Dear Dr. Bousfield:

This is to thank you for your kind letter of April 18th which I have taken as a thread of hope on which to hang our desire to see Dr. Mizell have the opportunity to further improve himself in surgery although I note that you have sent him an application without any commitment on your part.

I also appreciate what you were kind enough to say about my endeavors to help the colored physicians in Atlanta. Although my efforts in this direction have not amounted to very much in the past I hope that I may at sometime help these doctors to raise the standards of their profession in Atlanta.

Yours truly,

Kendall Weisiger
