MONDAY, JUNE 18, . Anniversary of the Philokalian Society.
TUESDAY, JUNE 19, . Anniversary of the Philomathean Society.
WEDNESDAY, JUNE 20, } Commencement Day.
" " " " " } Address before the Alumni.

ORGANIZATION

The charter of St. John's College was granted in 1784, and the institution opened in 1789. But under another form and name it had been doing its work during nearly a hundred previous years, and is, therefore, one of the oldest Colleges in the country. At the City of St. Mary's, then the capital of Maryland, as early as 1671, the Upper House of the General Assembly passed an Act "for founding and erecting a school or college for the education of youth in learning and virtue." This was followed by the Act of 1696, establishing KING WILLIAM'S SCHOOL, which was opened 1701. Here were educated some of the most distinguished sons of Maryland--physicians, lawyers, statesmen, clergymen--and pre-eminent among the brilliant number was William Pinkney, whose learning and eloquence have a national fame. KING WILLIAM'S SCHOOL was, in 1784, merged into St. John's College, which has thus been connected with the State of Maryland from the early times of colonial history. Francis Scott Key, author of our favorite national ode, and Reverdy Johnson, distinguished as a lawyer and a statesman, are among the alumni, and many others, scarcely less eminent, could be mentioned.

LOCATION AND ACCESS.

The College is pleasantly situated at Annapolis, on the banks of the Severn River, a few miles from the Chesapeake Bay. Nothing in the country surpasses the picturesque beauty of its situation. The college green is spacious, amply shaded, and most attractive to the eye, while the campus, in the rear, is admirably adapted for sports. Bordering the grounds, "College Creek," a branch of the Severn, affords every facility for swimming and boating. Indeed, the situation combines every advantage desirable for a college. The buildings are large, commodious, and well adapted for purposes of both classical and technical education and could accommodate two hundred students.

Annapolis has railroad communication with Baltimore and Washington, several times a day, daily steamboat connection with the former city, and telegraphic connection with every part of the country.

BIRD'S EYE VIEW OF ST. JOHN'S COLLEGE, ANNAPOLIS.

BOARD OF VISITORS AND GOVERNORS.

President.

(Ex-Officio.)

HIS EXCELLENCY, FRANK BROWN,
The Governor of Maryland,
Annapolis, Md., 1892.

(Under the Charter elected annually,)

FRANK H. STOCKETT,
Annapolis, Md., 1848.

Secretary.

HON. NICHOLAS BREWER,
Annapolis, Md., 1857.

(Ex-Officio.)

HON. EDWARD LLOYD,
President of the Senate,
Easton, Md.

(Ex-Officio.)

HON. JAMES McSHERRY,
Judge Court of Appeals,
Frederick, Md.

HON. MURRAY VANDIVER,
Speaker of the House of Delegates,
Havre de Grace, Md.

HON. JOHN P. BRISCOE,
Judge Court of Appeals,
Prince Frederick, Md.

HON. J. M. ROBINSON,
Chief Judge Court of Appeals,
Centreville, Md.

HON. HENRY PAGE,
Judge Court of Appeals,
Princess Anne, Md.

HON. W. SHEPARD BRYAN,
Judge Court of Appeals,
Baltimore, Md.

HON. CHARLES B. ROBERTS,
Judge Court of Appeals,
Westminster, Md.

HON. DAVID FOWLER,
Judge Court of Appeals,
Towson, Md.

HON. A. HUNTER BOYD,
Judge Court of Appeals,
Cumberland, Md.

BOARD OF VISITORS AND GOVERNORS

[CONTINUED.]

JAMES MACKUBIN,
Ellicott City, Md., 1852.

HON. J. WIRT RANDALL,
Annapolis, Md., 1882.

THE FACULTY

THOMAS FELL, A. M., Ph. D., LL. D.,
PRESIDENT.

PROFESSOR OF MORAL SCIENCE AND ANCIENT LANGUAGES.

JAMES W. CAIN, A. B.,
[Graduate of Yale University.]

PROFESSOR OF POLITICAL AND SOCIAL SCIENCE.

JOHN L. CHEW, A. M.,
[Graduate of St. John's College.]

PROFESSOR OF MATHEMATICS.

ROBERT H. NOBLE, LL. B., First Lieut. U. S. Army,
[Graduate of University of Maryland.]

PROFESSOR OF MILITARY SCIENCE AND TACTICS AND LECTURER ON
INTERNATIONAL AND CONSTITUTIONAL LAW.

CHARLES E. COATES, B. A., Ph. D.,
[Graduate of Johns Hopkins University.]

PROFESSOR OF NATURAL SCIENCES.

JOHN D. EPES, B. A.,
[Graduate of Randolph Macon College.]

PROFESSOR OF ENGLISH AND ENGLISH LITERATURE.

HENRI MARION,
PROFESSOR OF MODERN LANGUAGES.

GEORGE RIPLEY PINKHAM, A. M.,
[Graduate of Brown University.]

ASSISTANT PROFESSOR OF GREEK.

EDWIN D. PUSEY, A. M.,
[Graduate of St. John's College]

ASSISTANT PROFESSOR OF LATIN AND GERMAN.

REV. W. S. T. DEAVOR, Ph. D.,
[Graduate of Allegheny College.]

ASSISTANT PROFESSOR OF MATHEMATICS.

THE FACULTY—Continued.

N. D. SOLLERS,
[Graduate of Manual Training School.]

INSTRUCTOR IN DRAWING AND MECHANICAL ENGINEERING.

FRED. WILLING, A. M.,
[Graduate of Hobart College.]

SPECIAL INSTRUCTOR IN CHARGE OF CANDIDATES FOR THE
U. S. NAVAL ACADEMY.

FRANCIS E. DANIELS, A. M.,
[Graduate of St. John's College.]

ASSISTANT IN THE CHEMICAL LABORATORY.

CHARLES T. WHITTIER, B. A.,
[Graduate of Williams College.]
LIBRARIAN.

P. P. EASTERDAY,
SECRETARY FOR THE PRESIDENT.

Collegiate Department.

 W. Z. CHILDS, CYRUS N. JOYCE,
 C. M. CHESTER, WALTER SHAEFER,
 W. G. DuBOSE, GUSTAV S. FRIEBUS.

GENERAL INFORMATION.

General Regulations.

—:o:—

A copy of the general rules of the College can be obtained upon application at the President's office.

All students are required to be present promptly on the opening day of the session, and no student will be permitted to leave the College while the College exercises are progressing, except in cases of urgent necessity, and at the written request of his parent or guardian.

Each member of the Senior, Junior and Sophomore classes is allowed, in each term, as many absences from recitation in any study pursued by him in the class of which he is a member, as there are prescribed recitations per week in that study; and for each absence above the number thus allowed, he will be given zero as a recitation mark.

Each student of the Freshman Class is allowed in each term three absences from recitation, in each study in which five recitations per week are prescribed; two absences in each study in which three recitations are prescribed; and one absence in each study in which two recitations are prescribed.

Excepting these cuts he will be marked zero for each and every absence whatever from recitations, and shall also receive 10 demerits if the excuse for the absence is not satisfactory. In his case all absences owing to prolonged illness may be considered by the Faculty, upon the recommendation of the President, or upon the certificate of a recognized physician.

COURSES OF STUDY.

The Collegiate Department embraces four groups of studies for undergraduates, each occupying four years, viz:

1. The Classical and the Latin-Scientific, which both lead to the degree of Bachelor of Arts. 2. The Scientific and Mechanical Engineering course, which lead to the degree of Bachelor of Science. The scheme of study in the different groups, arranged for the sake of comparison, in parallel columns, will be found on pages 27 and 28. In order to obtain one of the above-mentioned degrees, a student must have completed satisfactorily the course as herein laid down, but for such as may not be studying for a degree, select courses will be arranged according to the option of the parents or guardians, subject to the approval of the Faculty. On the successful completion of such special courses, certificates will be given.

Post-graduate courses are arranged for those graduates who wish to become candidates for the Master's Degree.

REMARKS ON COURSES.

It is to be seen that in the classical course, the study of Mathematics is discontinued after the first term of the Junior year, at which point the study of the sciences begins. The classical student will thus devote some time to scientific study, the particular branches being elective. Also, the student of the Latin Scientific Course, taking no Greek at all, and discontinuing Mathematics at the end of the Junior year, enjoys a fuller course of English, and begins the study of science earlier than the classical student. In the Scientific and Mechanical Engineering Course, in which neither Latin nor Greek is required, (except the Latin required for admission,) four years are given to Zoology, Botany, Physics, Chemistry, and to Mathematics. Also, in the Scientific Course, four years are given to the study of English. A full course in both French and German is required for every degree.

No student will be permitted to discontinue any study, except at the close of the term, and then only at the *written* request of his parent or guardian.

Students pursuing a select course may enter any class for which they are fitted, the number of their studies being subject to the direction of the Faculty

TIMES AND TERMS OF ADMISSION.

The regular examinations for admission into the College or the Preparatory Department are held on the second Thursday in June, also on the third Wednesday and following Thursday of September of each year, and candidates for admission are requested to be present, if possible, on those days. Testimonials of good moral character must be furnished by each applicant, those of former teachers being preferred, and, if from another college, he must present a certificate of honorable discharge.

Candidates for the degree of Bachelor of Arts, to obtain admission to the Freshman Class, must, unless they have passed through the regular course in the Preparatory Department, sustain an examination in the following studies:

English Grammar and Composition, (including Punctuation); U. S. History; History of England; Geography; Physical Geography; Physiology; Arithmetic, Algebra through Quadratic Equations, especially Factoring and Fractions; Hadley's, Goodwin's, or Kuhner's Greek Grammar; Xenophon's Anabasis, (one book); Harkness', Gildersleeve's, or Allen and Greenough's Latin Grammar, Caesar's Commentaries, (four books); Ovid, (fifteen hundred lines); Virgil, (two books of the *Aeneid*); Latin and Greek Composition.

Candidates for the degree of Bachelor of Science must pass the same examination, except in Greek, for which they may substitute elements of Physical Science.

Candidates for admission to any higher class must be examined in all previous studies of the class they enter.

The course of study in the Classics and Mathematics in the Preparatory and lower Collegiate classes has been arranged in accordance with the requirements of the examination for matriculation in the Johns Hopkins University.

A student who may have advanced through the Sophomore Class is entitled to matriculate at Johns Hopkins University without undergoing any examination. He is also permitted to enter the second year's course at the University if he can pass satisfactorily a test examination.

TERMS AND VACATIONS.

The Annual Commencement of the College takes place on the third Wednesday in June.

The collegiate year begins on the third Wednesday in September and ends on the third Wednesday in June. The year is divided into two equal terms.

The regular vacations extend from the third Wednesday in June to the third Wednesday in September, and from the 23rd of December to the first Monday in January, both inclusive. The 22nd of February, Good Friday, Easter Monday and Decoration Day are holidays, as is also the day of Public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States.

DEGREES.

The following academic degrees are conferred by the College:

1. The degree of *Bachelor of Arts*, conferred after the satisfactory completion of the Classical course.

2. The degree of *Bachelor of Arts*, conferred in like manner upon graduates in the Latin Scientific course.

3. The degree of *Bachelor of Science*, upon graduates in the Scientific course and upon graduates in the course of Mechanical Engineering.

4. The degree of *Master of Arts*, conferred after the completion of the Post-Graduate course, and upon the recommendation of the Faculty.

Candidates for this degree are required to select at least two of the departments of study specified in this catalogue, and under the direction of the professors of these departments to pursue their studies for the two years of the Post-Graduate course, submitting to them such essays, or undergoing such oral or written examination, as may be required to test their qualifications for this degree.

Any graduate of the College who shall have been admitted a member of one of the learned professions, or who shall have obtained a diploma from any Law, Medical, Theological or Scientific School, shall be entitled to the Master's degree, three years after his graduation. The degree of Master is not conferred *in course*, but only on evidence of proficiency in advanced studies, as above indicated.

HONORS.

First and second honors on Graduation day are given to those students respectively, who shall have obtained the highest and next highest average mark in all studies from the beginning of the Sophomore year.

REGULATIONS FOR ACADEMICAL COSTUMES.

All candidates for degrees are required to wear, on Commencement Day, a black silk or stuff gown of the shape and pattern adopted by the Board of Visitors, also an academical cap of the usual pattern.

Graduates are also entitled to wear hoods of the following description:

B. A.—A hood of black stuff, lined with black silk, edged on the inside with a narrow border of orange silk.

B. Sc.—A hood, as above, edged on the inside with cardinal silk.

B. L.—A hood, as above, edged on the inside with pale yellow silk.

M. A.—A hood of black silk with a full lining of orange or cardinal silk.

PH. D.—A hood of scarlet cloth with a full lining of pale yellow silk.

LL. D.—A hood of scarlet cloth with a full lining of cardinal silk.

D. D.—A hood of scarlet cloth with a full lining of white silk.

LITERARY SOCIETIES.

There are two Literary Societies (the Philokalian and the Philomathean) among the students, which afford opportunities for the cultivation of composition and debate. An oration is usually delivered before the societies, upon the Monday and Tuesday preceding Commencement Day, by some gentleman selected by them.

PUBLIC WORSHIP AND RELIGIOUS INSTRUCTION.

The exercises of each day are opened with the reading of the Scriptures and prayer in the College Hall.

During the period of a student's residence at College every op-

INTERIOR OF COLLEGE CHAPEL.

portunity will be afforded for the fullest development of the Christian character. The study of Christian Evidences is assigned an important part in the College curriculum. All students are required to attend public worship on Sundays, and at other times, at such church as their parents may direct. Arrangements have been made by the College authorities with the clergy of the several denominations of Annapolis, by which students may enjoy the advantages of special instruction in the tenets of their respective churches.

The Principal holds a Bible Class every Sunday morning in the College Chapel from 9.45 to 10.30 a. m., to which all students of whatever denomination are invited.

THE COLLEGE YOUNG MEN'S CHRISTIAN ASSOCIATION.

This organization is strongly represented. A large majority of the students of the College take an active interest in promoting the objects of the Association, and it is generally recognized as contributing in many ways to the welfare and safety of young men freed from parental restraint. A comfortable suite of rooms is provided in the College buildings for the use of the Association as a place of meeting for religious purposes and as a reading room.

EXAMINATIONS.

—:o:—

Written examinations on the studies of the entire term are held at the close of each term. The marks of these examinations are combined with the marks for daily recitations, to make up the student's standing for the term. Any student, whose examinations at the close of a year shall evince an incapacity on his part to pursue with advantage the studies of the class to which he belongs, will have offered to him on the first day of the next year, an opportunity to retrieve his lost position, and in default of doing so, will be reduced to a lower class.

A student deficient in knowledge, or persistently neglectful of any study, is at any time liable to be reduced to a lower class in that study.

No special examination is granted except upon a physician's certificate of sickness on the day of examination, or other cause which the Faculty may accept as adequate ground.

MERIT ROLL.

A merit roll is kept, and each recitation is noted on the grade of from 0 to 5. In order to pass from a lower to a higher class in any study, each student must obtain an average of 3.0 on the recitations and on the examinations of the whole session. This average is arrived at by taking twice the recitation mark, adding thereto the examination mark and dividing the same by 3.

$$\left[\text{Formula, } \frac{2R+E}{3} = \text{average.} \right]$$

provided also, that the examination mark in that study be not less than 2.75. In all examinations granted under special conditions, a mark of 3.25 is required as a satisfactory or passing mark.

Demerits will be given for absences not excused, and for violations of college regulations. Reports respecting conduct and scholarship will be sent every month to the parents or guardians of students. Whenever any student of the Collegiate Department has 100 demerits for any term, or 150 for the year, he must leave the institution.

Certificates of Distinction of the First and Second Grade are presented to those students in any class who shall have obtained an average of 4.5 and of 4, respectively, in all their studies, and shall have been satisfactory in conduct for the academic year.

Students who have obtained an average of 4.5 in any one branch of study are honorably mentioned; but no student is honorably mentioned, nor is any certificate or degree conferred upon any student who has failed to receive the passing mark (3) in any study for the academic year.

Course of Instruction

FOR

* COLLEGIATE * CLASSES. *

FRESHMAN CLASS.

FIRST TERM.

Hours per week.

5	GREEK.—Xenophon's Anabasis, two books; Memorabilia
5	LATIN.—Virgil's Aeneid, continued; Cicero's Select Oration; Roman Antiquities and Mythology, Latin Prose Composition.
5	MATHEMATICS.—ALGEBRA.—Quadratic Equations, Theory of Exponents, Radical Expressions, Theory and practice of Logarithms; Wentworth's Complete Algebra and Plane Geometry.
2	HISTORY.—Grecian History, [Smith's Smaller History of Greece.]
3	ENGLISH.—Lockwood's Lessons in English; Swinton's Studies in English Literature; Compositions.
5	SCIENCE.—Biology; Maginley's.
3	FRENCH.—Bocher's French Grammar, Oral and Written Exercises.
	{ SHOP WORK. General care of boilers and engines; Bench work for filing and chipping; Blacksmith's shop for welding, boiler making, and general work; Lathe work and drilling for both iron and wood work.
5	{ MECHANICAL DRAWING. Including Architectural and Machine.

SECOND TERM.

5	GREEK.—Homer, Iliad; Greek Grammar and Composition.
5	LATIN.—Livy, Odes of Horace, Latin Composition.
5	MATHEMATICS.—Plane and Solid Geometry, Wentworth.
2	HISTORY.—Roman History, [Smith's Smaller History of Rome.]
3	ENGLISH.—Swinton's Studies in English Literature; Richardson's Primer of American Literature; Composition.
5	SCIENCE.—Botany, [Gray's new Lessons and Manual.]
3	FRENCH GRAMMAR.—Keetel's French Reader; Exercises in Accidence, Verbs and Syntax.
	{ SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Blacksmith shop for welding, boiler making, and general work; Lathe work and drilling for both iron and wood work.
5	{ MECHANICAL DRAWING.—Including Architectural and Machine.

SOPHOMORE CLASS.

FIRST TERM.

Hours per week.

- 4 GREEK.—Homer, *Odyssey*; Reading at sight.
- 4 LATIN.—Horace's *Epodes* and *Satires*, Cicero (*De Senectute*), Latin Prose Composition.
- 4 MATHEMATICS.—Wentworth's *Plane and Spherical Trigonometry*, with Practical Examples in *Surveying and Navigation*.
- 2 HISTORY.—Myers' *Ancient History*.
- 3 ENGLISH.—Genung's *Rhetoric*; Macaulay's *Essays* on Milton and Addison; Original Essays; Saintbury's *Elizabethan Literature*, (parallel reading)
- 5 SCIENCE.—Ganot's *Physics*, (Atkinson's Edition); *Mechanics*, *Hydrostatics*, *Hydrodynamics*, *Pneumatics* and *Sound*.
- 3 FRENCH GRAMMAR AND EXERCISES.—Keetel's *French Reader*, *Conversational Exercises*.
- 3 GERMAN.—Wenckebach's *Deutsche Grammatik*; Bernhardt's *Sprachbuch*.
- 5 { SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Blacksmith shop for welding, boiler making and general work. Lathe work and drilling for both iron and wood work.
- MECHANICAL DRAWING.—Including *Architectural and Machine*.

SECOND TERM.

- 4 GREEK.—Herodotus; Thucydides; Reading at sight.
- 4 LATIN.—Horace's *Epistles*, Terence, Cicero, (*De Officiis*); Latin Composition.
- 4 MATHEMATICS.—Todhunter's *Analytical Geometry*.
- 3 HISTORY.—Myers' *Mediaeval and Modern History*.
- 3 ENGLISH.—Gosse's *Eighteenth Century Literature*, (parallel reading); Sweet's *Primer of Anglo-Saxon*; Original Essays.
- 5 SCIENCE.—Ganot's *Physics*, (Atkinson's Edition); *Heat and Light*.
- 3 FRENCH.—Grammar; French Plays, (D. C. Heath & Co.); Original Compositions.
- 3 GERMAN.—Grimm's *Hausmärchen*; Whitney's *Grammar*.
- 5 { SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Blacksmith shop for welding, boiler making and general work; Lathe work and drilling for both iron and wood work.
- MECHANICAL DRAWING.—Including *Architectural and Machine*.

JUNIOR CLASS.

FIRST TERM.

Hours per week.

- 4 GREEK.—Plato's *Apology*; *Crito*; Greek Plays of Sophocles; Reading at sight; Lectures on Greek Literature.
- 3 LATIN.—Tacitus (*Germania* and *Agricola*); Catullus; Latin Composition.
- 4 MATHEMATICS.—Rice and Johnson's *Differential Calculus*; *Curve Tracing*.
- 2 ENGLISH.—Chaucer's *Prologue* and the *Knight's Tale*; Lessons in *Historical English Grammar* by Morris; Original Essays.
- 3 POLITICAL ECONOMY.—Walker's *Pol. Economy*, Lectures.
- 4 SCIENCE.—Ganot's *Physics* (Atkinson's Edition), *Electricity*.
- 2 FRENCH.—Standard Authors, *Classic Poets*, Original Composition.
- 3 GERMAN.—Bernhart's *Im Zwielficht*; Lectures on German Literature and History.
- 5 { SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Blacksmith shop for welding, boiler making and general work. Lathe work and drilling for both iron and wood work.
- DRAWING.—Mechanical; Linear Perspective; Isometrical and Free Hand.
- 1 ELOCUTION AND DECLAMATION.

SECOND TERM.

- 4 GREEK.—Greek Plays of Euripides, Sophocles; *Philippics* of Demosthenes; Reading at sight; Lectures on Greek Literature and Greek Art.
- 3 LATIN.—Plautus (*Captivi*); Tacitus (*Histories*); Composition.
- 2 ENGLISH.—Skeat's *Specimens of Early English Literature*; Ten Brink's *History of Early English Literature*, Vol. II; Original Essays.
- 3 LOGIC.—Jevon's-Hill; Lectures.
- 3 MATHEMATICS.—Johnson's *Integral Calculus*.
- 4 SCIENCE.—Chemistry, (Remsen's *Briefer Course*.)
- 2 FRENCH.—Racine's *Athalie*; Moliere's *Le Bourgeois Gentilhomme*; Original Compositions and Conversational Exercises; Lectures.
- 3 GERMAN.—William Tell; Lectures on German Literature; Baumbach's *Erzahlungen*.
- 5 { SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Blacksmith shop for welding, boiler making and general work. Lathe work and drilling for both iron and wood work.
- DRAWING.—Mechanical. Linear Perspective, Isometrical and Free Hand.
- 1 ELOCUTION AND DECLAMATION.

SENIOR CLASS.

FIRST TERM.

Hours per week.

3	GREEK.—Aeschylus, Prometheus Vinctus.
3	LATIN.—Tacitus (Annals); Juvenal; Composition.
3	MATHEMATICS.—Todhunter's Mechanics.
2	ENGLISH.—Cook's Siever's Grammar of Old English; Harrison and Sharp's Beowulf; Ten Brink's History of Early English Literature, Vol. I.
2	LAW.—International Law.
3	CHRISTIAN ETHICS.—Psychology; Lectures.
10	SCIENCE.—Chemistry; (Stoddard's Qualitative Analysis); Reactions and Analysis of known material.
3	GERMAN.—Nathan der Weise; Lectures on German Literature; History.
3	SHOP WORK.—Lectures from "Rankine's Steam Engine" "Wilson on Boilers." Strength of materials and Mechanical Instruction of Goodeve.
2	DRAWING.—Lectures; Designing Machinery.
2	MILITARY SCIENCE AND TACTICS.—Lectures.
1	ELOCUTION AND DECLAMATION.

SECOND TERM.

3	GREEK.—Aeschylus, Euripides.
3	LATIN.—Persius; Quintilian; Lucretius; Latin Composition.
3	MATHEMATICS.—Todhunter's Mechanics.
3	ENGLISH.—Cook's Siever's Grammar of Old English; Kent's Elene, or Baskervill's Andreas; Ten Brink's Early English Literature, Vol. I.
2	LAW.—Constitutional Law.
3	EVIDENCES OF CHRISTIANITY.—Lectures on Evidences of Christianity; Fisher's Grounds of Theistic Belief.
10	SCIENCE.—Chemistry; (Stoddard's Qualitative Analysis); Analysis of unknown material; Metals; Lectures on Organic Chemistry.
3	ASTRONOMY.—Young's General Astronomy.
3	GERMAN.—Faust, 1st Part; Lectures on German Literature; History.
3	SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Blacksmith shop for welding, boiler making and general work. Lathe work and drilling for both iron and wood work.
2	DRAWING.—Lectures; Designing Machinery.
2	MILITARY SCIENCE AND TACTICS.—Lectures.
1	ELOCUTION AND DECLAMATION.

Departments.

- The course of instruction embraces the following departments:
- I. *Mental, and Moral Science.*—Including Metaphysics, Ethics, Natural and Revealed Religion and the Evidences of Christianity.
 - II. *Political and Social Science.*—Including Logic, Political Economy, Currency, Finance and Banking.
 - III. *Ancient Languages.*—Including the Greek and Latin Languages, Antiquities and Mythology, and the History of Greek and Roman Literature.
 - IV. *Modern Languages.*—Including the French and German Languages and Literature.
 - V. *Mathematics.*—Including pure Mathematics, Mechanics, and Astronomy.
 - VI. *Natural Science.*—Including Zoology, Botany, Physics and Chemistry.
 - VII. *History and English.*—Including Ancient, Mediæval and Modern History, English Composition, Rhetoric, the English Language and Literature.
 - VIII. *Mechanical Engineering and Field Surveying.*
 - IX. *International and Constitutional Law.*
 - X. *Elocution and Declamation.*
 - XI. *Military Science and Tactics.*

DEPARTMENT OF MENTAL AND MORAL SCIENCE.

Christian Evidences.—A course of study on Theism, Christian Evidences, and the religions of the world extends through the second term of the Senior year.

Ethics.—The study of ethics, which extends through the first term, embraces the study of psychology, also the consideration of pure morality and positive authority, the latter including civil government, with the doctrine of the State, divine government and family government.

DEPARTMENT OF POLITICAL AND SOCIAL SCIENCE.

Logic.—Jevon's-Hill's text book is used. Special care is taken to enforce a practical application of logical formulas in the resolution of arguments, and the detection of sophistries. To this end illustrative examples are drawn from different authors and much oral instruction is given.

Political Economy.—In the prescribed work of the Junior Year, instruction is given in Political Economy by means of text books, lectures and conversational discussions. The student is required to be familiar with the leading principles of this subject as presented by the author whose work is used as a text book, and is then encouraged to study economical problems of the present time from the historical, and, so far as may be, absolutely impartial standpoint.

A student who has completed the prescribed course in Junior Year may elect the Advanced Political Economy. The first term is taken up mainly with a study of the laws of the United States, relative to Currency, Finance and Banking. During the second term a brief time is devoted to the study of the English and Continental banking system, the remainder being given up to the discussion of the social and economic problems of the day. The aim throughout the entire course is to encourage, as much as possible, original investigations on the part of the student.

DEPARTMENT OF ANCIENT LANGUAGES.

Latin.—The study of Latin extends throughout the classical and Latin Scientific courses.

In the work of the Freshman year special attention is given to the structure of the Latin sentence, as illustrated in select portions of the writings of Cicero, Livy and Horace, and as unfolded through frequent written and oral exercises in Latin prose composition. But the chief object of the course is the study of Latin literature, through a critical reading of selections from the most important authors in historical succession, viz: In the Sophomore year, Cicero and the Ciceronian and Augustan poets; and in the Junior and Senior years, Plautus, Quintilian, Tacitus, Persius and Juvenal. This reading is accompanied in the Junior year by a study of topics relating to the history of Latin literature.

Greek.—There will be five recitations a week in the Greek course which will extend over three years. During the Freshman year the student will complete the first four books of the Anabasis and a portion of Homer's Iliad. He will have daily exercises, both orally and at the blackboard, in translating into Greek. Such a drill will be given upon every point of Grammar, that this subject will be thoroughly mastered, before he finishes the Anabasis. During the Sophomore year, six books of Homer will be read and selections from Herodotus and Thucydides. The Junior class will read selections from the works of Plato, Euripides, Demosthenes or Sophocles. Lectures will be given in the Freshman and Sophomore classes upon Greek Mythology, Manners and Customs, and History of Greek Literature and Greek Art. During the Sophomore and Junior years daily practice will be had in reading at sight. In addition to the prescribed course, one weekly exercise, illustrative of the style and using the vocabulary of the author read, will be required. An advanced course may also be pursued in the Senior year.

DEPARTMENT OF MODERN LANGUAGES.

French.—During the first year, attention is given to conversation, the study of forms, the construction of sentences, writing French from dictation, acquiring a vocabulary, and reading familiar dialogues.

During the second year, special attention is given to etymology, the history of the language, translations from English into French, and reading the classic poets. During the other terms the time is devoted to the history of literature, the study of synonyms, and to extended and rapid reading of the standard authors, and to composition in French.

Italian and Spanish.—The study of these languages is entirely elective.

German.—There will be three recitations per week in the German course, extending through the Sophomore, Junior and Senior years. The class will commence at the beginning of the term to read Bernhardt's Sprach-buch, and, in connection with it, will study Wenckebach's Grammatik. The student will be required

daily, both orally and at the black-board, to translate from English into German. The first year will be given to the Grammar and the Sprach-buch.

During the second year Wenckebach's Grammatik will be continued, selections from Baumbach's Erzählungen will be read, and William Tell will be completed.

The third year will be given to Nathan der Weise and the first part of Faust, both of which will be completed and to selections from Goethe's Prosa. Special attention will be given to speaking and writing German correctly. The recitations will be conducted throughout the course in the German language. The Senior class also pursue a short course in the History of German Literature.

DEPARTMENT OF MATHEMATICS.

The required studies in Mathematics include Geometry, with problems and exercises in Geometrical invention; Algebra, Plane and Spherical Trigonometry, with their application to problems in Surveying and Navigation, and Analytic Geometry.

In the Junior year the study of the Calculus, and in the Senior year of Applied Mechanics, is pursued in the Scientific and Mechanical Engineering courses.

Elementary and Practical Astronomy is taught in the Senior year.

DEPARTMENT OF NATURAL SCIENCE.

The studies of the several classes have been so arranged as to make instruction in Physics and Chemistry a prominent part of the Collegiate course. Additions are from time to time made to the philosophical apparatus and every effort used to make the laboratories and cabinet as complete as possible. Contributions for illustrations of any of the branches of the department will be thankfully received.

Some important changes having recently been made in this department, an account of the work as now organized is here given.

1. *Biology*.—The scientific study of the Freshman Year will consist of courses in general Biology and Botany. The course in Biology will be held during the first term and part of the second. It will consist of a series of lectures combined with appropriate text book work, and reference to authority—the whole planned with a view to giving the student a general knowledge of the

most important types of life, from the Protazoa to the Vertebrates, especially as to the relationship of one type to another. Class demonstrations will be given, both in microscopic and gross dissection, the student being, as far as possible, familiarized with the use of the microscope and the simpler dissection methods. During this course, plant life will be studied with reference to its biological bearing, and in the early Spring the study of individual plants will be taken up in Botany. Special attention will be given to plant analysis, and frequent excursions will be made so as to study the habits of various plants. Students will be required to analyze from 100 to 125 specimens, and are expected to become so familiar with the characteristics of twenty or more families, that they can recognize at sight plants belonging thereto. Gray's New Manual of Botany will be the text book used and courses will be given in structural and physiological Botany.

2. *Physics*.—This subject is pursued for a year and a-half. The first term of the Sophomore year is employed in the study of Dynamics, Hydrostatics, Pneumatics, etc., also of the subject of Sound. The second term of that year is given to Heat and Light, and the first term of the Junior year to Electricity. The work consists of almost daily recitation from Ganot's Physics, accompanied by more difficult experiments performed by the Professor. The class will be required, in the solution of a large number of practical problems, to make frequent application of the principles learned.

3. *Chemistry*.—The second term of the Junior year is devoted to the study of general Chemistry. Remsen's Chemistry—briefer Course—is the text book used. During this term the student is familiarized with the general principles and theories of Inorganic Chemistry, illustrated by appropriate experiments. Each student is provided with a desk and the necessary reagents and apparatus. He is required to perform personally all the experiments mentioned in the text book, under the direct personal supervision of the Professor. Special attention is given to this course and every endeavor will be made to keep it abreast with the requirements of current Chemical Science. Additions in the way of apparatus are being constantly made, and a chemical

library, containing the latest and most necessary books, is at the disposal of the student. The total Laboratory expenses are assessed at \$7.50 per term and must be paid in advance of the course to the Treasurer of the College.

During the Senior year the subject of organic Chemistry is taken up. Lectures, illustrated by experiments, are given throughout the entire year. The text book is Remsen's Organic Chemistry, which is used as a basis for both lectures and laboratory work. In view of the fact that many students, who intend making medicine or pharmacy their profession, desire organic chemistry, special attention will be given to their needs in this course, in order that they may secure more detailed chemical information than schools of medicine or pharmacy, usually are able to give. In addition to class work in organic Chemistry, a course in Qualitative Analysis is also given, extending through both terms of the Senior year. Stoddard's Qualitative Analysis is the text book used. At the beginning of the first term, the student, who, by reason of his laboratory work in the Junior year, is already well acquainted with chemical manipulation, familiarizes himself with the action of the ordinary reagents on each of those chemical elements usually encountered. He then takes up Qualitative Analysis proper and continues it to the end of the year, under the personal supervision of the Professor. Quizzes are held at intervals and students are taught to inquire into and understand the scientific reasons for what they are practising.

For such students as desire to take Advanced Chemistry, there is provided a course consisting of laboratory work in Quantitative Analysis and reading in theoretical chemistry. Provision is also made for students desiring instruction in special lines of chemical work. The laboratory expenses for the Senior year are \$7.50 per term. For the advanced course the expenses are about the same.

Special attention is called to the amount of these expenses. They average less than the usual amount charged, and it is believed that no college in the country affords its students equal opportunities at so small a cost.

DEPARTMENT OF HISTORY, THE ENGLISH LANGUAGE AND LITERATURE.

In this Department instruction will be given—

In History.—A thorough knowledge of Greek and Roman History is believed to be the basis of all historical study, and these will first be carefully learned. This will be followed with a general outline of history as contained in Myers' Manual of Mediæval and Modern History.

The Advanced History (elective in Senior Year) consists of a critical study of the financial and political history of the United States. A course of reading from political documents and papers of prominent statesmen is supplemented by lectures and conversational discussions. The course is most advantageously pursued in connection with the course in Advanced Political Economy, but it may be followed independently.

In English Language and Literature:—

Under this head the History of the English Language is traced from its earliest forms to the present, and its development is illustrated by the study of selections from different periods.—Special attention is given to the literary and historical side of the language. The literature of a language or a country can not be divorced from its history.

In the Freshman and Sophomore Classes an effort is made to ground the student thoroughly in the principles of logical and rhetorical analysis; special stress is laid upon the sentence and the paragraph; an attempt is made to familiarize the student with a general outline of the scope and progress of our literature. The Junior and Senior Classes are concerned more especially with the Anglo-Saxon and Middle English periods; some acquaintance with the language of these periods is deemed an indispensable basis of English Grammar. While the student is furnished with a key to the rich and *historically* invaluable literature of our forefathers, he is at the same time given an opportunity to know the inner nature, the inherent power, the unique dignity, and the right to precedence justly due his mother tongue.

DEPARTMENT OF LAW.

International Law.—Text book, Davis's International Law. For reference, Woolsey's International Law is used. Events of recent occurrence, which afford an illustration of the principles of International Law, will be discussed. The subject is taken up in the first term of the Senior year.

Constitutional Law.—Text book, Cooley's Constitutional Law. For reference, Kent's Commentaries is used. Reference will be made to important decisions as rendered, when they may afford additional illustrations of the principles of Constitutional Law. The subject will be taken up in the second term of the Senior year.

DEPARTMENT OF MECHANICAL ENGINEERING.

The course in this Department will cover four years and consist of both *theoretical and practical* instruction. A work-shop has been opened, in which each engineering student is required to spend several hours per week. This shop will be enlarged as circumstances demand.

Each student also has several hours practice per week in the drawing room, receiving instruction in mechanical, linear-perspective, isometrical and free-hand drawing. In connection with this branch, during the Sophomore and Junior years, each student has one problem per week in Descriptive Geometry. These problems are made as practicable as possible. The Junior and Senior students have practice in designing, and each one is required to make complete working drawings of at least one machine of his own design.

The lectures in Design and Fabrication of Machinery, and in Contracts and Estimates, cover the Junior and Senior years, and are considered a very important part of the course.

For outline of the course, arranged by years and terms, see pages 27 and 28.

COURSE IN SHOPS, ACCOMPANYING THE COURSE IN MECHANICAL ENGINEERING.

Wood-Room.—Bench-Work; Wood-Turning.

Iron-Room.—Bench-Work; Lathe-Work; Drilling; Screw-Cutting; Tool-Making; Management of Steam Machinery.

Boiler—Shop.—Riveting; Patching; Bending; Manufacturing of Boilers.

Blacksmith-Shop.—Bending; Welding; Tempering; Forging.

The degree of Bachelor of Science, together with a diploma certifying to this effect, will be conferred at the Annual Commencement upon all graduates of this department.

FIELD SURVEYING.

Instruction in this department is both practical and theoretical. The student is required in the recitation room to solve problems, relating to the location of simple and compound railroad curves, and is taught the application of the primoidal formula to the calculation of earthworks. He is also taught the practical use of the transit and level in the field, and studies land surveying, the laying off and dividing up of land calculating the contents. The text book used is Davis' surveying (Van Amringe.)

ELOCUTION AND ORATORY.

This course is required work for the Senior and Junior Classes, one hour each week.

The work of the Junior year will consist of exercises in reading and declamation, with special attention to articulation and enunciation, supplemented by instruction in delivery.

During the Senior year a course in oratory proper will be given. Original orations will be required of each student as the instructor may direct. Each oration will be criticised from an oratorical standpoint, and personal instruction then given as to its proper delivery. The students will be required to speak before their classes, or in the presence of the Faculty and the student body assembled.

Lectures on oratory, with illustrations from English and American masters will be delivered from time to time.

The Instructor in charge of the Military Department is an officer of the Regular Army and a graduate of the U. S. Military Academy, West Point, N. Y.

The military exercises therein conducted are confidently recommended to parents and guardians as a means of giving to the student an erect carriage and soldierly bearing, of teaching him habits of prompt and ready obedience, and of affording a systematic and healthy exercise each day. The drill takes place at such an hour in the morning as to constitute a recess in study and recitation. All students, except those physically disqualified, are required to attend the drills, and for those who apply to be excused because of physical disability a physician's certificate will be required.

The names of three of the students most distinguished for their proficiency in this department are reported each year to the Adjutant-General of the State, and to the War Department, at Washington. It is probable that, in future appointments to the Army from civil life, applications from students reported, in each State, as above, will be given the preference.

I. ORGANIZATION.

For purposes of tactical instruction, the students will be organized into a battalion of two or more companies, designated Companies "A," "B," "C," &c., Corps of Cadets of St. John's College.

Those cadets who have successfully completed the theoretical course in Military Science and Tactics given to the Senior class, may, upon the discretion of the Commandant of Cadets, be transferred to an honorable and distinguished class, to be known as "The Reserve Class of the Military Department of St. John's College."

The Staff will consist of an Adjutant, a Quarter-Master, a Sergeant-Major, and a Quarter-Master Sergeant.

Each Company will have the following Officers and Non-Commissioned Officers: One Captain, two Lieutenants, one First Sergeant, four Duty Sergeants, four Corporals.

There will also be one Musician with each Company. The Officers and Non-Commissioned Officers will be selected by the Commandant of Cadets, with the approval of the President, for their soldierly bearing and attention to and knowledge of military duty. As a rule, these appointments will be made according to classes.

II. PRACTICAL INSTRUCTION.

The practical instruction in this school will consist of drills, of not more than one hour's duration, on four days of each week. The Cadets will be exercised and instructed during the year in the Infantry Tactics of the U. S. Army, comprising the School of the Soldier, the School of the Company, and the School of the Battalion.

Instruction in Artillery Tactics will be given in the School of the Soldier Dismounted, comprising Manual of the Piece, Mechanical Maneuvres, and School of the Battery Dismounted.

Breech-loading rifles with accoutrements, and three-inch field guns with necessary ammunition are supplied by the Ordnance Department, U. S. Army.

III. THEORETICAL INSTRUCTION.

This will comprise recitations in Infantry and Artillery Tactics, portions of U. S. Army Regulations and Military Law, to which will be added a course of Lectures on Military Subjects, including:

1st. Strategy, under which is considered Organizations of Armies, Preparations for War and Operations of War.

2nd. Grand Tactics, treating of the Tactics of Marches, Manœuvre-Marches, Combats, Battles, Pursuits and Retreats.

3rd. Minor Tactics.

CONCERNING UNIFORM AND REGULATIONS.

The uniform is required to be worn on all drills, parades, and other military duties, and all College students are required to provide themselves with it. (See Military Drill, page 69, concerning small boys.)

To insure uniformity in material and pattern, it is advisable that all uniforms be made under a contract which the College authorities have entered into with Messrs. Oehm & Co., Baltimore, Md., for furnishing the same.

The uniform of the Corps of Cadets, which is a modification of that worn at the U. S. Military Academy, West Point, N. Y., will be as follows:

For the Battalion proper (consisting of all College students, and those students of the Preparatory Department of sufficient size), dress coat and trousers of grey cloth. (The cost of the dress coat is \$12; trousers, \$6.00.)

For the Company of the Preparatory Department (consisting of all students wearing short trousers and who are too small to enter the Battalion proper), blouse and knee trousers of grey cloth. (The blouse costs \$10.25; the knee trousers, \$4.00.)

For all students, forage cap of dark blue cloth, with ornaments, consisting of gold embroidered wreath on dark blue ground encircling the letters "S. J. C.," in old English characters. Price \$2.00.

The purchase of the above is compulsory. In addition thereto, it is strongly advised and urged that all students of the College provide themselves with the blouse as well as the dress coat; and that all students provide themselves with the military cape-overcoat, of dark blue cloth, single breasted, concealed buttons, detachable cape, costing \$16.00.

It is suggested to parents that by providing their sons with both dress and fatigue suits the necessity of providing school or every day suits is obviated, since the cadet is thus equipped with all that is required both for military and academic purposes.—

The dress uniform may be worn, on occasions, as an evening dress suit. The overcoat may properly be worn both with civilian dress and with the uniform, thus obviating the necessity of the purchase of two overcoats. All these parts of the uniform have been found to be very substantial, becoming, serviceable and of moderate price. No student will be permitted to wear parts of the uniform with parts of civilian dress.

No uniform will be accepted until after it has been inspected by the President or Commandant of Cadets.

Chevrons for Officers and Non-Commissioned Officers will be of gold lace on black ground.

Competitive drills and target practice are held at the close of the session. The best drilled Company is distinguished as the "Color" Company, and the colors are borne by that Company in Battalion formation during the ensuing year.

Badges of honor are awarded to the best drilled cadets and prizes are offered for the best score at rifle practice.

The honors of the Battalion were carried off in June, 1892, by Company "C," to which the custody of the colors was assigned.

The following cadets were reported in 1892, to the Adjutant-General, U. S. Army, as having the highest stand in the Military Department of St. John's College: Cadet Captains Louis T. Clarke, A. Lacey Ewing, and Jno. I. Yellott, Jr. And to the Adjutant-General of Maryland, there were reported, as having evinced special aptitude in the Military Department, the three cadets above named, and Cadet-Lieutenants Marshall F. Oliver, Gordon Tull and J. Basil Gibson.

College Expenses.

	First Term.	Second Term.
Tuition	\$37 50	\$37 50
Matriculation Fee (on admission)	5 00	
Gymnasium Fee.....	2 50	2 50
Seat in Church.....	1 50	1 50
Hire of Furniture (if required).....	3 00	3 00
Steam Heat.....	8 25	8 25
	<u>\$57 75</u>	<u>\$52 75</u>

Other Expenses.

Laboratory expenses, when course in Chemistry is pursued, \$7.50 per term.

Boarding in the College Club, about \$75.00 per term.

In the above, no estimate is made for cost of uniform, (see page 42), or text books.

A student is also expected to provide himself with table napkins, towels, and the requisite bed clothing for a single bed.

There is also a small annual expense in the Literary Societies.

Funds of students may be deposited with the President of the College, or with some other member of the Faculty, who will disburse the funds thus received in accordance with instructions he may receive from the parent or guardian.

Students should be especially warned of the risk incurred by keeping money in trunks or other receptacles in their rooms.

GENERAL DETAILS ABOUT EXPENSES.

The tuition charges for day scholars, including residents of Annapolis and students from other parts of Maryland and from other States, not lodging and boarding in the College Halls are \$45.00 per term in the Collegiate Department

The annual college session consists of two terms, the first ending on the 14th of February, and the second on the third Wednes-

day of June in each year. All the college charges *are required to be paid in advance*, at the beginning of each term; and *no deduction will be made except for absence caused by protracted illness*. No student will be matriculated, nor will his name be entered upon the rolls of any term, unless he shall have presented to the President a receipt from the Treasurer of the College for all dues and arrearages, including a fee of \$5 for matriculation, and no diploma will be awarded unless the candidate shall have presented to the President a like receipt including a fee of ten dollars for a diploma. For the expenses of Senatorial scholars see page 50. Every boarding student is required to deposit with the Treasurer a fee of \$1.50 per term, to be paid by him to such church as the student may attend. An additional charge of \$2.50 per term will also be made upon *all* students for use of the gymnasium and for instruction in gymnastic exercises.

Students lodging in the College buildings and boarding elsewhere are charged from \$10 to \$15 per annum room rent.

Wilful damage, or damage resulting from carelessness, will be made the ground of additional charge, to be defrayed by the perpetrator.

Students holding Senatorial scholarships are required to lodge in the College Halls, and are provided with room furniture, for the care of which they are held strictly accountable.

Students not holding Senatorial scholarships are required to provide themselves with furniture. Furniture may, however, be hired from the College authorities at from \$3.00 to \$5.00 per term, according to its character and cost, and the hirer will be held responsible for all damage thereto, beyond the reasonable wear and tear of the same.

Disbursements will be made for personal expenses of students, if funds are deposited by parents or guardians for this purpose, *but no advance will be made by the College*. Books will also be furnished to students, provided a deposit of ten dollars be made for that purpose at the beginning of each term. At a final settlement, at the close of the year, the unexpended balance, if any, will be refunded.

BOARDING.

The two College dormitories, Pinkney and Humphreys' Hall, as well as the recitation building McDowell Hall, have each been provided with a separate steam heating apparatus of the most approved sort. These have been thoroughly tested during the severe weather of past winters and found entirely satisfactory. The lodging rooms have also been recently renovated, papered and painted, and other improvements made conducing to the health and comfort of students.

Students may board in the College Club, or in private families, but are not allowed to board at, or frequent Hotels or other public houses where intoxicating liquors are sold.

The Boarding Department of the College in all its branches is under the supervision of the President. The boarding houses will be closed during the Christmas and Summer vacations.

A College co-operative boarding club has been organized in place of the College Commons, and has been successfully carried on during the past year.

The club is managed by a committee of students, consisting of six representatives, one elected by each class respectively, and one from the Preparatory School.

They appoint a commissary and other officers, who collect from the members of the club their shares of the monthly expenses, pay the bills and receive for their services a small payment from each member of the club.

These officers are always students, and by the performance of such duties are enabled to materially reduce their expenses at College.

Under this system at the close of each month, an inventory is taken, all accounts are settled and the expenses are divided among the members of the club. An auditing committee is then appointed each month by the club, to examine the books of the commissary and to report to the club.

Each member must advance \$10.00 at the commencement of each month, and at the close must pay the balance due, as no deficit is allowed to run into the following month.

The exact cost of board for next year, including washing, lights and room rent, cannot be known, as market prices vary, but it may be safely estimated to be about \$150 for the whole session.

McDOWELL HALL,
ST. JOHN'S COLLEGE, ANNAPOLIS, MD.

Library and Reading Room.

Through the liberality of the Legislature of 1872, and donations from the classes of '71, '72 and '73, extensive additions have been made to the library, and by means of the regular library fund, subscriptions have been made to a number of American and Foreign periodicals. A complete library being an indispensable auxiliary to the intellectual advancement of professors and students, its claims are commended to the alumni and to the friends of education in the State. Any contributions of books or funds will be gratefully acknowledged.

There are now on the shelves about 6,000 volumes, which are carefully classified and catalogued, thus forming an admirable working library for the student. Among these works are 480 bound volumes of American and English periodicals. Easy access to the contents of these works is furnished by Poole's Index of all subjects treated of in home and foreign magazines.

The College library and reading room is open every day from 2.30 to 3.30 p. m., for reading and taking out of books and periodicals. The following magazines and reviews, furnishing all a student can reasonably need, are on file for 1890: Atlantic Monthly, Century, Popular Science Monthly, Harper's Monthly, Nation, North American Review, Literary World, Forum, New Princeton Review, The Academy, Harper's Young People, Saint Nicholas, American Journal of Philology, Lippincott's Overland Monthly, Scribner, Education, Scientific American, American Agriculturist, Andover Review, and the following British Reviews: Blackwood, Edinburgh, Westminster, Quarterly-Contemporary, Fortnightly, Macmillan, Nineteenth Century, and the Fliegende Blatter.

Coxswain—THOMAS STINE.

Substitutes,

W. G. COPPAGE, C. H. LYMAN.

THE GYMNASIUM AND BOAT HOUSE.

The new gymnasium has been thoroughly equipped with apparatus for a complete physical training.

In order to promote the physical culture of the students, classes will be formed for instruction in the use of Indian Clubs and in other gymnastic exercises. These classes will be adapted to all grades of strength and conducted under the direction of a competent instructor with due regard to physical development and the laws of health.

During the first term exercise in the gymnasium is required of all students three times a week; the remainder of the year attendance is optional. In the Spring term and during commencement week there will be an outdoor athletic meeting for prizes.

Further donations towards the gymnasium and re-building of the boat-house, recently destroyed by fire, will be gladly received from Alumni and other friends of the College.

Beneficiary Aid.

STATE SCHOLARSHIPS FOR BOARD AND TUITION.

The General Assembly of the State (Act of 1872, chapter 303, and 1879, chapter 315,) has provided for furnishing board, fuel, lights, and washing to the incumbent of one State Scholarship from each Senatorial District in the State, to be appointed by the Board of School Commissioners, by and with the advice and consent of the Senators in their respective districts, after competitive examination. The law requires that the candidates shall produce before the Board of School Commissioners satisfactory evidence of their moral character, and of their inability or the inability of their parents or guardians, to pay the regular College charges. A blank form or certificate, drawn in conformity to the above law, will be forwarded to the Secretaries of the several School Boards for the use of the appointees to the said scholarships. These scholarships are tenable for four years, and the incumbents are required by law to pledge themselves that they will continue students of the College for the full term of four years, unless prevented by unavoidable necessity, and that they will teach school within the State for not less than two years after leaving College. To obtain a full collegiate education, the object contemplated by the Act, candidates should be prepared to enter at least the Freshman Class of the College. The Boards of School Commissioners are earnestly requested to exercise great care in the selection of these students, and especially to appoint none deficient in preparation. The Faculty is empowered to extend the term of these scholarships one year in case of worthy students. The incumbents of these scholarships will hereafter be required to provide their own text books.

There are known to be at this date (June 10, 1893,) six vacancies in these scholarships, viz: One each from the counties of Worcester, Wicomico, Allegany, Washington, Baltimore and Queen Anne.

In filling these vacancies the Boards of School Commissioners are requested (other things being equal) to appoint those candidates who are not less than sixteen years of age, and are most advanced in their studies. It is desired that all applicants hereafter should be prepared, in at least Mathematics and English studies, to enter the Freshman Class of the College.

STATE SCHOLARSHIPS FOR TUITION ONLY.

The law of the State of Maryland (Act of 1892) granting an additional appropriation to the College, provides for the education of twenty-six State Students, in addition to the foregoing, free of expenses for tuition. These scholarships will be distributed among the counties of Maryland, in order of priority of application. The holders of these Scholarships will be required to provide the cost of their board, about \$150, (see page 39), and pay incidental fees for church, gymnasium, heat and hire of furniture.

SCHOLARSHIPS FOR SONS OF CLERGYMEN.

All sons of clergymen are given education free of charge. The Trustees of the Byrd Wyman Fund, Baltimore, also grant one or more scholarships, which provide both board and tuition to such students of the College.

BOARD OF EDUCATION.

The Board of Education of the Presbyterian Church grants aid to young men preparing for the ministry in the denomination. The aid may be obtained either while in College or in a Theological Seminary. At present the amount given is \$150 per annum.

FOUNDATION SCHOLARSHIPS.

The Board of Visitors and Governors have provided fifteen scholarships, tenable for four years, available for deserving youths residing in Annapolis. These scholarships provide tuition only.

COLLEGIATE SCHOLARSHIPS.

The following regulations have been made by the Board of Visitors and Governors for the establishment of scholarships in connection with the College.

For a permanent scholarship for tuition, \$1,200. For a permanent scholarship for board and tuition, \$4,000. For a scholarship for the tuition of a student through all the College classes, \$300. For a scholarship for the board and tuition of a student through all the College classes, \$1,000. For any other scholarships the sum reduced shall be in the same proportion, the money in each case to be paid in advance into the treasury of the College. The establishment of these scholarships is commended to the attention of the alumni and friends of the College.

Candidates for Admission to the Naval Academy.

Classes are formed solely for Candidates for admission to the Naval Academy. An instructor has been specially engaged to take charge of this work, and he is rendered such assistance as may be necessary.

The course of instruction is not limited to the requirements for admission, but students are advanced as far as possible in the mathematics of the first term in the Naval Academy. Candidates are received at any time of the year, and the instruction is very largely individual, special attention being given to the wants of every pupil.

This school has always had distinguished success in preparing young men for entrance to the Naval Academy, and has the highest endorsement from the Naval officers stationed at Annapolis.

Candidates may board in the College or in the town. Those who live in the College are subject to the regulations and restrictions which govern the regular College students.

The regular classes of the School are in session from the first of October to the fifteenth of May, when the Spring examinations commence, and from the first of July to the first of September, when the regular Fall examinations take place.

All the entrance examination papers used at the Naval Academy from 1879 to 1892 have been published by the College.—This volume is used as a text book in the school. Copies may be obtained from the bookstores in town, or will be mailed from the College upon receipt of \$1.25.

Among other advantages many be mentioned that the Candidates, who enter during the long term from October to May, have the privilege of being instructed in military drill and tactics; also, if desired, in French and Geometry, a knowledge of which will be found very useful after the cadet has entered the Academy.

EXPENSES.

Tuition for the long term, from October to May examination....	\$125 00
For less than the full term, per month.....	20 00
For two months, or less, per month.....	25 00
Board can be obtained at the College or in town, including fuel and lights, per month.....	\$15 00 to \$30 00

Society of Alumni.

The Society of Alumni holds its annual meetings on Commencement Day, on which occasion an oration is delivered by one of its members. All former students who have completed their collegiate education (whether graduates or not) at St. John's College, and left in good standing, are considered members of this society. It numbers on its roll many names prominent in history of the State.

The following are the officers for the present year :

J. SHAAF STOCKETT, '44, <i>President</i> .	
HON. JOHN S. WIRT, '72, 1st <i>Vice-President</i> .	
PROF. GEO. A. HARTER, 2nd <i>Vice-President</i> .	
HON. JAS. M. MUNROE, '74, <i>Secretary</i> .	
FRANK A. MUNROE, '84, <i>Treasurer</i> .	
HON. N. BREWER, <i>Historiographer</i> .	

A local association has also been formed at New York, to which all Graduates, alumni and friends of St. John's College living in or near that city are eligible. The officers are :

Philip R. Voorhees, '55, *President* ; Somerville P. Tuck, '62, *Vice President* ; Elon S. Hobbs, '82, *Secretary* ; Herbert Noble, '89, *Treasurer*.

E. R. CASSIDY,	C. W. SMITH,
J. O. FOWLER,	R. E. STRANGE,

J. W. ROBINSON.

THIRD PREPARATORY CLASS.

GEO. F. HAUCK,	CECIL BAKER,
C. N. JOYCE.	

Remarks.

This School is established primarily as a means of preparing boys to matriculate at St. John's College, but the courses of study have been so arranged that it is possible for graduates to enter other colleges, if they so desire. It is not an organic part of the College, but is under the supervision of the President of the College. The efficiency of the school is attested, among other ways, by the steady increase in the number of pupils during recent years.

ACCOMMODATION.

The boys who come from a distance, may lodge in Humphreys' Hall, which is reserved exclusively for their use, and take their meals in the Co-operative Club; or, if preferred, they may obtain board with private families in town, approved by the authorities of the school.

The rooms in Humphreys' Hall are large and commodious, and are lighted by electricity and heated by steam. As a rule, one room is occupied by two students, but a room can be secured for a single occupant by an extra payment for room rent.

ADMISSION TO THE SCHOOL.

No boy will be received into the School under twelve years of age, and candidates for admission into the lowest class must be well grounded in the elements of the primary branches, viz: English Grammar, Arithmetic, Spelling, Reading and Geography.

In order to determine which class an applicant is fitted to enter, he will be examined upon the branches which he professes to have studied elsewhere, and certificates will not be accepted in lieu of this examination.

COURSES OF STUDY AND GRADUATION.

Three courses of study are arranged: the Classical Course, the Latin-Scientific Course, and the Business Course. Each student must elect at the opening of the session which course he desires to pursue, and must then take *all* the studies of the class to which he is assigned. No student is allowed to change his course during the session.

At the end of each session, those who are deemed satisfactory in all the studies pursued during the year are advanced; those who are unsatisfactory, are required to pursue the same studies again during the following year.

A Diploma is granted to those who shall have satisfactorily completed all the studies of any course.

OFFENCES FORBIDDEN.

No boy is allowed to leave the School grounds at any time, unless he shall have obtained special permission from the Principal to do so.

The following offences are strictly forbidden:

The use of intoxicating spirits.

The use of tobacco in any form.

The use of profane language.

Playing cards, betting, or gambling in any form.

Reading books and papers which are disapproved.

Violation of these rules will render a boy liable to suspension, or may subject him to demerits.

Any boarding student who shall have received 60 demerits during any three successive months, will be put on probation for three months; if, during the three months of probation he shall receive 25 demerits, he will be suspended for a period of six weeks.

Any day scholar who shall have received 45 demerits for any three successive months, will be put on probation for three months; if, during the three months of probation he shall receive 20 demerits, he will be suspended for six weeks.

MILITARY DRILL.

The boys, who are old enough, are permitted to drill with the College Battalion and are required to wear the prescribed uniform. The younger boys are drilled in a squad by themselves. They are required to wear the uniform of fatigue blouse and knee breeches. (See page 42.)

GYMNASIUM.

An excellent gymnasium furnishes all the requisites for physical training. The boys are instructed three times a week in dumb-bell exercises and club swinging by a competent director, who is always present, and is careful to see that no hazardous gymnastic exercises are attempted by them.

LITERARY SOCIETY.

By permission of the Faculty a room has been assigned for the use of the Preparatory School, in which the boys meet once a week and pursue a series of readings, recitations and debates, after the model of the older literary societies, conducted by the students of the College. The Principal and Instructors of the School afford such help as may be derived from their suggestions and criticisms, but the society is managed by an executive committee, elected by the boys themselves from among their own number.

EXPENSES FOR DAY SCHOLARS.

The charge for tuition of boys is as follows:

First Class.....	\$60 per whole session
Second "	50 " " "
Third "	40 " " "

EXPENSES FOR BOARDERS.

Tuition as above (\$40 to \$60 according to Class, for whole Session.)
