LEARNING PATHWAY FOR MEDICS

<https://www.safeprescriber.org>

SCRIPT Modules		Undergrad - Pre-Clinical	Undergrad - Clinical	Foundation Years 1/2 (if used SCRIPT at undergrad)	Foundation Years 1/2 (if not used SCRIPT before)
Category	Module title				
Medicine and Surgery Modules					
The Principles of Prescribing	Adherence		●		●
	Clinical Kinetics	●			●
	Dosing and Calculation	●			●
	Administration: An Overview for Prescribers		●		●
	Formulation: An Overview for Prescribers		●		●
	Clinical Pharmacology	●			●
	Prescribing and Therapeutics in Foundation Training		●		●
	Prescribing in Infection		●		●
	Prescription Documentation	●			●
	Taking a Safe and Effective Medication History	●			●
	Paediatric Pharmacokinetics		●		●
	Utilising the BNF©	●			●
Prescribing in Medical Emergencies	Cardiac Arrest		●		●
	Medical Emergencies in Diabetes		●		●
	Drug Allergy and Anaphylaxis		●		●
	Fluids: The Principles	●			●
	Fluids: Practical Prescribing for Adults		●		●
	Poisoning		●		●
	Sepsis in Hospital		●		●
Managing the Risks of Prescribing	Adverse Drug Reactions		●		●
	Drug Interactions		●		●
	Medication Errors	●			●
	Monitoring Medicines		●		●
	High-Risk Injectable Medicines		●		●
	High-Risk Oral Medicines		●		●
Prescribing in Special Circumstances	Dementia		●		●
	Paediatric Practical Prescribing		●		●
	Perioperative Prescribing		●		●
	Prescribing in Breastfeeding		●		●
	Prescribing in Hepatic Dysfunction		●		●
	Prescribing in Pregnancy		●		●
	Older People		●		●
	Prescribing in Renal Dysfunction		●		●

SCRIPT Modules		Undergrad - Pre-Clinical	Undergrad - Clinical	Foundation Years 1/2 (if used SCRIPT at undergrad)	Foundation Years 1/2 (if not used SCRIPT before)
Category	Module title				
Therapeutic Groups	Anticoagulation: Vitamin K Antagonists		●		●
	Anticoagulation: DOACs and Parenteral Anticoagulants		●		●
	Cardiac Arrhythmias		●		●
	Diabetes: Insulin Part 1		●		●
	Diabetes: Insulin Part 2		●		●
	Diabetes: Antihyperglycaemic Medicines		●		●
	Disorders of Psychosis		●		●
	Drugs of Misuse		●		●
	Epilepsy		●		●
	Heart Failure		●		●
	Infection in Secondary Care		●		●
	Introduction to Psychiatry		●		●
	Bipolar Affective Disorder		●		●
	Pain: Non-Opioids and Opioids		●		●
	Pain: Neuropathic and Complex Analgesia		●		●
	Depression, Anxiety & Insomnia: Psychiatric Symptom...		●		●
	Rapid Tranquillisation & Antipsychotics: Psychiatric Sym...		●		●
	Respiratory Medicine: Asthma and COPD		●		●
	Respiratory Medicine: Oxygen, Smoking Cessation and Inhalers		●		●
	Rheumatology		●		●
Clinical Governance	Dealing with Error				●
	Rational Drug Choice	●			●
Advanced Prescribing	Prescribing at the Interface and Team Prescribing			●	●
	Palliative and End-of-Life Care		●		●
	Managing Complications of Anticancer Therapy			●	●
Nursing Modules					
	Pregnancy and the Puerperium		●		●
Paediatric Modules					
General Paediatrics	Acutely Unwell Child			●	●
	Paediatric Emergencies			●	●
General Therapeutics	Dermatology		●		●

SCRIPT Modules		Undergrad - Pre-Clinical	Undergrad - Clinical	Foundation Years 1/2 (if used SCRIPT at undergrad)	Foundation Years 1/2 (if not used SCRIPT before)
Category	Module title				
GP Modules					
Prescribing in Medical Emergencies	Acute Coronary Syndrome and Cardiac Arrest		●		●
	Anaphylaxis		●		●
	Asthma & Croup		●		●
	Hypoglycaemia		●		●
	Meningococcal disease		●		●
	Seizures		●		●
	Sepsis in Primary Care		●		●
Therapeutic Groups	Medicines Use in Competitive Sport			●	●
	Antidepressant Deprescribing (Part 1): The Principles		●		●
	Antidepressant Deprescribing (Part 2): The Practicalities			●	●
Prescriber Ready					
Antidepressants		●			●
Antihyperglycaemics		●			●
Antiseizures		●			●
Antihypertensives		●			●
Diuretics		●			●
Drugs of Addiction and Misuse		●			●
Laxatives and Antidiarrhoeals		●			●
Opioids		●			●
Antibacterials		●			●
