

FLYSENSE®

A device that utilizes a number of sensors with proprietary technology to detect minute particles of smoke and vape, in addition to using sound sensors for identifying potential bullying situations.

DETECT & DETER

Alert designated school officials when vaping, elevated sound or device tampering is detected via email or text. FlySense® works hand in hand with you to help deter vaping.

REAL TIME DATA

Real-time sensor data and analytical reports help to determine which locations and time of day experience the most activity.

SOLUTION MANAGEMENT

Easy-to-use administrator web portal to manage devices, customize subscriber schedules and view alerts.

FLYSENSE® FEATURES

- Provide technology tools that detect and deter vaping and bullying without invading privacy.
- Offer authorities increased situational awareness of potentially harmful situations.
- Measure air quality in regards to detection of vaping with the world's first vape detector.
- Utilize a combination of superior sensor and software technology solutions to instantly identify environmental and social anomalies across a wide range of situations.
- Take a holistic approach to safety and security.
- Make the world a safer place - from schools to enterprises to public spaces.

SOTER TECHNOLOGIES

Our mission is to develop and deliver innovative solutions for environmental and social intelligence. We are tackling vaping and bullying in schools with our FlySense® real-time vaping and elevated sound incident detection solution.

SPECIFICATIONS

ENVIRONMENT	
Operating Temp.	55° to 95°F (12.8° to 35°C)
Coverage Area	10' x 10' x 10'

SENSORS	
Vape	Temp.
Sound	Humidity
Proximity	

EVENT INDICATORS	
RGB LED Alert Indicator	

INPUT POWER	
Built-in 802.3af compliant PoE (over Cat 5e or 6 cable)	
External power via 24V 0.5A AC/DC transformer with 5.5mm x 2.1mm DC connector	

WARRANTY	
10-year limited hardware warranty covers defects in workmanship and materials	

CONNECTIVITY	
Ethernet data connectivity via built-in RJ-45 connector and 802.3af interface	
802.11b/g/n/ac Wi-Fi supporting 2.4/5 GHz frequency band	

PHYSICAL CHARACTERISTICS	
Dimensions	4.75" W x 6.56" L x 2.20" H
Weight	9.0 oz.
Housing Material	ABS Plastic
