

PERSONAL SAFETY & WELLNESS IN ONE MOBILE SOLUTION

As the pioneer of the mPERS industry, Numera® redefines the category once again with Libris Aura, an all-in-one mobile solution for health, wellness, and personal safety. Designed for superior performance and user experience, Libris Aura features best-in-class capabilities, including enhanced fall detection, extended battery life, and intuitive usability - all in a sleek, lightweight form.

Fall Detection

Numera® offers the most advanced fall detection technology on the market. Powered by multiple onboard sensors and a cloud-based learning algorithm that improves over time. With Libris Aura, we've added a barometric sensor to detect changes in vertical movement, further enhancing accuracy. This upgrade dramatically reduces false alarms and strengthens our already best-in-class fall detection system.

Compact design/ improved wearability

Libris Aura features an intuitive, dual-wear design that allows for both lanyard and belt use, without increasing device length or compromising its sleek, back-facing design.

Extended battery life

Libris Aura uses a Bluetooth beacon in the charging station to detect when users are home, enabling a low-power mode that extends battery life to up to 3 days without compromising caregiver peace of mind.

Improved ease of use

Libris Aura improves ease of use by removing confusing signal indicators and introducing a discreet power button, clearly separating power and call functions for a simpler, worry-free user experience.

Designed to Fit Your Lifestyle

Whether you're an active senior, someone working alone or in a vulnerable environment, Libris Aura mPERS provides peace of mind for you and your loved ones.

Most Advanced Fall Detection

Libris Aura™ detects falls via multiple sensors and automatically calls your response team if it senses you have fallen. Over 90% of Libris Aura mPERS users utilize fall detection.

Full Line of Accessories

Libris Aura mPERS features a full line of accessories that help track your health at home or on the go.

More than Mobile PERS

Libris Aura mPERS is paired with the EverThere® cloud platform, a web based portal for Libris Aura mPERS, with location services, family and caregiver social features, online device settings, and customized notifications.
