

Honeywell Connected Life Safety Services

CLSS Enabled LTE TG7 Series Commercial Fire Alarm Communicator

This guide will help you with the steps that you need to configure all TG7 Series communicators with Honeywell's Connected Life Safety Services (CLSS).

Establish a CLSS account

To gain access to CLSS:

Download and open **Connected Life Safety Services App** in the Apple Store or Google Play Store. You can scan the below QR codes using your phone to quickly access them.

This QR code will guide your CLSS account setup process using a mobile device or PC.

Benefits of CLSS:

- Manage your communicators and customers using a common interface
- Manage inspection and compliance reports
- Perform inspections using Connected Life Safety Services Mobile app
- Cloud storage of compliance reports and extend access to your customers
- Create your customized in-app alerting in CLSS
- Bulk import all your Telguard communicators for easy management

If you already have a CLSS account, please register your communicator using the Telguard Portal: <https://portal.telguard.com/>

Scan the QR Code below for step-by-step instructions.

- 1 Register your Telguard communicator at <https://portal.telguard.com/>
 - 2 Import your communicator into CLSS
 - 3 Extend CLSS access to your customer/ Use test & Inspect features
- NEW** You can now perform a bulk import of your Telguard communicators. Import all, batches, or a select group of communicators for easy CLSS attachment.
