a Nice brand

GC TOUCH[™]

Security & Control Panel

Security and Control Panel

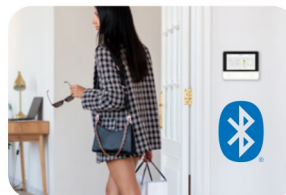

Built on the legacy of the groundbreaking GC2e security panel, the 2GIG GC Touch sets a new benchmark for simplicity in setup, ease of use, and performance – at a value oriented price point.

Customers will love the sleek new panel design, 7-inch touchscreen, intuitive and modern user interface, and dark mode option. 800 series Z-wave enables smart home automation for lights, locks, thermostats, garage doors, and more. The GC Touch is also optimized for Alarm.com Scenes.

GC Touch set up is more streamlined than ever and works with all 2GIG 345Mhz and compatible security sensors.

Modern Panel Design

The GC Touch is easy to use with updated design, large 7" screen, and intuitive UI.

Bluetooth Disarm

Streamlined system disarming without entering pin codes.

Live Video

See who is at the door or view surveillance cameras in real time.

2GIG products are known for quality and field-proven reliability with more than 5 million security panels and 25 million devices deployed that boast a less than 0.03 percent failure rate – the best in the industry.
