

1939

FRANK J. WELCH

36

Chairman, Dept. of Economics
State College, Mississippi

Economics

Project concerns a vital problem
namely taxation in Mississippi
But what he is after primarily
in the Ph. D. degree

He is a bit over age
altogether in spite of excellent
letters of the Mississippi people
and good (but not widely
enthusiastic) letters from
American professors
I rate him just about

B+
