

Extended Depth Racks & Enclosures

EXTENDED
DEPTH
24"

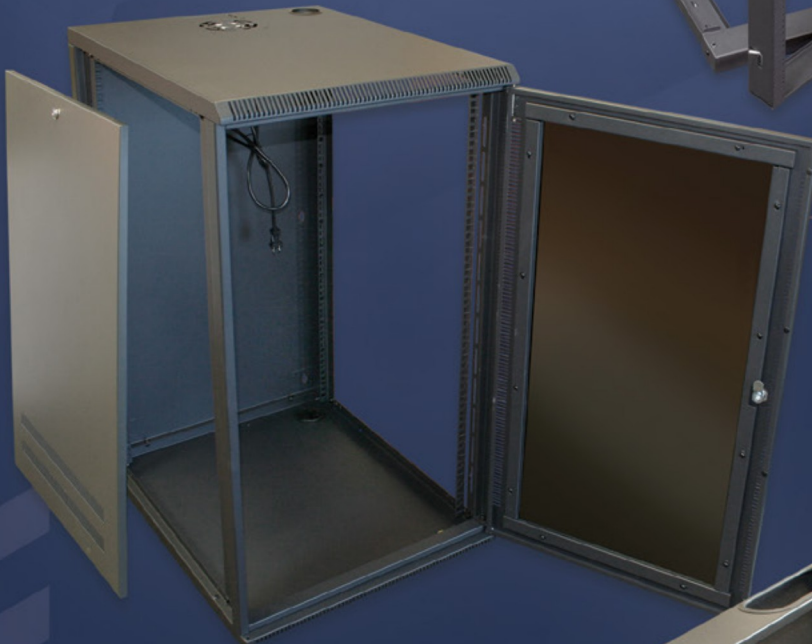

SR
SERIES

These 2-Post Swing-Out Wall Mount Racks offer a hinged design for convenience and easy access to the equipment mounted on the racks. They are constructed of quality steel and are tapped for #12-24 mounting screws. They have a clean professional looking black microfinish and are available with an overall depth of 24".

200
SERIES

Our 200 Series Wall Mount Enclosures provide equipment access through the smoked acrylic reversible front door, as well as through the removable vented side panels. They include four adjustable mounting rails, one pre-installed 80 CFM fan for ventilation, and also comes complete with both front and rear cage nut rails. They have a clean black microfinish and feature usable working depth of 24".

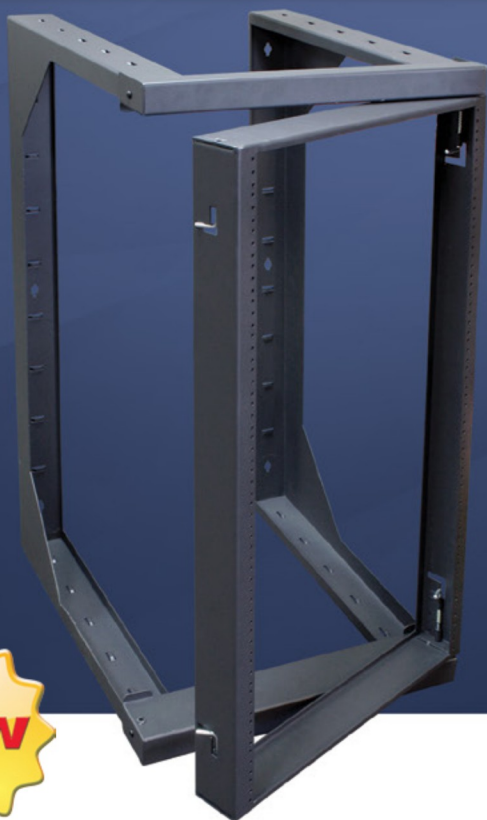

300
SERIES

The 300 Series Wall Mount Enclosures are our best selling wall mount enclosures. Not only do they provide access to equipment through its smoked acrylic reversible front door like the 200 Series, but it also grants accessibility through its rear locking swing-out door. They include four adjustable mounting rails, one pre-installed 80 CFM fan for ventilation, and cage nuts, screws, and washers. They have a clean black microfinish and feature usable working depth of 24".
