

The following is a list of SiteLock's trademarks.

When using these trademarks in publications that will be distributed only within the United States, include the appropriate TM, SM, or ® symbol. For publications distributed outside the United States, use an appropriate trademark attribution notice, for example: SecureSite is a trademark of SiteLock, LLC, registered in the U.S.

SiteLock's trademarks should always be used as adjectives that are followed by the generic term they modify. For all publications, include an appropriate generic term after the trademark the first time it appears. For example, our SecureSite™ service provides website security solutions. Thereafter, the generic term should appear frequently with the trademark.
