

# AWS District 12 Meeting Tour of: **Broadwind** April 22, 2022

Broadwind provides cutting, welding, fabricating, machining, coating, and final assembly services to a wide range of heavy industrial and energy producing segments. Broadwind serves its customers from three divisions and five locations. The facility in Manitowoc consists of 325,000 square feet of indoor production area and 30 acres of outdoor storage space. The Manitowoc facility specializes in the production of wind towers and heavy steel fabrications for mining, pressure vessel, marine, and heavy-lifting industries. In 2021 Broadwind’s Manitowoc facility won the Wisconsin Manufacturers and Commerce award for “Coolest Thing Made in Wisconsin” for their production of a 140-Ton, rail mounted Naval crane.

*During dinner there will be a 50/50 raffle to raise money for the scholarship fund.*
