs. Lawson: I have read carefully your letter of September 18. I wish that we could help. Unfortunately, it is quite out of the question for us to consider individual schools, however needy they may be.

As you can realize, hundreds of appeals come in to us from all over the country. We find it possible to help only on general matters and for the most part through the State Departments of Education.

I imagine that you have already made appeals through the regular authorities of Missouri. If not, it might not be amiss to take up your questions directly with Mr. Charles A. Lee, the state agent for Negro schools, whose address is The Department of Education, Jefferson City, Missouri.

Very truly yours,

EDWIN R. EMBREE

IN RE: ROSENWALD FUND

Dear Mr. Embree:

We wish to call your attention to a particularly distressing condition existing in this county in reference to the question of adequate school facilities for Negro Children.

In Monongalia County there is a total population slightly in excess of 50,000,- more than twenty racial and national groups are residents. According to the 1930 census, 2,331 of these were Negroes. The Negro population has not decreased. More than 1900 of these Negroes are coal miners, having migrated into this county over a period of time extending back over a five to twelve year period. 54% of these have lived in the county more than five years. There are approximately 500 school age children in this group, whereas, in one of the three districts where Negroes reside, we find that 40% of the Negro children are pre-school age. It is probably a fact that the total number of Negro children in Monongalia County is around 750. School facilities in the rural districts are extremely poor, owing to the fact that the industrial development of this county was rapid and the school authorities found it difficult to keep pace with the increasing needs. Furthermore, prior to 1932 the school problems of Monongalia County were in the hands of several Boards of Education,- one in each magisterial district - there being seven magisterial districts in this county. This system frequently maintained incompetent persons in control of public schools, and also added to the difficulty of the cooperative effort leading toward the needs of the county as a whole.

When the State of West Virginia adopted the County Unit Plan which abolished the old district Boards of Education and set up one competent Board for the entire county, it made possible the bringing into this system the most capable and well informed school men in the various counties. It also made possible the existence of a Board of Education that was able to see the needs of each county as a whole and plan accordingly. Consequently, during the last three years the State of West Virginia has entered vigorously into a program of school consolidation,- building up the educational standards and opportunities of the rural districts, while at the same time, maintaining the standards of the urban sections as well as maintaining the uniform nine month term in every county of the state and paying promptly the salaries of every teacher. However, during these years we have found it impossible to carry out a building program commensurate

JUL 15 1935

UNIVERSITY

to the needs owing to the fact that funds are not available for school building purposes. The Constitution of the State of West Virginia is so worded that we cannot borrow from the Federal Government funds for this purpose as is the case with many other states. Article 10, Section 4 of our State Constitution says:- "No debt shall be contracted by this State, except to meet casual deficits in the revenue, to redeem a previous liability of the State, to suppress insurrection, repel invasion or defend the State in time of war; but the payment of any liability other than that for the ordinary expenses of the State, shall be equally distributed over a period of at least twenty years."

Article 10, Section 6: "The credit of the State shall not be granted to, or in aid of any county, city, township, corporation or person; nor shall the State ever assume, or become responsible for the debts or liabilities of any county, city, township, corporation or person; nor shall the state ever hereafter become a joint owner, or stockholder in any company or association in this State or elsewhere, formed for any purpose whatever."

Because of this situation, the Governor in our State has appealed personally to the President Of The United States and the proper officials of the Federal Department for an out-right "grant" of twenty million dollars for the State of West Virginia for building purposes. A considerable amount of which, if secured, will be allocated to the school building fund.

So far, we have attempted to state the conditions existing from a legal point of view. In Monongalia County in particular, we have one Negro high school rated as "C Conditional." This school was established approximately eighteen years ago and was the direct outgrowth of an elementary school which is the oldest graded school in the United States. This high school at present is located in a private dwelling house where it has been for the past five years. Prior to that time it was located in a building which was erected some years ago by a Negro citizen for an ice cream plant. The present location is unsanitary, unsafe, and over-crowded, and constitutes by far the worst school plant in the State of West Virginia. This condition existing of course in a county which has invested approximately two million dollars in high schools alone, as well as the fact that it is the seat of the West Virginia University,- the largest educational section in West Virginia has attracted considerable interest. There are two high schools in Clay District, one in Battelle District and a \$300,000 University Demonstration high school which serves the pupils of Grant, Clinton and Union Districts, a Junior high school and a million dollar senior high school for "white."

The present County Superintendent of Schools and the Board of Education are not in the least responsible for this condition of affairs, having inherited this system from the

old magisterial district Boards of Education which we have described before. They have purchased an attractive site of seven acres, centrally located for the purpose of building thereon a Negro high and elementary school which will serve the secondary school pupils of the entire county, and most of the elementary pupils from two of the three districts in which Negroes live. The Board of Education was able to secure this tract of land by skimping in the purchasing of necessary school supplies during the past term. They have no funds to build the proposed school and are desperately seeking these funds with the aid of interested citizens, and of course, progressive organizations among the Negro group. They have appealed to the Social and Economic Planning Council of Northern West Virginia, a Negro organization, which I have the honor to represent, as its president to assist in the attempt to secure the necessary building funds. We have contacted local and national representatives in the government, and confidentially believe that we will secure some assistance in the near future.

The Work Progress Administration now in the process of being set-up in this State under the direction of Hon. F. W. McCullough of Charleston, W. Va. will probably be able to come to our assistance as soon as they have completed their organization. However, a large amount of the funds coming from this administration must be spent directly for work relief labor. Under this plan it will be impossible, it seems from this point of view, to set aside from these funds/sufficient amount of money to purchase the necessary materials, and so we are appealing through you, to the Rosenwald Fund to grant to the Board of Education of Monongalia County, West Virginia, for the erection of a Negro High and Elementary school as described above, a sufficient amount of money that will be necessary to constitute the difference as herein described enabling the Board of Education to purchase the necessary materials for building purposes.

We appreciate your interest in this matter, and will cheerfully cooperate in any investigation you may wish to make of our case which we assure you is as worthy as any that may be found in the country. We are writing this letter to you at the suggestion of the County Superintendent of Schools and of the Monongalia Board of Education.

May I state in passing, that Mrs. Franklin D. Roosevelt has become personally interested in this school and at our request has referred this problem to Mr. McCullough for his earliest consideration. May I have the pleasure of an early reply?

Thanking you in advance, I am

Yours very truly,

D. W. Fox

March 23, 1936

Dear Mrs. Simon: You will find attached a report on Rosenwald schools built by years. We have deducted from the report schools that were expunged from the record in different years and our summaries agree with the total shown on our Schoolhouse Construction Report for 1932.

In 1920 every effort was made to determine by years the number of schools erected through Tuskegee from 1913 to 1920. The audit report of the Tuskegee schools listed 741 buildings on which aid had been given by Mr. Rosenwald and the Fund, but after spending about a year in checking these schools and getting refunds on money for schools which had been paid for but not built we found that the actual number of schools built and paid for through Tuskegee from 1913 to 1920 was 640. It was agreed by Mr. Rosenwald that we should list the schools built from 1913 to 1920 under one head "Tuskegee Schools", and add to this the schools erected by years thereafter.

The 84 schools built under the CUB (Clean-Up Budget) are combined with the schools built under the regular budget of 1920-21, as these schools had been approved prior to 1920 but built and paid for in 1920-21 by a special appropriation.

If there is anything further you would like to have us do please do not hesitate to call upon us.

Sincerely yours,

S. L. Smith

ms	12/31	LR	1/8

My dear Mr. Embree:

I am a teacher down here in Tyrrell County in one of the Tyrrell County small Elementary Schools for Colored people. This is my first winter here in this County but I have been a public school teacher in the State of North Carolina for several years. I have found some conditions here in this school that are very hard for me to better, without just going out bold and honest like a good worker and ask for some help.

This school was built some years ago when there were not so many children to attend school. It has four class rooms with one of them being used as a class room, a library and an assembly room for devotion. We have a school population in this community of approximately 500 with not enough school room for the number that we have coming to us every day. The children have come into us so fast that we have had to get another teacher and this teacher has to hear her lessons in an old hall near the main building.

This winter we are attempting to add two more new rooms to the main building making it possible call in the children that we have not insisted on coming to school because we had no room for them. We have been able to get many of the parents to make us some pledges saying how much they would give me on putting up the new rooms. So far, many have made their pledges in forms of days of work and giving so many feet of lumber. We cant get much money seemingly the people just can't get any money. It looks like a shame to allow so many boys and girls of school ages to stay out of school because of conditions of which they are not responsible. These children must make citizens at the expense of some of us.

Mr. Embree, I know already that you have almost exhausted your funds on Negro Education and other good causes but we hvae just got to ask you for a little. Please if you can give us just a little money on our project here in this very humble community of good people. If you can't give us but a little that little will go a long way on our project. Please let me hear from you. If you don't have much money to give us you do have a great advice that will go a long way in pointing the way out for us. We do thank you for any thing that you have to give us whether it be money advice or encouragement.

Yours truly,

Prof. F.L. Blount

MAR 7 1935

Sears, Roebuck & Co.
Philadelphia, Pa.

Dear Sirs:

The Parent-Teachers Association of The Colored School of Kelford, N. C. has started a project to install lights in the school building. The building is a Rosenwald structure and was erected over six years ago. It is located almost a mile away from the power line and the Power Company has refused to furnish service without great expense.

There are two ways by which we can get lights. First, we may raise about \$600.00 in advance and have the power line come to us or we can install a farm light plant. We have elected to strive for a little Farm Light plant by securing pledges from the patrons and friends of the school. We have estimated that our project will not cost more than \$300.00; but even this will be hard to raise among poor people. Knowing as we do, that you are always willing to help worthy causes, we are respectfully soliciting your help. We are rural people and almost every family is a customer of yours.

The building contains six large class rooms, an auditorium, library, office, one large porch and six cloak rooms. We will have to buy the motor, batteries, wire and fixtures and pay for the wiring of the building. Any consideration given us relative to our project will be greatly appreciated.

Trusting that we may hear from you very soon, I am,

Yours very truly,

Dear Mr. Embree:

I noticed in the news papers some time ago that you granted \$2,500. from the Julius Rosenwald Fund to erect a Negro school building at Warm Springs, Ga. I am enclosing you an outline of facts signed by the heads of the leading organizations of this place, why it is imperative that a Negro school building should be erected here and I am asking you, if you please, if it is possible for you to make a similar grant to the above named school for the same purposes.

I hope that you will give this matter your very careful consideration and that I shall soon receive from you your favorable decision relative to this proposition.

Yours very truly,
J. D. Dickerson.

November 27, 1934

My dear Mrs. Riley: I have read with much interest, your letter of November 23. I wish there were some way by which this Fund could help in the school-house you need. Unfortunately, I fear this is not possible. Even in earlier years the Fund made only small contributions to Negro school buildings which were erected chiefly by funds from the district, county and state. During the present years we have withdrawn from this kind of general assistance.

Fortunately federal relief is helping in the building of a number of schools for both white and colored. I hope that it may be possible for you to get aid from that source. The only thing that I can do is to refer you to the state agent for Negro schools for your state, Mr. W. D. Gresham, State Agent for Negro Schools, Department of Education, Richmond, Virginia.

Very truly yours,

Dear Mr. Hawkins: This is in answer to your letter of November 23rd to Mr. Embree, which was referred to me during my absence from the city. I regret the delay in answering you.

I am sorry to tell you that the Julius Rosenwald Fund is unable to help in the building of a new school for your community. For a good many years we did give substantial aid in building rural schools for Negroes in the South, but we are no longer doing this. Instead, we are concentrating our efforts on finding out and improving what goes on inside the schools already built. This is a new field and one which we feel is more important at this time.

I regret indeed that I must therefore send you this disappointing reply. I hope that from other sources you will be able to secure the funds you need.

December 4, 1934

Dear Mr. Moon: This will acknowledge receipt of your letter of November 27th which Mr. Embree has handed to me for reply.

The Fund has never designated any definite amount for any state. As appeals have been received, they have been judged on their merits (provided, of course, that the proposals were within the scope of the Fund's activities) and acted upon accordingly. In the cases of school buildings, the Fund has never paid for the whole project. We have given only a part of the total amount, and the balance has come from the communities and from the state or county. Unless local interest has been great enough to support the building of the school financially, the Fund has had no part in the project. After the schools are built, the state or county and the communities must maintain them. Apparently there never was enough interest in building a school in your community to support the venture and for that reason or some other, there is no Rosenwald school.

Unfortunately we are no longer helping in school construction. Instead we are concentrating our efforts on finding out and improving what goes on inside the schools already built. This is a new field and one which we feel is more important at this time.

I regret indeed that I must therefore send you this disappointing reply. I hope that from other sources you will be able to secure the funds you need.

December 11, 1934

My dear Mrs. Mann: I have read with much interest your letter of November 29. I wish there were ways that we could help in the matter of school buses. For a number of years, as you know, we cooperated with the various southern states in an attempt to get bus service established for Negro schools on something approaching a parity to that for the white schools. I believe we helped establish the principle in many states, including North Carolina, but it is impossible for an outside fund to give individual assistance, county by county, or to do more than attempt to influence general policy.

The only thing I can suggest is that you appeal directly to Mr. Newbold, State Agent for Negro Schools, of North Carolina. As you know he is interested in all such matters. If there is anything that can be done by the state department I am sure you can count upon his cooperation.

Very truly yours,

Dear Mrs. Simon,

Just a note to Ray that I received the formal and informal communications. Both were welcome, but the latter served to reassure me.

I was unfortunate enough to contract a cold during the Christmas holidays and have been sneezing, coughing, "sniffing", etc.,!

I am writing Mayola today and telling her what you

I am hoping that you will delay your visit until the last of January or the first part of February since we are trying to complete one or two projects before you return. — This statement in the face of the next seems paradoxical. ^{But} — We are anxious to see you. You give us courage.

Thanks for the nice things said in the letter.

I am as "keyed up" as Mayola is and I think you are going to think well of her plan.

May I expect to hear from you again soon?

Best wishes for the health and happiness of you and Mr. Simon.

Sincerely, S. M. Stevens.

suggested in both letters.

She will write you
her plans in detail.

The library ^{books and case} ~~have~~ arrived
and I am just back from
carrying the box down to
the school.

My! but they were tickled.
One of the girls said "O but
isn't Foreman blessed? This
was after I explained that
they are the first to have
this library and that without
any cost to them.

The work is going splendid.
I think you will be pleased
over the steady improvements
made.

Mrs (nc)

January 8, 1934

Dear Mr. Blount: I have read carefully your letter of
December 27th. I wish that we could help.
Unfortunately, it is quite out of the question for us to
consider individual schools, however needy they may be.

As you can realize, hundreds of appeals
come in to us from all over the country. We find it pos-
sible to help only on general matters and for the most part
through the State Departments of Education.

I imagine that you have already made
appeals through the regular authorities of North Carolina. If
not, it might not be amiss to take up your questions directly
with Mr. N. C. Newbold, the State Agent for Negro Schools,
whose address is the Department of Education, Raleigh, North
Carolina.

Very truly yours,
MARGARET S. SIMON

Dear Mr. Felton: We are glad to know that the work of the Shop Supervisor has been so satisfactory, and I sincerely hope that a way may be provided for continuing this project after the present year which ends the five-year period in which the Fund agreed to cooperate, but which the G. E. B. took over for the last three years. I cannot say just what the G. E. B. will do after this period ends, but I am confident that our Fund will not be in position to renew its obligation. It might be well to take it up the first opportunity with Mr. Favrot to get his reactions.

Sincerely yours,

SLS:MT

Mr. S. L. Smith
Cotton States Building
Nashville, Tennessee

My dear Mr. Smith:

This is to acknowledge receipt of your letter stating that half of the libraries have been sent out and that you would notify us before all of them were shipped.

The matter about which I wish to talk with you, is relative to the continuation of the work of W. W. Wilkins, our Itinerant Shop Supervisor. Professor Wilkins has done an outstanding piece of work in this State and I am afraid it is going to be impossible for the department here and the State College to take over his entire salary and expenses.

I have been discussing this matter with Mr. Wilson of our department, who has charge of the Vocational and Industrial Education, and he is very much interested in the work that Professor Wilkins is doing, as well as the president of State College, and they both want to see it continued. I believe if we could get \$600 a year for two more years, that this work will have improved itself sufficiently so that at the end of that time it will be able to carry itself. I would be glad for you to think this over.

Mr. Favrot was in the office this week and I spoke to him about it, as the General Board has taken over this part of the work for the last year or two. Please write me what you think about it and what steps I should take to have this work continued, either by the Rosenwald Fund or by the General Education Board.

As I wrote you, I am unable to tell just what this has meant to South Carolina as I could by showing you some of the things that he has been able to put over.

Thanking you for your consideration, and with best wishes,

Sincerely yours,

J. H. Hope
State Agent Negro Schools.

My dear Miss Craighead: Your very interesting letter
dated November twenty-fourth
somehow failed to reach me until December seventeenth.

The Julius Rosenwald Fund can not make a commitment of \$500 despite the apparent desperate need in your situation. It would seem to me that your greatest hope will lie in making an appeal to your county health office who, in turn, may send his recommendation through the state health officer of Virginia to the Federal Emergency Relief Administration in Washington for an appropriation to meet the needs of your community. Practically no funds are available for such work at the present time other than government money.

Yours very truly,

M. O. BOUSFIELD

Gentlemen:

I am writing to ask that you do everything in your power to get something done for our colored school buildings in Mississippi under the new public works program. We are doing everything we can here, but we need a lot of help at the other end of the line. If Washington will give out the right sort of instruction as to the expenditure of these funds, there will be no difficulty here. Without these instructions we are unable to cope with the situation.

OFFICE OF THE SUPERINTENDENT

RAYVILLE, LOUISIANA

February 20, 1935

Mrs. Margaret Simon, Secretary
Julius Rosenwald Fund
4901 Ellis Avenue
Chicago, Illinois

Dear Mrs. Simon:

The patrons of the Rayville Rosenwald School, with the help of the Ministerial Alliance, have launched a campaign to add a high school department by increasing the schoolroom space and facilities and putting on more teachers. The campaign began this summer, and they have netted so far \$150.

They have asked me, as supervisor of Negro schools in the parish, to appeal to the Rosenwald Fund for a contribution to this effort, conditional or unconditional. The ministers of all the Negro churches are working together in this campaign, and the white school board has expressed its approval and pledged its support.

The aim is to build an annex on the school grounds which will be used for the primary grades, so that the present building may be used for the higher grades only. We hope to carry at least nine grades, since so many of the students who complete the seventh grade here are unable to go away to school.

Please let us know at your earliest convenience if it will be possible to get a contribution from the Fund for such an annex if we meet its conditions.

Yours very truly,

March 6, 1935

Dear Miss Grayson: As already intimated by Mrs. Jones, it is not possible for the Julius Rosenwald Fund to help in increasing the schoolroom space and facilities of the Rayville school. We have withdrawn entirely from the field of help in schoolhouse building. We are trying to aid in various ways in the improvement of school work and in seeing to it that school facilities are equitably distributed between the races. But it is impossible for us to continue direct aid in the building or enlargement of schools. We hope that by some other means you will find it possible to make the additions and reorganization in the Rayville school which you desire.

March 27, 1935

Dear Mrs. Moore: Thank you for sending so fine a report of the Rosenwald programs in Hancock County. Your report of the condition of the buildings and the interest in them is most encouraging.

I wish it were possible for us to help in the building of another school in your county. Unfortunately this Fund has discontinued its school building program. It has seemed to us that we have done all that an outside organization should attempt to do in this field and that the success of our work would be judged by the willingness and ability of the several states and counties to continue the building program in regular, normal fashion.

A good many schools have taken advantage of the willingness of the F.E.R.A. to furnish labor and in some cases even a part of the supplies. The work relief programs are accomplishing so much both in repairs and in new buildings that schools, both white and colored, are being erected even more rapidly than in the days when we were making direct contributions.

I hope that through relief or some other way you may continue with your building plans including another school for Negroes in your county.

Very truly yours,

JOHN SYLVESTER
AUGUSTA, GA.

Feb-24th

My dear Mrs Wood

I am taking the liberty of writing you in reference to a matter which I want to elicit your support. I am enclosing a letter I wrote Mr Smith of Nashville the Southern representative of the Rosenwald fund which explains the situation of the Weed School on the hill. For the past ten years the interracial Committee of which I was Chairman have endeavored to get the board of education to build good graded schools for the negroes. Now they are willing the necessary funds are lacking. It is true they have built two large schools in the city for the negroes. But they have not sufficient funds to build twelve more & the Weed school on the hill. They have set aside thirty thousand dollars for the Weed school it will take at least fifty to build the kind of school that is needed, with an auditorium. I want to make it an industrial school to fit the boys & girls so they can earn a living when they leave the grammar school. I was informed by Mr Dixon who represents the Rosenwald fund in Georgia that, owing to the low price of the block of Oars & tubs the foundation did not want to sell at the present time.

JOHN SYLVESTER
AUGUSTA, GA.

I wrote Mr Smith asking him would
it be possible to turn over a certain
amount of the stock to the board of
education for the benefit of the negro
schools that are to be built in the
County. The board of education could
hold the stock until it improved
in price. I talked to your brother
George about it & he said he felt
certain you would do what you
could to help us. He thought if
you talked to Mr Rosenwald he
would be more interested in doing
something. I hope I am not asking
too much of you. I assure you whatever
you can do will be greatly appreciated.

Yours Very Truly
John Sylvester

Dear Mr. Pruitt: Rosenwald schools are part of the
 regular public school system:
all that the Fund did was to help financially in the
actual construction of the buildings - it did not assume
any responsibility of any kind for them after their
erection. There is no law which says that a Rosenwald
school must be kept open more months than any other
public school; whatever laws are applicable to public
schools in your state, are applicable to Rosenwald
schools, because they are public schools.

Very truly yours,

MARGARET S. SIMON

Gentlemen:

I am just in receipt of your booklet "School Money in Black and White", and was so impressed by it that I would appreciate it very much if you would send me six additional copies, for which I assume there will be no charge.

ok sent 4/29

Being a member of the City School Board for Clinton, naturally I am interested in elementary education both for the whites and blacks since we have schools for each race in our system.

Our negroes have been housed in a building that is more than fifty years old. We have now in process of construction for them a modern two room brick school house, but do not have sufficient funds to finish and equip it as it should be. In this connection, do you have any funds available for such purposes, or could you suggest any other source to us? We have been able to get but very little help from the Tennessee Emergency Relief Association, since they refused to contribute anything for materials or skilled labor. This leaves only common labor

MAY 1 1935

Dear Sirs.

Just received one of School
Money, Black & White booklet form I
~~was~~ ^{were} Very much interested in looking it over
so much so that I had a New Vision
to my thinking We are now about ready
to start on a New School Bldg for
one of our Cotton Mills P.M.A. Fund
at a cost of 30000.00 to 32000.00 for
white. Wonder if you would be interested
in making a survey here at Woodruff & Co.
I give you a Rosenwald Bldg for the
Colored people School. I think
We could get a ~~decent~~ comfortable
Bldg for 7500.00 to 10000.00 Ballam being
one of the trustees for the white school

Also the Colored I would like to see.
The Colored people of our Community
have a better School Bldg than they
have. They have 700 Children or
more in school here if it is not
asking to much for you to
do for our Community ~~and~~ ^{and} Colored
Friends would be pleased to have
you investigate same we can get
good location in our town for
a building site. I was so interested in
your Booklet just had to write this
short application for School Bldg
for our Colored friends.

Yours Very truly

T. Wright Ex.

Margaret S. Simon, Secy.,
Julius Rosenwald Fund,
4901 Ellis Avenue,
Chicago, Illinois.

Dear Madam:

I appreciate very much your kind letter of April 30th in answer to my letter of April 25th.

Since you have no funds available for Negro school buildings, I am wondering if, in a deserving case, you might have anything available for equipment and supplies. Our funds were more than exhausted in the completion of the two roomed brick building, with the result that adequate equipment and supplies will not be obtainable. If there is any help you might give us on this, it would be greatly appreciated and serve a most worthwhile purpose. Should you desire further information as to our local situation, it will be a pleasure to furnish such.

In your letter, you did not mention the additional copies I requested of "School Money in Black and White"; but I hope that you will see that such are mailed. I think, beyond a doubt, that this is the most vivid and understandable picture of school finances that I have ever seen. If I could procure a number of additional copies, I am sure I could do some good missionary work in the cause of education in the South, particularly as it relates to our colored population, who, incidentally,

AIRMAIL

FISK
UNIVERSITY

WLS (Taylor)

Hand

May 23, 1935

Dear Mr. Taylor: You will find attached two photostatic copies each of the application and inspection reports on the Pine Hill School in Gregg County, Texas. You will note that the application was approved on September 26th and the inspection approved on October 16, 1929 for \$500 aid from the Fund. The Fund's aid of \$500 was included in check No. 3245 to the Texas State Department of Education for \$3,300, which was to pay for several schools.

There was but little correspondence in regard to this building as the application and inspection reports were submitted in a letter along with others at the same time and simply listed by name and number. We prefer to send the correspondence through the State Department of Education in keeping with a well established policy of a long period of years, and let the State Department of Education take the matter up in its own way with the county superintendent and others.

In the annual report of receipts and disbursements by the State Department of Education at the end of the year 1929-30, we note that the Pine Hill School in Gregg County was paid for with state check No. 153 for \$500.

If there is any further information that we can furnish you please let us know. I am anxious to know the nature of the suit brought against the school for \$10,000. You will note that the reported cost was \$3,250 including the site and equipment.

Sincerely,

SLS:ch

Mr. Edwin R. Embree, President
Julius Rosenwald Fund
Chicago, Illinois

Dear Sir:

We are making our plans to do some
extensive repair work and remodeling on our
Negro School building.

I should like to know if it is still
possible for us to qualify for aid from the
Julius Rosenwald Fund for this purpose. If this
is possible, what requirements would we have to
meet to secure this aid?

Thank you for your information on
this matter.

Very truly yours

E. O. Hutcheson

May 31, 1935

Dear Mr. Hutcheson: I am sorry to have to inform you that the Julius Rosenwald Fund is no longer making contributions toward the cost of Negro school buildings. We aided in the erection of somewhat more than 5000 Negro public schools. This seemed to us to give the movement so much momentum that our aid was no longer required.

The various departments of federal relief have been helping in the building and repair of school buildings throughout the country. Is it not possible for you to get aid through these public works funds? I imagine your state department of education would have full information on this subject.

Very truly yours,

EDWIN R. EMBREE

Bibbston, La. May 2, 1937.
Mr. D. L. Smith,
Nashville, Tenn.
Sir:-

Just a few words thanking you for the help that you rendered me in the teacher retirement system.

Listen Mr. Smith; It is a fact that I recieved the \$1,064.54 from the Rosenwald fund but the supplement which was to have been paid by the state, I have not recieved one cent of it and the state still owes it to me. I have a letter from Mr. A. C. Lewis dated April 12, 1937, reads as follows. On the strength of a statement you have recieved from Mr. D. L. Smith showing payments made to you by the Rosenwald fund, I am willing to certify that the state paid to you as Rosenwald Agent for the state of Louisiana the sum of \$1,064.54 to supplement the same amount paid by Rosenwald fund for the same purpose over a period beginning December 14, 1917 and ending March 1919. See other page.

Indeed I did do the work and it was hard
work as I was first to break the ice. I
built 5th Rosenwald School Building.
I worked night and day, but I have
not received the supplement money
that was paid over for me.

Will you kindly advise me just
what to do in this matter?

Thanking you very much in advance
for your early reply.

Respectfully yours,

O. J. Gray,

Box 124

P.S.

I wrote several times to Baton Rouge for the
statement of my Rosenwald work, but they
told me that they could not find any record
of my work at all at Baton Rouge, so in this
way my record was referred to you.

Please answer.

Dear Mr. Embree: You will find attached summary of expenditures for 1931-32 and for 1932-33 on various budget items handled through the Southern Office, and in addition, supporting detailed summaries by states. We are also attaching statements on some of the important projects for use if you should need them, including the four-page report printed on May 15, 1933 for use in the Exhibit at Chicago, which contains summary statements on Schoolhouse Construction, Libraries and Transportation.

By referring to my diary you might find some statements on activities in the South for the past year or two which you could use if needed.

Under Exhibit D on page 28 of the May, 1933 Docket you will find report which might contain material you would like to use, particularly the one on the Joint Health Education Experiment at Nashville and the County Library Demonstrations. In the report attached, we have copied the statement on County Libraries with some changes and have made additions which might assist you in preparing your report on the County Library Demonstration. We could give you a number of rather interesting comments from officials on the effectiveness of these County Libraries, but I thought the space in your report would be too much limited to include such statements.

Sincerely yours,

S. L. Smith
Director for Southern Office.

Hon. Edwin R. Embree
Chicago, Illinois

Dear Mr. Embree: .

I noticed in the newspapers some time ago that you granted \$2500 from the Julius Rosenwald Fund to erect a Negro school building at Warm Springs, Ga. I am enclosing you an outline of facts signed by the heads of the leading organizations of this place why it is imperative that a Negro school building should be erected here and I am asking you, if you please, if it is possible for you to make a similar grant to the above named school for the same purpose.

I hope that you will give this matter your very careful consideration and that I shall soon receive from you your favorable decision relative to this proposition.

Yours very truly,

J. D. Dickerson

July 3, 1935

Gentlemen:

MS
(Georgia)

Some few years ago, through
your help we were able to erect
a good school building here in

Regis. Mr. Rosenthal's photo hangs
now upon the walls of our Assembly
Room and we know his great need.

We have never been able to
equip the building. Our town is
poor and help much.

We are appealing to you to give
us \$500.00 with which to purchase
desks for our class room. The
rest desks as well being practically
none except benches have made over.

The American Seating Co., Atlanta, Ga. has
quoted prices. Or if you would
give us \$1,500.00 we could buy some
suitable materials and the F. G. R. A.
would furnish first class carpenters

JUL 12 1935

to build the desks for us,

Whatever you do for us will be
greatly appreciated and just at this
time will prove a distinct blessing.

We don't want to handle a cent
of the money. We just want the
desks which we so much need.

Thank you kindly for any consid-
eration.

Yours very truly,

J. Glenn Lawrence
Sgt.

July 10, 1935

My dear Mr. Dickerson: I am very sorry that it is impossible for the Julius Rosenwald Fund to consider further help in the building of Negro schools. As you know, we had a regular program of assistance to such buildings for a number of years. We have definitely terminated that work and our trustees have voted that we must not re-enter this field even in individual cases.

The contribution to the proposed school at Warm Springs was the final grant in our former building program. It seemed to us that a fitting conclusion to this work might be reached in erecting a school which had the direct interest and support of the President of the United States.

I am very sorry to send this unfavorable reply to your request but I am sure that you will understand and appreciate our position.

Very truly yours,

July 10, 1935

Dear Mr. Fox: I have read with much interest your letter of July 2. Unfortunately this Fund, after a long program of aid to the building of Negro school houses, has now withdrawn entirely from that field. With our present small resources, you can realize that we could not be of material assistance in the tremendous needs in this expensive field in the various southern states.

In most cases the various states and counties are finding that federal funds are meeting the needs of school building even better than they were met before the depression. I recognize the peculiar situation in your state due to your constitutional restrictions. I regret that we cannot help and I hope that by some means you will be able to carry through your plans for proper school facilities for all groups of the population.

Very truly yours,

Dear Mr. Lawrence: Thank you for your letter of July third.
Unfortunately it is quite impossible
for this Fund to help you as you ask.

Even when we were carrying on our school
building activities we did not handle any phase of the equip-
ping or maintaining part of the work. These, together with the
selection of teachers, are part of the responsibility of the
state and county education officials.

I should suggest, therefore, that you
get in touch with them; and you might also make inquiries as to
the possibility of aid through FERA channels. I am sorry we
can be of no help.

Very truly yours,

Mr. Geo. R. Author,
Chicago, Ill.,

Dear Sir:

Please inform me in what way are you giving help towards Negro schools. I'm one of the Baldwin County teachers, and my people are in need of a school building.

We will appreciate any help that you will give from the Rosenwald Funds, providing you are giving such aid to Negro schools.

Thanking you in advance for an immediate and a favorable reply.

Yours truly,

Ruth N. Griggs

Dear Mr. Martin: I have read with interest your letter of July 29. Unfortunately the Julius Rosenwald Fund has withdrawn entirely from the field of contributing toward the support of rural schools. Our funds are exceedingly limited and our trustees have voted that we must conserve them for projects in which we are actively engaged.

I am sorry to have to send you a disappointing reply and I hope that by some means you will be able to obtain the funds you need for your school.

Very truly yours,

ERE*GS

Dear Miss Griggs: Your letter of August 12 to Mr. George Arthur has been referred to me. Unfortunately, the Julius Rosenwald Fund has withdrawn entirely from the field of schoolhouse building. We are, of course, still very much interested in adequate school facilities for Negroes, but our funds have become so limited in the past few years that we can no longer give financial aid.

The only suggestion I can offer is that you apply for assistance from federal funds and, of course, you may have already done that. I hope that you will be able to obtain the help you need for your school building.

Very truly yours,

EDWIN R. EMBREE

Dear Mr. Bacon: The attached letter from Peoria, Mississippi, Route 1, by Alphonso Porter, states that the Europe Bates Rosenwald School in Isite County is about to be foreclosed by the lumber company that furnished material for the building. He states that they received the Rosenwald money and in addition \$400. or \$500. from patrons besides the labor and carpenter work. He asks the question whether if they succeed in selling the school if it would be possible for them to attack the school for the amount the Rosenwald Fund contributed toward the building. Will you be good enough to look into this matter to see whether there is anything that can be done to have the county or district assume the obligation and save the school for the use of the community.

I have the picture of this school before me. It is a very attractive three-teacher building erected on Plan M. Our records show that it was approved for \$700. and in February 1930, and payment was made by the Fund on an inspection report filed in our office in 1930. Both the application and inspection reports were signed by W. F. Bond and E. C. Strain. The application states that the building is to be located on four acres of land deeded to the public school authorities. The total cost of the building, according to the inspection report, was \$3,373, of which the Negroes contributed \$3,373; whites \$100. and the Julius Rosenwald Fund \$700.

As the building would be worth very little to a lumber company and a great deal to the community as a school, I feel confident that the county superintendent and school officials will take the necessary steps to hold this school intact for the purpose for which it was built. Of the more than 5000 schools which the Julius Rosenwald Fund has helped build in the South, so far as I know there never has been one sold for lack of payment on lumber and material, and I certainly hope that the record may not be broken in the case of this attractive three-teacher school. I am sending you two extra copies of this letter in order that you may send one to the county superintendent and probably one to your office. I have written to Alphonso Porter, a copy of which is attached.

November 13, 1935

My dear Mr. Porter: Your letter of November 11 to the Chicago Office of the Julius Rosenwald Fund has been referred to this office to be answered. I have written to Mr. P. E. Mason, State Agent for Negro Schools in Mississippi, suggesting that he look into the matter to see what can be done to help save the foreclosure of this school building. I would suggest that you talk to the county superintendent and school officials, explaining the matter fully, because I do not believe that they would allow the school to be sold if it could possibly be avoided. I very much hope that this matter can be settled in a satisfactory way to suit all parties concerned, and certainly hope that nothing will be done toward foreclosure until Mr. Mason or some other member of the State Department of Education has opportunity to talk it over with the county superintendent as well as the lumber company.

As to whether the building if sold might be attached by the Julius Rosenwald Fund for \$700., it is a question that might be taken up as a last resort.

Sincerely yours,

Director for Southern
Office.

November 14, 1935

Dear Mr. Smith: I am beginning to draw up a complete statement of payments made by the Fund since July 1, 1928. I have just completed the section on the rural school program. Construction items have been divided under the headings, Construction of School Houses including Additional Class Rooms, Teachers Homes, and Vocational Buildings and Equipment.

According to my records and the audits of the Nashville office expenditures, all construction during 1928-29 was for school houses, and in 1929-30 all construction was for school houses except \$1,000. for vocational equipment. I have assumed from this that we did not start constructing teachers homes and vocational buildings until 1930-31. Does this agree with your records?

Very truly yours,

Dear Mr. Smith: I am enclosing an old report
on Rural Schools. I can't find
one more recent than this in our files. May I have
the statements on pages 6, 7 and 8 brought up to
date? I think all it will mean will be supplying
similar figures for 1930-31 and 1931-32. Are these
figures available?

Thank you very much.

Dear Miss Elvidge: The reports on Schoolhouse Construction which you asked for a few days ago will be mailed to you tomorrow. Several pressing matters have kept us from getting them ready. The original report for 1930-31 was mailed to the Chicago Office soon after the end of that year, but we have an extra carbon copy here which we will send you. The 1932 report was not made up at the end of the year due to the fact that we preferred not to make payments at that time. Later on a number of these projects were taken over by the G. E. B., which were not completed and paid for for almost a year. We are separating these and making you the detailed report as requested.

Sincerely yours,

S. L. Smith

	ERE	12/2	588	D

Mr. S. L. Smith,
Dir. of Southern Office
Julius Rosenwald Fund,
Cotton States Bldg.
Nashville, Tenn.

Dear Sir:

I do not know the particular phase of the problem regarding the education of Negroes that is receiving major consideration at the hands of the Fund which you represent, however, I wish to submit a brief statement regarding some of our local needs.

1. A small bus or truck to make more effective our rural community service program.
2. Library books. We have only 4000 usable volumes in our library.
3. We desire to make an economic and educational survey of Negro life in the State for the purpose of organizing a more practical curriculum but do not have sufficient funds.
4. We need fellowships to improve the professional preparation of certain members of the faculty.

If your office is directing its attention in a tangible way toward either of the above phases of the current educational problem, we shall be grateful for favorable consideration at your hands.

Mr. McCuiston is more or less familiar with our situation here and I believe will gladly verify this letter. We shall be pleased to furnish more detailed information if necessary.

A reply at your convenience will be appreciated.

Very truly yours,

DEC 5 1935

Fred McCuiston
Associate Director

December 3, 1935

Dear Miss Elvidge: In a brief conference with you and Mr. Embree in Chicago in November, I believe it was agreed that we could transfer from the school plant rehabilitation budget a sufficient amount to take care of the necessary blue prints and specifications to carry us through this year. We have used up our entire budget for school plans and are having considerable demands. I suggest that you transfer, for the present, about \$400.00.

We have just finished a very heavy task in printing up for the fifteen southern states the necessary materials for the Improvement and Beautification Contest for both white and colored schools - about 70,000, which will be circularized in about 1500 counties. As the application and report blanks are to be made out in duplicate they wanted two of these for each school, one plan, and one bulletin on Suggestions for Improvement and Beautification of School Plants. The states preferred that we print them here as we could get a much better price in large quantities than they could get by printing them in the states.

Sincerely yours,

S. L. Smith

* A 7-teacher school (\$2,250) and a shop (\$600) in L.A. were expunged from our records, and the amounts included in two checks from Supt. Harris, was refunded in 1931. This accounts for the difference of \$2,850 between our report and the auditor's. See files of June 1931 for details. S.S.

** The total of these types is \$250,475, which agrees with the auditor's report on schoolhouses. I am wondering from what report you get \$245,275 as the total for schoolhouses. As the last two types - 16-teacher and 17-teacher - amount to \$5,200. I am wondering whether you might have overlooked these two items in adding for summary. If this does not clear up the summary for 1929-30, please write us and we will go over all the records. These reports were taken from the Card file - yearly - 4-15-35. S.S.

Voc. Study

February 7, 1936

Dear Mr. Dixon: In 1930 the Fund agreed to give aid, as an experiment, for eight vocational supervisors equipped with vocational busses. Two of these were located in Georgia. The cooperation was to be run over a period of five years, but the General Education Board agreed to take over our obligation the last three years with the understanding that this office would keep in touch with the work, including the monthly reports. As the five-year period of cooperation ended June 30, 1935. I am wondering whether the work is being continued. In order that I may make a report I would like to have some information in regard to this demonstration in your state, including the status of the work this year.

Sincerely yours,

SLS:MT

Mr. J. C. Dixon
State Department of Education
Atlanta, Georgia

P. S. I am attaching copies of program for Group E, under the Division of Rural Education, to be given in the Assembly Room of the St. Louis Public Library, February 26, 2:15 P. M. We hope you will be present and that you will call the matter to the attention of officials of your state interested in all phases of rural education and life. We want this new group program to have a full house.

Use bus

Mr. S. L. Smith,
Southern Office,
Cotton States Building,
Nashville, Tenn.

Dear Mr. Smith:

The vocational supervisor for the colored schools supplied to this state by your department in 1930 proved to be most worthwhile. In 1930 we had seven negro trade departments. This year we have thirty-four trade departments. When W. W. Wilkins and his bus equipped with tools began travelling this state a new interest in negro trade work was created. Even with the progress we have made much more is to be desired, and we should like to see this program continued.

Yours very truly,

C. M. Wilson

February 10, 1936

Mr. J. B. Felton
State Department of Education
Columbia, S. C.

Dear Mr. Felton:

We have made plans this year to pay Professor W. W. Wilkins' salary from vocational and college funds to continue his activities with the shop program in the state. At the present time the larger part of his activities is devoted to the development of shop projects in connection with the National Youth Administration. Along with these shop projects, we are trying to develop the community center or activity plan of teaching agriculture and home economics in the rural negro schools.

We find Professor Wilkins' activities quite worthwhile in this connection and we are hoping to enlarge on this type of activity from year to year.

Yours very truly,

Verd Peterson

February 18, 1936

Dear Mr. Smith: In preparing the report of past activities of the Fund, we have discovered that we have no final statement for the third year of our contribution toward the salary and expenses of a state supervisor of shop work in Louisiana.

Our records show that \$1500 was sent on January 6, 1932 for our contribution for the fiscal year ended August 31st of that year. Do you have in your files a statement of expenditures for 1931-32? We have the statement for 1930-31 which was sent to you and forwarded to this office on November 20, 1931.

Kindly let us know promptly whether or not you have this statement so, if you do not, we can get one from Mr. Lewis to give us the necessary figures.

Very truly yours,

DOROTHY A. ELYDGE

Dear Mr. Smith:

The shop supervisor was discontinued as a member of the State Department of Education, but the same man doing very largely the same type of work was placed at Alcorn College as a member of the teacher training staff of that institution. This is really as good or better than the former arrangement.

Cordially yours,

P. H. Eason
State Agent

NPS
(Schoolhouse
construction)

March 31, 1936

Dear Mr. Smith: On March 23, 1936, you sent Mrs. Simon a list of schools, shops and teachers homes built by years. I am assuming that you have a copy of the list attached to your carbon of the letter. From 1913 through 1927-28, the list shows, 4,135 schools, 170 homes, and 46 shops, a total of 4,351 buildings. However, the pamphlet on rural schoolhouse construction published in July 1928 shows 4,138 schools - three more than shown above - and total buildings of 4,354.

From July 1, 1928 through 1931-32 the list shows the following variations:

	<u>Total Bldgs. Per recent list</u>	<u>Total Bldgs. per construction pamphlet for that year.</u>
1928-29	373	375
1929-30	346	346
1930-31	225	220
1931-32	62	62
	<u>1006</u>	<u>1003</u>
1913 to 7/1/28	<u>4351</u>	<u>4354</u>
	5357	5357

I have been trying to get the amount spent for construction annually since 1913, working with your reports which I am attaching. (Please return them to us for our files).

From 1913 through January 30, 1928 this report shows the following amounts expended:

Schoolhouses	\$ 3,121,839
Additional Classrooms	68,400
Teachers' Homes	145,713
Shops	<u>15,200</u>
	\$ 3,351,152

The amount expended from Rosenwald sources as shown by the schoolhouse construction report for July 1, 1928 is \$3,333,852, a difference of \$17,300. Construction expenditures from July 1, 1928 to June 30, 1932 are allright.

Can you straighten me out on these earlier figures? We are considering having made a chart showing construction by years for the number of buildings and the Fund money involved.

Very truly yours,

Mr. S. L. Smith

April 4, 1936

Dear Miss Elvidge: Since receiving your letter of March 31 asking us to give amount of aid for buildings by years from 1913 to 1932 to go with the number of schools by years sent Mrs. Simon recently, I felt it would be best to make a complete report by years from our official records, rather than to attempt to explain differences, between annual printed reports and our official summarized reports of all schools to 1932.

The main difficulty you have had was in attempting to reconcile summarized figures given up to the end of each fiscal year in our printed construction report, due to our deleting from the records in 1931, 5 buildings, which had been reported as built in 1922-23 (1), 1923-24 (1), 1924-25 (1), and in 1928-29 (2).

The attached summaries, giving by years (1) the number of buildings, (2) the Fund's aid, and (3) the total cost, have been checked and agree with (1) our card record of the 5,357 buildings, (2) our official Roster, and (3) the audit reports (when the expunged schools and refunds for these by years are taken into account). I think it would add to the significance of the chart, if the total cost is included.

I am awfully sorry I did not know that you wanted a report of buildings and the Fund's aid by years (from the beginning) as we might have saved you some work and worry. Don't hesitate to call on us for anything else you may need. We are glad to help out at any time.

Sincerely yours,

S. L. Smith

Dear Miss Elvidge:

The attached report giving the Fund's aid by years and by types has been completely checked, and now agrees with the consolidated reports attached to my letter. The aid on the expunged schools and the \$3,700 (partial payment on 2 buildings) by the General Education Board are omitted.

S. L. S.

4/4/36

Mr. L. J. Rosenwald

Houston Texas,

Dear Mr. Rosenwald:

This to you is to advise you that we have ^{several} school buildings in this section. which ^{is} partly financed by the funds of Hon. J. Julius Rosenwald.

I take pleasure to kindly ask you does the Rosenwald funds contribute any funds in the way of maintenance in the way of repainting these buildings (etc)?

Hoping this matter will have your consideration, as those buildings are needing painting badly just now.

For reference I refer you to the following gentlemen of your city (1) Hon. John H. Kirby (2) Mr. Lynch Davidson. As to my honesty and fair deal.

Yours truly
L. J. Davidson

Dear Mr. Deason: Your letter to Mr. L. J. Rosenwald
 has been referred to us by
Mr. Rosenwald.

All buildings towards which the Julius Rosenwald Fund contributed are a part of the public school system and the maintenance of them is the responsibility of the counties in which they are located. If the counties do not have the finances with which to keep these buildings in good condition, your only hope is to interest the communities themselves to the extent of making the repairs.

I am sorry that there is nothing we can do, but I am sure you will understand our position. I hope you will be successful in raising funds from the county or community.

Very truly yours,

JAMES F. SIMON

Dear Sirs:

It is the desire of the City of Gainesville to build at an early date a new school for colored children. Will it be possible for us to obtain a grant from the Rosenwald Foundation to assist us in this work? If so, what percent of the entire cost would be probably receive?

Thanking you in advance for any information you may give me on this, I am

Yours sincerely,

H. O. McCain

Dear Miss Simon:

I note what you say in your letter of April 23 in regard to the discontinuance of help in school buildings.

I am just wondering if we might get some help from the Rosenwald Fund for the purpose of equipping our new building for colored pupils in case we build one. So far as I know, no school in this county has ever received any assistance from the Fund.

Thanking you in advance for an early reply, I am

Yours sincerely,

NRS (L)

May 4, 1937

Dear Mr. Gray: I note from your letter of May 2nd that you did receive the \$1,064.50 from the Julius Rosenwald Fund as Rosenwald Building Agent in Louisiana from December 4, 1917 to March 1919, but that the state did not pay you a supplement to this amount.

The amounts I gave you in my letter of March 31, 1937 were taken from the old Tuskegee records which are on file in this office. They simply give the monthly checks sent without any reference to any state supplement or any other condition. I have no record of the agreement made by the state department of education and the Julius Rosenwald Fund at that time, as I did not take charge of the work of the southern office until June, 1920. When the southern office was established in Nashville the Fund agreed to pay toward the Rosenwald Building Agents salary and expenses not more than one-half the total. The assumption in the last paragraph of my letter of March 31 was based on the general plan after I took over the work in 1920 and might not have been true prior to 1920 when you were serving. The plan probably was slightly different in each of the southern states in the early period.

Sincerely yours,

SLS:WT

Mr. O. W. Gray

~~Gray~~

March 31, 1937

Dear Mr. Gray: Mr. Leo M. Favrot has referred your letter of March 15th to me with a request that we give financial record of your work as Rosenwald Building Agent in Louisiana. From the records of the Fund we are giving you the following detailed information of checks issued through Tuskegee Institute:

Dec. 4, 1917	\$ 31.25	Aug. 8, 1918	\$ 62.50
Jan. 16, 1918	62.50	Aug. 29, 1918	62.50
Feb. 9, 1918	62.50	Oct. 11, 1918	62.50
Feb. 26, 1918	62.50	Oct. 26, 1918	62.50
Apr. 1, 1918	62.50	Nov. 27, 1918	62.50
Apr. 30, 1918	62.50	Dec. 26, 1918	62.50
May 26, 1918	62.50	Jan. 1919	62.50
July 3, 1918	62.50	Feb. 25, 1919	62.50
July 18, 1918	33.35	March 1919	62.50

The total amount paid you by the Julius Rosenwald Fund from November 1917 to April 1, 1919 was \$1,064.50. Since the Fund's aid represented not more than one-half of your salary, it would seem that the total salary was at least double this amount, or \$2,129 during this period.

Sincerely yours,

Dear Smith:

Louisiana has adopted a teachers' retirement law and all teachers preparing to apply for retirement aid have to furnish a statement of their service in the state. The enclosed letter has been received from Mr. O. W. Gray, who was at one time Rosenwald Building Agent during my service as State Agent of Negro Schools in Louisiana.

I wonder whether you do not have in your office a record that would show the period of service of Mr. Gray and also the salary he received for this work. If so, will you be so good as to send a statement to Mr. Gray and a copy to Mr. A. C. Lewis.

Sincerely yours,

Mr. Leo M. Stewart,

Sir:-

Just a word respecting the Teachers.
Retirement. I wrote Mr. A. C. Lewis and
sent him the blank to fill respecting the
work that I did under you as Rosenwald
Building Agent. Mr. Lewis wrote me
that he could not find any record at all
of my work or when I worked. Will you
please fill one of the blanks showing the
time that I worked and the amount of salary
paid for same? Thanking you very much
in advance for same and obliged.

Of the blanks that I had, I sent them
to Mr. A. C. Lewis and therefore, I do not
have any at all at this time. I hope you
have some or in position to get some.

Thank you.

O. St. Gray.

March 22, 1937

Dear Mr. Gray:

Your letter of March 15th was forwarded to me here in New York. My Baton Rouge office has been closed, as you will observe from the enclosed notice.

I am sorry that Mr. A. C. Lewis is unable to find a record of your work in the State Department in Louisiana. I would not be able from memory to fill any blank touching on this question. However, my recollection is that the Julius Rosenwald Fund contributed to your salary if they did not pay it entirely. I think their records should show the dates and the amounts. I am therefore writing to Mr. S. L. Smith of the Fund, whose address is Cotton States Building, Nashville, Tennessee, and asking him if he will be kind enough to furnish Mr. Lewis a statement of the dates you served as the Rosenwald Building Agent in Louisiana and the amount paid you for salary during that period.

Sincerely yours,

Mr. O. W. Gray
Danville, Louisiana

STATE OF MARYLAND
DEPARTMENT OF EDUCATION
TWENTIETH FLOOR, LEXINGTON BUILDING
LEXINGTON AND LIBERTY STREETS
BALTIMORE

J. W. HUFFINGTON
SUPERVISOR OF COLORED SCHOOLS

July 27, 1937.

Mr. S. L. Smith,
502 Cotton States Building,
Nashville, Tennessee.

My dear Mr. Smith:

Please give me advice regarding this situation.

Several years ago the Rosenwald Fund gave us \$900 toward a teachers' home at Prince Frederick, Calvert County. The money was spent wisely and as a result we have a building of nine or ten rooms with a front porch, plus a side porch running part of way of building.

At first, the county supervisor (a man) whose wife is an elementary teacher in the school and the two other teachers who were women occupied the house. The women teachers were considered boarders in the family of the supervisor.

However, as the school grew and a married man with another man, single, ~~were~~ employed as teachers in the school (it now had expanded into a high school), the county supervisor seemed to feel and to act (and still does) as if the house is his own personal property and as a result the married principal and any other men teachers are forced to go out and rent rooms elsewhere. Only one or two unmarried women teachers, who are boarders in the family of the supervisor are permitted to use the teachers' home.

Reason: The present superintendent was not in the county when home was built and knows absolutely nothing about its history and that you aided us in its construction, so he told me a while ago when I insisted that the other teachers as well as the supervisor's wife have some use of the building. (The supervisor is not a teacher, but the husband of one). My contention is that if other teachers desire to use the building since its construction was aided by the Fund they should have the privilege of using it to the capacity of the building.

Am I right in this contention? There is no trouble on this affair. I am simply trying to look out for our teachers, since homes are scarce in this sparsely settled section, and, unfortunately, the superintendent doesn't know the history of the home.

I told him that I, not he, would perhaps be subject to a reprimand from the Fund if it continued as a supervisor's home, and other teachers were obliged to go out and pay rental when rooms were idle in the

FISK
UNIVERSITY

Page Two, Mr. Smith, July 27, 1937.

home. The Supervisor's family is composed of himself, wife, and one child.

Will you please write me if my position is correct or incorrect in this matter.

Thank you!

Very sincerely,

J. Walter Hupington,
Supervisor of Colored Schools.

JWH:CMS

NRS (e) Jan

Count,
Mrs.

July 30, 1937

Dear Mr. Huffington: The teachers' home at Prince Frederick,
Calver County, was built under the
1927-28 budget. The records show the total cost to be \$4,500.
Of this amount the Negroes contributed \$2,600, public funds
\$1,000 and the Rosenwald Fund \$900. Our aid was given on the
assumption that this is public school property.

It would seem that the matter of how
this teachers' home is to be used for the accommodation of
teachers in this particular school should be left in the hands
of the school officials to determine. I hope this answers your
question.

Sincerely yours,

SLS:MT

Dear Supt. Bunn: You are to be congratulated
 on securing a Negro high
school in your County and your efforts to secure
a Jeanes teacher. While we are greatly interested
in seeing the development of both of these projects,
the Fund is not now giving aid in either of these
fields. No doubt our good friend N. C. Newbold can
help you find a way to carry forward these projects.

Sincerely yours,

SLS:MT

Nashville, Tenn.

Dear Mr. Smith:

I am coming to you this time with one of my county educational problems in which I believe you can be of assistance. I remember with keen interest your message to our class on Dual Education at Peabody College this summer. It is in this field that I am asking for some advice.

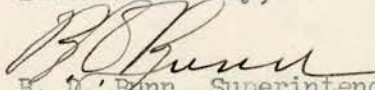

Granville County is one of North Carolina's outstanding small counties except for the development of the negro education. I have 2400 negro pupils in 39 schools, 26 of these are one teacher schools. For the first time in the history of the county we have established a negro high school and are desirous for some aid of transportation. If there is any way that I can get aid for these high school pupils through any of our Southern Funds it will be a God send to the negroes of this county. When once these busses are purchased the state law requires the State School Commission to keep them up and replace them when worn out. You can see from this organization what we need is fund to purchase the first busses. May I say confidently that our county commissioners are extremely reluctant in aiding in any of this development.

The second thing in which I am desirous of aid is need for a supervisor of our negro elementary schools; if it is possible for us to get for a few years about \$450 for this work, the Jeanes Fund will allot us a similar amount.

If there is any way through any of your funds that you can assist me in a piece of real pioneering it will be deeply appreciated. I will appreciate you talking to Mr. Leavel about this program.

Best regards to you and your workers; I am hoping to hear from you soon.

Yours sincerely,

B. D. Bunn, Superintendent
Granville County Schools.

ROSEDALE PUBLIC SCHOOLS

ROSEDALE, OKLAHOMA

March 2, 1938

The Trustees

Julius Rosenwald Fund

Nashville, Tenn.

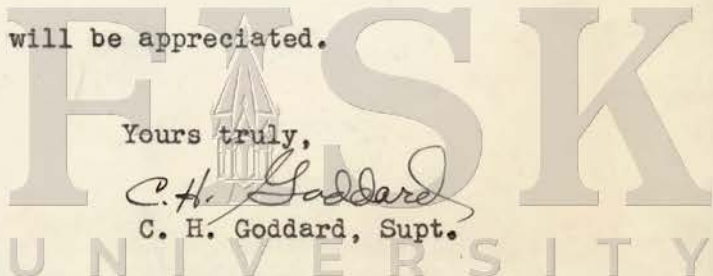

Gentlemen:

There is a Negro Elementary School located within the confines of Independent 6, McClain County. I, the Superintendent of the White School, in conjunction with County Officials administer the school.

I have heard that this school, Douglas, receives support from this foundation, and it is my intention to ascertain the truth of the report. I have been superintendent here only six months, and as far as I know there has been no money received this year. The Negro teacher has heard the same report, but to her knowledge no aid has been received in the past two years. To be frank about the matter, there exists in my mind a question concerning the integrity of the County Officials in the matter. I tell this in order that the board may be circumspect in its investigation. The report may be baseless, but on the other hand, I consider it my duty to see that the school receives its due.

Information in this affair will be appreciated.

Yours truly,

C. H. Goddard
C. H. Goddard, Supt.

March 8, 1938

Dear Mr. Goddard: The Julius Rosenwald Fund contributed \$400 toward the building of the Negro school at Rosedale in 1927, but we have never helped to support it, nor to support any of the schools which were built with our aid. The report that this school receives help from us is therefore in error, but probably originated because of the fact that we did contribute toward the building of the school.

Our school building program, under which aid for building the Rosedale Negro school was given, was discontinued several years ago, and our present activities in education are concerned with content and methods of teaching, rather than with physical plant.

Very truly yours,

MARGARET S. SIMON
