

Commercial & Industrial Protection

Monumental power requires protection

For over 30 years, commercial and industrial property owners have trusted DITEK to preserve their facilities, electronics, and data from the negative impacts of power surges.

Safeguard industrial operations and protect productivity with DITEK's ZEUS™ Series.

Today's large-scale business operations are increasingly dependent on a complex network of sensitive electrical systems that are vital to daily business operations. Unpredictable surges and spikes can damage any kind of electrical cable system, hindering communication and productivity. DITEK's industrial-strength surge protectors shield against unexpected surges even in the most demanding environments. The ZEUS Series is available in a wide range of voltage configurations and equipped with long service life to ensure maximum protection of business production, communication and connectivity.

Protection solutions

D200M / D300M Series

SERVICE ENTRANCE SURGE PROTECTORS

Type 1 SPD | UL1449 | 200–300kA

- NEMA 4 enclosure
- Field-replaceable surge protection module
- Surge counter, audible alarm, advanced diagnostic LEDs/phase
- Dry contact terminal block for remote monitoring of protection status
- Available in 5 voltage configurations

D200MT / D300MT Series

SERVICE ENTRANCE SURGE PROTECTORS

Type 1 SPD | UL1449 | 200–300kA

- NEMA 4 enclosure, UL98 integral disconnect switch
- Field-replaceable surge protection module
- Surge counter, audible alarm, advanced diagnostic LEDs/phase
- Dry contact terminal block for remote monitoring of protection status
- Available in 5 voltage configurations

D200 Series

DISTRIBUTION PANEL SURGE PROTECTORS

Type 1 SPD | UL1449 | 200kA

- NEMA 4X weatherproof enclosure
- Advanced diagnostic LEDs indicate system power, SPD function and ground status
- Audible alarm and dry contacts for remote monitoring
- Available in 7 voltage configurations

D150X Series

DISTRIBUTION PANEL SURGE PROTECTORS

Type 1 SPD | UL1449 | 150kA

- NEMA 4X weatherproof enclosure
- Audible Alarm and Dry contacts for remote monitoring of surge protection status
- Diagnostic LEDs indicate system power and SPD function
- Available in 6 voltage configurations

D100 Series

BRANCH PANEL SURGE PROTECTORS

Type 1 SPD | UL1449 | 100kA

- NEMA 4X weatherproof enclosure
- 1/2" NPT flex conduit with 30-inch 10 AWG leads
- Diagnostic LED indicates system power and SPD function
- Available in 7 voltage configurations

D50 Series

BRANCH PANEL SURGE PROTECTORS

Type 1 SPD | UL1449 | 50kA

- NEMA 4X weatherproof enclosure
- 3/4" NPT hub with 30-inch 12 AWG leads
- Diagnostic LED indicates system power and SPD function
- Available in 8 voltage configurations
