

WALK THROUGH METAL DETECTOR WMD433

33-zones standard

FEATURES

- Program modes for either 1-zone, 6-zone, 11-zone or 33-zone detection
- Detects up to thirty three (33) over-lapping zones.
- Simple installation & operation. Optional casters ensures easy mobility.
- Sensitivity for each zone is adjustable in increments 0-300
- 7 inch (178 mm) LCD screen
- Infrared remote control
- Supports TCP/IP (and optional Wi-Fi) communication
- Sound & LED alarms located on both sides clearly indicate precisely where metal is detected.
- Automatically counts people and alarms
- Distinguishes between dangerous metal objects from harmless objects including wristwatch, belts and coins
- Secure operation. Only authorized personnel can access the control panel.
- Easy assembly: Ships with only 2 pieces, cables and 8 screws. Simple to follow instructions.
- No need for manual calibration. Unit runs self-diagnostics and re-calibrates with each power-on
- Completely safe to operate and walk through. Harmless to heart pacemaker, pregnant women, magnetic storage media, etc.
- Durable fire-retardant construction
- Modular design makes parts replacement and maintenance simple and easy.
- 4-8 hours backup battery (optional)

Optional casters ensures easy mobility

SPECIFICATIONS

Power Supply	100-240V
